RETIRED MINISTER FALLS TO DEATH UNDER WAGON

ZEPPELIN MAKES STEADY PROGRESS

ZEP OFF COURSE, SO'S HOOVER AND SMITH, SAYS WILL

(Special To The News)

NEW HAVEN, Conn., Oct. 13.—With this Zeppelin 1,200 miles to the south of its true course, and Al Smith, a Democratic candidate, 800 miles south of his true course, and Hoover going to New England, hundred miles north of what should be his true course, it's a cinch with such poor navigation all around some of these are not going to reach their destination.

But did you ever see as much ground covered and as many speeches made as these two vice presidential candidates are making? It's out of all proportion to the position. One of them is going to get badly fooled—the one that is elected.

Yours,
WILL ROGERS.

PA NEWC OBSERVES

New Castle Women's Clubs have arranged to have a voting machine placed in the courthouse, and to have demonstrations in its use on Tuesday and Wednesday of next week. The demonstration is being made so that citizens can become familiar with the voting machines, as an amendment is to be voted on in November allowing use of the machines in Pennsylvania.

Announcement in council session yesterday that arrangements may be made whereby the Rosena furnace dam in the Neshannock creek will be removed indicates a step in the way of flood prevention that may be of some avail. The matter is worth consideration.

Looks like rain!

Amendments to the state constitution to be voted on next month are published in The News tonight. Look them over.

According to farmers, there is need for rain now. The countryside is very dry. Following the consistent rainy weather for several months early in the summer has followed just as consistent a dry spell. It has been two months or so since there has been any heavy rainfall here.

Try going to church tomorrow!

Small game hunting season is about to be ushered in. Hunters should remember the rules of safety first.

Now that county institute for Lawrence county teachers is over, the schools in the county will start once more, to be interrupted only by Santa in December. There are two girls who commercialized on the institute. They sold candy, et cetera, at the meetings and the proceeds, they say, go toward buying nets for the Shenango township school tennis courts.

Pa Newc observes: that county teachers drove nice automobiles while attending institute—an old man walking down Washington street carrying what appeared to be a small trunk and loaded, too—a sweet young thing leading a very wicked bulldog down street on a chain—and another dog being led, which was also of the notorious bull pedigree, which wore a

Rev. McCormick Falls Under Wagon Loaded With Coal

Fatally Crushed As Wheels Pass Over Him; Accident At New Wilmington

DIES EN ROUTE TO HOSPITAL HERE

Was Hauling Coal To His Farm On Pulaski Road Friday Afternoon

As a result of being run over by a wagon loaded with coal, which he was starting to take to his farm from the station at New Wilmington, Rev. John R. McCormick, 64, retired, died en route to the Shenango Valley hospital here late Friday afternoon.

Rev. McCormick resided on a farm on the New Wilmington-Pulaski road about two miles west of New Wilmington. He drove his wagon and team to the railroad siding at the New Wilmington station and loaded the wagon with coal yesterday afternoon. As he started to leave the siding he was on the wagon and

Democratic Candidate To Stress Tariff Issue In Speech In Kentucky

Politicians Say Kentucky Choice This Year Is About Toss-Up

By GEORGE R. HOLMES
International News Service Staff Correspondent

NASHVILLE, Tenn., Oct. 13.—En-route with Gov. Smith in Kentucky—leaving in his wake across Tennessee a series of challenges to Herbert Hoover to debate with him the issues of the campaign, Gov. Al Smith broke over into Kentucky today to make his bid for thirteen more electoral votes.

In Louisville

Tonight he speaks in Louisville. His subject will be the tariff.

Kentucky is another border state where the fighting is keen and the outcome in doubt. Always a battleground. Kentucky presents this year probably as hot a conflict as can be found anywhere in the country.

Normally it is Democratic—but by the scantest of margins—and twice in its turbulent political history Kentucky has gone Republican in presidential elections. McKinley squeezed

Bermuda Citizens Scan Sky To Catch Sight Of Zeppelin

It Is Probable That Giant Airship Will Pass Bermuda Islands Sunday

HAMILTON, Bermuda, Oct. 13.—With latest radio dispatches here indicating that the Graf Zeppelin was speeding westward over the Atlantic somewhere between the 35th and 37th parallels today, it was estimated the first trans-Atlantic passenger and mail air liner would pass over this island late tonight or early tomorrow.

Although it was regarded more likely that the airship would arrive here tomorrow morning, searchlights and flares will play throughout the night to guide the air liner on its course.

Many flag decorations will be in evidence for the sky passengers if the dirigible passes here in the daylight.

Lakehurst Is Buzzing With Great Excitement Awaiting Big Zeppelin

All Is In Readiness For Landing Of Graf (Count) Zeppelin From Germany

Ground Crew Given Final Drill; Plan Tremendous Welcome To Visiting Airmen

By JAMES L. KILGALLEN
International News Service Staff Correspondent

NAVAL AIR STATION, LAKEHURST, N. J., Oct. 13.—All roads led to Lakehurst today. Great throngs eager to witness the arrival of the dirigible Graf Zeppelin from Friedrichshafen, Germany, converged here in every form of conveyance—by automobile, on foot, by bus, on special trains and even by airplane.

By nightfall fully 50,000 persons probably will be massed as near the spot where the trans-Atlantic dirigible will land as it is possible for them to get. Already police are beginning to have an inkling of what to expect in handling the huge throng.

Plan Great Welcome

Officials of German-American societies are on the ground completing arrangements for a great welcome for the 59 men and one woman who are aboard the world's largest dirigible. The Lakehurst naval air station authorities have completed all arrangements for the handling of the great air liner when it arrives. The hangar is in tip-top shape and ready to receive the Zeppelin. It will be wheeled in beside its sister dirigible, the ZR-3, now the Los Angeles, which four years ago made a similar flight from Friedrichshafen, albeit without passengers.

A grand reception to the officers and crew of the Graf Zeppelin will be extended Monday night at the air station. Music will be provided by the naval air station band and jazz orchestra will be imported from Philadelphia. There will be a vaudeville program, six boxing bouts and other entertainments. It will be "Lakehurst's official welcome".

Throng at Field

The real welcome, however, will come when the ship lands. There is every indication that the crowd that will roar its greeting to the Graf Zeppelin will greatly surpass the throng which cheered the ZR-3 on its arrival in 1924.

Radio advices filtering into the station here were eagerly scanned for information that would indicate the possible hour of arrival of the air liner. As the hour of arrival approaches interest increases and even the officials of the field have become imbued with the spirit of the occasion.

Up in the press room of the hangar telegraph instruments click stories of the happenings in and about Lakehurst. It is estimated that 100,000 words will be handled during the 12 hours preceding the arrival of the Zeppelin and twice that amount after

Torpedo Boats Are Searching Ocean For Missing Sub

French Submarine With 43 Men Aboard Believed Sunk In Collision

(International News Service)

PARIS, Oct. 13.—French torpedo boats searching for the Submarine Ondine which vanished while making a trial cruise from Cherbourg to Bizerta near Tunis, sped to Cape Finisterre today following reports from Rotterdam that the submersible was sunk with 43 men aboard in a collision with a Greek freighter near there.

The freighter the Ekaterini Goulandria reported upon arriving at Rotterdam that on the night of October 3-4 she rammed what was apparently a fishing boat and continued on her way after cruising about the scene of the collision for several hours.

The French naval ministry believes the supposed fishing craft was really the missing submarine.

The Ondine was one of the newest undersea boats of the French navy.

Hoover Greets Business Men In Conference

Three Business Organizations Send Leaders To Confer With Hoover

BOSTON SPEECH TO DEAL WITH TARIFF

Hoover Will Leave For Boston Sunday Night; Big Hook-Up Planned

By WILLIAM K. HUTCHINSON,
International News Service Staff

WASHINGTON, Oct. 3.—**After spending 48 hours in virtual seclusion, Herbert Hoover returned to the campaign trenches today to receive three business organizations at his headquarters.**

The Republican nominee was to play host to the "lucky" business paper publishers Hoover for president committee, the Business Men's Republican association and the engineers for Hoover committee. The three delegations, totaling about 150 men, came in private cars from New York, Cleveland and Chicago.

Hope to Bring Luck

Republican leaders look upon the business papers publishers organization as "lucky" because the same delegation visited President Coolidge at the White House during the 1924 campaign and told him they were bringing him political "luck". Coolidge won the election by a 7,000,000 majority and the Hoover strategists hope history will repeat itself. Hoover planned to return their greetings by making one of his impromptu speeches in the assembly room of his headquarters.

The nominee spent Thursday and Friday at his home, working upon the New York speech, which will be delivered October 22, and which will deal with business subjects. He already has completed the Boston speech, to be delivered Monday night, and it will deal almost entirely with the tariff and foreign trade.

Deals With Tariff

The Republican National committee issued a bulletin, commenting on the speech Hoover will make in Boston and confirming the advance prediction of International News Service that it would deal with the tariff and foreign trade.

Zeppelin Heading Toward Bermuda; Making Good Time

Expect Arrival In New York Late Sunday Night Or Early Monday

REPORTS FROM SHIP SAY "ALL IS WELL"

Big Zeppelin Is Now Averaging 70 Miles Per Hour In Trip

(International News Service)

Driving onward at an average speed of 70 miles an hour, without interference from storms, the aerial greyhound, Graf Zeppelin, bound from Friedrichshafen for Lakehurst, N. J., on her first overseas voyage, with passengers and mails, was more than half way to her goal today. She was about 1,700 miles east of Bermuda this morning and speeding rapidly ahead.

It was estimated in Berlin that the giantress would pass over Bermuda tomorrow morning and that she would reach New York Sunday night or Monday morning, circling the city, then proceeding to Lakehurst to land the passengers.

2,000 Miles From New York

It was estimated at mid-morning that the Zeppelin was slightly more than 2,000 miles from New York. After passing the Azores at 10 o'clock last night, Greenwich mean time, or five p. m. eastern standard, the course was slightly altered, but a steady speed was maintained. The weather was good and steamships reported intercepting a veritable flood of congratulatory messages to the dirigible.

Weather observers said there were indications of bad weather between Bermuda and New York which might detain the ship.

The naval radio station at Lakehurst early today heard the Zeppelin in wireless conversation with an unknown ship. It was thought that the Zeppelin gave her position as 36 west 36 north, but when the naval station communicated with the powerful Race station in Nova Scotia it was learned that the position given by the German airship was really 36 west and 32 north.

After passing over the Madeira Islands shortly before two o'clock yesterday afternoon Greenwich mean time, Commodore Hugo Eckener director of the flight, turned his ship in a northwestern direction and set forth across the Atlantic.

The general belief on both sides of the Atlantic is that the flight will be

Senator Borah To Follow Footsteps Of Governor Smith In Solid South

TEXANS TO HEAR DYNAMIC SPEAKER

(International News Service)

WASHINGTON, Oct. 13. — In the first serious effort of the Republican party to "break into" the solid south, Senator Borah (R) of Idaho will depart tomorrow to trail the footsteps of Governor Al Smith, the Democratic nominee, through Virginia, the Carolinas, Tennessee, Kentucky and Texas.

Republican "GHQ" announced that Borah would make a particularly determined attack against Smith in Texas, speaking at Dallas October 22, and from that time would follow the Democratic candidate until he gets back to New York City just before the election. Borah was personally delegated by Herbert Hoover for the campaign through the south.

He opens his tour Monday night at Richmond, Va., he will successively speak at Charlotte, Knoxville and Louisville before he goes into Texas.

Heavy Registration On Atlantic Coast Is Hoover Success Omen

Record-Breaking Registration Everywhere On Coast Speaks Well For G. O. P.

New York City Showing Keen Interest With 600,000 New Voters Already

(International News Service)

NEW YORK, Oct. 13.—Record-breaking registration throughout the pivotal North Atlantic seaboard states was hailed today by Representative John Q. Tilson, director of the eastern G. O. P. Speakers' Bureau, as a portent of "certain victory" for Herbert Hoover in every state in the section, including Governor Alfred E. Smith's own New York.

Women Enroll

The increase in the total registration and the vastly disproportionate increase in the registration of women constitutes one of the most amazing phenomena of the presidential campaign to date, according to managers of both parties. Chairman John J. Raskob of the Democratic national committee vehemently discounts the Republican assertion that the increased registration signalizes "an uprising of the feminine voters against Governor Smith's frontal attack on prohibition."

Three Babies Drowned In Detroit By Unbalanced Mother; Two Make Escape

MOTORISTS RESCUE MOTHER FROM DEATH

Rescuers Unaware Of Death Of Three Until Hospital Was Reached

(International News Service)

DETROIT, Oct. 13.—Beatrice Canterara, 32, today drowned three of her babies and was prevented by three motorists from taking the lives of herself and two other children in the same way. The tragedy occurred on the north shore of Belle Isle where the distracted mother, described by receiving hospital doctors as mentally unbalanced, had taken her five children yesterday noon.

In receiving hospital Mrs. Canterar remains hysterical and screams for her children. She believes police have robbed her of them.

The children she drowned are: Mary, 3; Anita, 2; and Gloria - 8 months old. Lawrence, 7 and Nellie, 8, fought away from their mother's grasp as she tried to hold them under the water.

The two older children also in receiving hospital suffering from exposure. They were able however to tell authorities what happened.

Mother is Rescued.

After Nellie and Lawrence had clambered up some rocks to reach land, they ran screaming along the North Shore road of Belle Isle. Raymond C. Langer, driving an auto saw the terrified youngsters and from their startled and incoherent cries managed to grasp what was occurring.

Langer summoned two other motorists, Walter Cheery and Stanley Russell to the river bank and saw the mother, her hands raised as though in prayer, sinking slowly beneath the water. The rescuers plunged after her and after a long struggle got her on to land.

The mother and two children were taken to receiving hospital. It was not until their arrival there that the police or Mrs. Canterara's rescuers learned of the deaths of the other children.

Advance Gifts Solicitors Get $12,000 In Week

Report But Little Opposition To Efforts To Fill Community Chest

PEOPLE INTERESTED DECLARES DIRECTOR

Agencies Are Doing Utmost To Eliminate Waste In Charitable Work

A total of $12,000 was secured during the first week of advance gifts solicitation toward filling the New Castle Community Chest for 1928-1929, it is announced today following a meeting of the Advance Gifts committee which took place Friday afternoon at Community Chest headquarters in the Greer building.

The men and women making the advance gifts solicitation report that they met with but little resistance, and the subscriptions as compared to the subscriptions of last year, indicate that the friends of the Community Chest are subscribing in about the same amounts as they did in 1927. A composite analysis of the reports of the first week's solicitation shows that a few people have decreased their subscriptions, a few have increased, and the majority are exactly the same as a year ago.

Not Yet in Full Swing

As is the usual case when the drive is not yet under full swing, the advance gifts committee is not yet working at full efficiency or at full strength.

With the budget set at $85,000, and with the agencies vitally interested in the work, there is but one result to the present campaign," states Herbert Peairs, the director. "I believe that the people of New Castle are interested in these worthy welfare institutions," he declares, "and that they will see that each one gets money according to its needs for the coming year.

"The agencies are rapidly being put on a more efficient basis, and more and better work can be done in the future. The boards of the institutions have endeavored in the past year to eliminate all waste, if any existed, reduce the reduplication of effort where it had been found, and to coordinate their efforts, amalgamating their business in such ways that maximum results could be obtained with minimum effort and cost."

Officer Fleeger Prevents Success Of Burglary At Penn Coal Co.

A lone safe cracker, evidently without aid or assistance, some time during the early morning hours forced an entrance into the office of the New Castle Feed and Coal Company, Moravia street, cracked the safe, secured $1,843 in cash and tin mill checks and made his getaway.

The same man was evidently engaged in an effort to force the safe of the Penn Coal & Supply company, corner of Moravia and Home streets, several hundred feet north of the scene of the first robbery about 4:30 o'clock this morning, when discovered by the vigilance of Officer Budd Fleeger, and was forced to flee without completing his job there, leaving behind his tools.

Operates Lone Handed.

Officers arriving on the scene, after the man escaped, following a strenuous effort on the part of Officer Fleeger to prevent his escape, failed to locate a machine or other men in the district, indicating that the safe cracker was an expert and operating lone handed. The officers answering Fleeger's call for assistance were Lockard and Dukes.

This morning Detective C. G. Logan and Officer Charles Longstreth checked up on the cases. State Police Officer Denton of the Butler barracks, picture and fingerprint expert, will arrive here early this afternoon and investigate the safes.

The reason that there was so much money on hand in the safe of the New Castle Coal & Feed company was

Car Goes Over Bank Into River

Two men, said to be foreigners, in driving along Croton avenue, near 512 that street, lost control of their machine and it went from the right side of the road across the street and ended in the river after going down the steep embankment at its side. These two men in the car were not injured but it was necessary to get a wrecker to remove the car from the creek.

These men were driving east on the street. They were unable to keep up with line of traffic and several cars passed it. Suddenly the driver of the machine, swerved his car across Croton avenue and down the steep embankment into the river, where a large boulder stopped it. The car did not overturn and was taken out by a wrecker, none the worse of its bath.

Freshwater Gets 8 To 16 Years In Penitentiary

Enters Plea At Court Today On Charges Made By Four Little Girls

Lawrence Freshwater, who was arrested on charges made by several little girls entered a plea of nolle contendere to the second count of the indictment, before Judges Hildebrand and Chambers in court this morning. He also pleaded on a liquor charge. On the latter he was fined $50 and costs.

On four charges by little girls he was sentenced to not less than two nor more than four years in the Western penitentiary in each case. The cases are not to run concurrently but the second starts at the end of the first and so on until Freshwater has served from eight to 16 years. He will get out in eight years if his conduct is good.

Other Sentences.

Lawrence Daugherty who failed to return a bicycle which he had borrowed and was charged with larceny, was paroled for six months.

Tom Shulak, for assault and battery was assessed $100 and costs and paroled for one year. Shulak, whose home is at Hillsville, was tried for possessing liquor but was acquitted. He is the man who is alleged to have had a fight with officers at a dance which was being given at his home.

Grant Shoaff who was sentenced on September 29 to the county jail for driving a motor vehicle while intoxicated, was paroled.

a success and that it will arouse fresh interest in dirigibles as swift passenger and mail carriers. The air worthiness of the Graf was shown by the fact that she bucked headwinds for 500 miles after starting her historic journey. Even with this handicap she travelled at a speed of about 50 to 53 miles an hour. After leaving Funchal, Madeira, aided by a steady tail wind, the dirigible worked her speed up to nearly 85 miles an hour. This was maintained steadily for hours until well out over the Atlantic.

The Zeppelin has kept in constant wireless communication with ships, reporting "all is well on board" at intervals. Weather bulletins were transmitted to the air liner, enabling Commodore Eckener to change his course at will to avoid squalls and gusts of windy rainstorms.

NEW YORK, Oct. 13.—The mighty Graf Zeppelin, enroute from Friedrichshafen to New York and Lakehurst, N. J., with 60 persons on board and a cargo of mails, met with an accident today when it ran into a sudden squall according to a radiogram direct from the ship.

The covering of the stabilizer was torn off, but repairs were started at once.

The message, which was sent at noon, said that all are safe and there is no cause for alarm.

Members of the crew set to work repairing and covering the stabilizer as soon as it emerged from the squall.

The dirigible proceeded on its way at the reduced speed of 40 miles an hour.

out a victory in '96 by 261 votes. Coolidge carried it four years ago by 24,000, although the combined Davis-Lafollette vote was greater than his. In all other years it has gone Democratic, but by small margins.

Kentucky Toss Up

This year the professional politicians call Kentucky a toss-up. Like Tennessee, the religious and prohibition issues play a big part.

Governor Smith brought his candidacy across the Kentucky border after a whirlwind day in Tennessee, a day which Democratic leaders of the state described as a day of triumph. It included two un-scheduled speeches and the greatest ovation and reception Governor Smith has yet encountered in his national campaign travels.

Yielding finally to the pleas of state leaders for "A Real Fighting Speech" in Tennessee, Governor Smith in Nashville last night went after Mr. Hoover without gloves. He included also President Coolidge and Senator Charles Curtis.

Missouri Next.

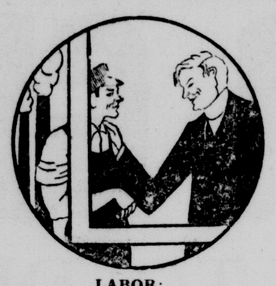
He accused his Republican opponent of "evasion, ducking, dodging and confusing" the issues of the campaign—from farm relief to prohibition, from water power to immigration.

Gov. Smith went into the prohibition issue with the same vigor as he did in Milwaukee. Again he described present enforcement conditions as farcial, and again he proposed to restore control of this question to the states themselves, subject to congressional limitation on the alcoholic content of beverages.

The Smith special left Nashville shortly before midnight for Louisville. The governor will spend tomorrow night and Sunday in the Kentucky capital, before proceeding onto Sedalia, Mo., for his next speech on Tuesday night.

Hoover Alphabet

By MABEL F. MARTIN



LABOR:

Hoover Is the Best Friend Labor Ever Had

Hoover never had a strike. For years he was in charge of vast mining operations involving thousands of men. He never forgot the human element. His first consideration was to provide for the men adequate wages, decent living conditions, sanitary habitations. Before Hoover ever wielded the powers of an executive, he had earned his living as farm boy, as office boy, and as miner. He pounded a drill, shoveled ore and pushed a hand car for eight hours a day or night. Hoover knows the hardships of labor, and the far greater hardships of unemployment.

It was at Hoover's suggestion that the president in 1921 appointed a conference of labor leaders, economists and business men to attack the problem of unemployment. When the conference began, there were millions of idle men. In three months industry was picking up and men were finding employment. Hoover understands the laboring man's problems from the inside.

Red Cross Makes Shipment To Hurricane Stricken Districts

Three boxes of men's, women's and children's clothing have already been forwarded to national headquarters of the American Red Cross by the Lawrence county chapter of the organization, Pat J. Clothing for the relief of those who were unfortunate in the recent hurricane in the West Indies, Virgin Islands and Florida districts comprised the shipments. The clothing will be recorded at national headquarters and then distributed to the needy sections of the southern region.

All of the donations were received from New Castle and Lawrence county residents. The local chapter appreciates the kindness of the contributors.

Included in the boxes sent to headquarters this morning were the following articles: Box No. 1, 24 articles of children's wear; 23 of boys' wear; 14 of men's wear and 33 of ladies' wear. Box No. 2, 100 articles of children's wear; 1 boy's hat; 8 articles of men's wear; 9 of ladies' wear; 7 neckties; 3 pocketbooks; 1 piece of dress goods; 5 pairs of ladies' hose; 4 pairs of boys' hose and 32 pairs of children's hose; 1 pair of men's hose; 2 pairs of men's shoes; 4 pairs of ladies' slippers and 10 pairs of children's shoes.

LAKEHURST BUZZES WITH EXCITEMENT

(Continued From Page One)

the huge craft arrives and details of the epochal voyage become available.

Extraordinary demands regarding quarters and subsistence for the extra personnel, crew of the airship and state police have been made upon Captain John Groff, commanding the marine detachment. Although he has marshalled all resources to lodge and feed them, he is faced with a real problem.

Housing Situation Taxed

The housing and feeding of the great influx of visitors is the biggest of all. Hundreds of persons have wired for hotel reservations and have been turned down. Many homes are being transformed into boarding houses and nearly all hotel rooms are equipped with extra cots. Even so, thousands probably will sleep in parked automobiles tonight.

At the hangar officials are united in predicting the safe arrival of the Zeppelin. They reiterate that there will be no difficulty in handling the airship. Whether it arrives at night or during the day. If it comes in at night it will obtain its direction from huge floodlights that will sweep the sky from atop the hangar.

Lieut. Scott E. Peck, in charge of the mooring division, put his regular ground crew of 270 men, as well as the 180 reinforcements, through a final drill and announced that everything is in readiness to receive the air liner. If the winds are bad when the ship arrives it may be necessary to attach it to the mooring mast in the field outside the hangar but this contingency will be avoided if possible. Lieut. Peck believes conditions will be such as to enable his men to wheel the Zeppelin into the hangar beside the Los Angeles.

Customs officials, health inspectors and immigration men will make an inspection before the passengers and crew leave the Graf Zeppelin when it arrives. The passengers will be put through a routine similar to that experienced by people who sail on ocean liners.

Deaths of the Day

Time of Funeral.

The body of Gasper Slapnik, late of Bessemer, whose death occurred in Phoenix, Ariz., arrived this morning and was removed to his residence in Bessemer.

Funeral services will be conducted Sunday afternoon at 3 o'clock from St. Anthony's church of Bessemer. Interment in St. Anthony's cemetery.

The deceased was 41 years of age. He left for Arizona about a year ago for the benefit of his health.

Mrs. Anna M. Metz.

Mrs. Anna Mary Metz, aged 78 years, died at her home on the Bessemer road in Springfield township, O., Friday evening at 9:15 after an illness of eight weeks due to complications.

Mrs. Metz was born in Lawrence county October 26, 1850, a daughter of Mr. and Mrs. Joseph Gilmore, pioneer residents of this county. She was a member of the Reformed church at Old Springfield, O.

In 1875 she was united in marriage to John Metz who survives her with one daughter, Miss Pearl Metz at home. She also leaves two sisters, Mrs. Florence Phillips of New Castle and Mrs. Samuel Burkey of Youngstown.

Funeral services will be conducted Monday, October 15 at 2 p. m. from the family home with Rev. William Shaw officiating. Interment in Zion cemetery.

Shannon Mills.

Shannon Mills, aged 12 years, son of Jesse and Emma Mills of 61 1-2 West Lutton street, died Friday after an extended illness.

The boy was born in Riverton, La., coming to this city with his parents about three years ago. Funeral arrangements have not been completed.

Mrs. Bonner Buried.

Funeral services for the late Mrs. Amanda Bonner were conducted from her residence on Euclid avenue Friday afternoon at 2 o'clock.

Dr. C. J. Williamson, pastor of the Highland United Presbyterian church officiated. The pallbearers were John L. Welsh, P. O. Elder, George Jones, Thomas Gilkey, Stewart S. Sampson and Harry Dunlap. Burial was made in Graceland cemetery.

HOOVEF GREETS BUSINESS MEN IN CONFERENCE

(Continued From Page One)

fluence upon the employment of millions of men and women will be discussed Monday night by Herbert Hoover in his address on tariff, foreign trade and other issues of the campaign to be delivered in the arena at Boston," the committee announced.

The committee also called attention to Hoover's record as secretary of commerce, when the nominee used every agency of the government to expand foreign trade and open new foreign markets for American goods. It further stated Hoover's address would be broadcasted over a coast to coast radio hookup, beginning with WCSH in Portland, Me., and ending with KGW in Portland, Ore.

Hoover will leave here for Boston late Sunday night, stopping in springfield and Worcester Monday morning and motoring into Boston from one of the suburban towns. He will leave for home immediately after his address.

Announce Services At City Mission

Charles Hoskins will be in charge of the services at the City Rescue Mission this evening at 7:30. Sunday School as usual Sunday afternoon at 2:30 in charge of Mrs. Howard Magill and Mrs. I. A. Zahniser.

HELLO!

Mr. Hardtofit, This Is Charley Pearce Hello Charley!

The other day Jake Miller was trying on his new suit I am making for him, and he said, "It is the best fit I ever had."

Well, Jake's hard to fit, Charley,

Yes, he is, lopsided and bow-legged.

Now, Mr. Hardtofit, I'd like to stake my reputation, that I can fit you just as well as Jake Miller.

Alright, Charley, I'll see you next week, by the way, how much do the suits cost?

Anywhere from—

$28 to $85

Fine, see you next week.

RETURN FROM STATE FEDERATION MEETING

Mrs. Charles Greer, president of the Lawrence County Federation of Women's club, Mrs. S. D. Pearson, Mrs. W. W. Sniff, Miss Rebecca Bowden, Mrs. S. M. Matheny, Mrs. Howard Kirk, Mrs. W. A. Pond, Mrs. J. G. Murphy and Mrs. Elmer Crawford, returned last evening from Lancaster, where they attended the 3rd annual convention of the State Federation of Pennsylvania Women.

Lancaster is a city about the size of New Castle, having many points of historical interest, in the city proper and surrounding towns.

While there the ladies visited the growing town of Ephrata, famous for the Cloisters of the Seventh Day Baptists, the first building being erected in 1730.

Another interesting site was in Manheim, where Stiegel began making his famous glass in 1765.

The guests were entertained very enjoyably with the "Iris club acting as hostess. Most of the meetings of the southwestern district were in the club house.

Among the guests was Mrs. John Frick, state president who has been a guest of the local club women, Miss Florence Diebert of Johnstown, Mrs. Ambrose Diehl of Pittsburgh, Miss Gertrude McKinney of Butler, Mrs. McCay of Meadville and Mrs. Elliott of Beaver, all officers of the state board. Mrs. Perry of the Allegheny County Federation, and Mrs. Grandy of the Beaver County Federation were elected on the nominating committee to choose the next state federation president.

Hallowe'en Party.

The Misses Grace Parker and Dorothy Double were joint hostesses at a Hallowe'en party in the latter's home, Highland avenue extension Friday evening. Games and dancing featured the evening's entertainment. Novel Hallowe'en suggestions in tones of orange and black were used throughout the home in decoration. Refreshments were served by Mrs. F. M. Double and Miss Grace Double.

The guests included the Misses Ruth Ingham, Lucille Murphy, Billy Morris, Viola Pregenzer, Eleanor Thomas, Josephine Allen and Messrs. Kenneth Atkinson, Albert Morris, William Jackson, Lawrence Blews, Fred Miller, Homer Donaldson and Walter Hoffmaster.

Women's Welsh Club.

Members of the Women's Welsh Club will meet in the Y. W. C. A. Monday evening at 8 o'clock. Following the regular business session there will be a hat social.

MISS MOORHEAD HONOR GUEST AT DINNER

As a courtesy to Miss Mary Moorhead, a former instructor in the New Castle schools, who is leaving next week to Asbury Park, N. Y., where she will reside with an aunt, teachers of the Thaddeus Stevens school where Miss Moorhead taught for many years entertained at a beautifully appointed evening dinner Thursday evening in the Granada Tea Room.

An elaborate menu was served at 6 o'clock. Tapers in crystal holders and autumn flowers in beautiful shades and coloring formed the decorations.

Covers were laid for the Misses Mae Blackwood, Martha McClurg, Alice Forest, Verlee Armstrong, Grace McFate, Grace Scollard, Anna Leonhart, Lucile Courtney, Ella Wolford, Grace Hockenberry ,Nancy Hilliard, Mrs. Lillian Cook, Mr. and Mrs. Book of this city and Mrs. Sallie Parker of Florida and the honor guest.

The after dinner hours were spent informally. Miss Moorhead received many useful and lovely gifts.

Mothers Circle.

Mothers Circle of the First M. E. church met in the home of Mrs. J. C. Leohner, Highland avenue, Friday afternoon. About 45 were in attendance. Devotionals were conducted by Mrs. Thomas Preston and Mrs. H. C. Weaver gave a most entertaining and instructive talk on "The Holy Land" where she was privileged to visit during the past summer.

Profusions of dahlias were used throughout the home in decoration.

Refreshments were served and the aides were Mrs. Emerson Davis, Mrs. Frank McArthur, Mrs. W. B. McIver and Mrs. J. C. Pherson.

Plans were made for a 1 o'clock tureen luncheon October 17 in the home of Mrs. J. A. Noss of the Mercer road.

Mrs. Mary Robinson of Cumberland avenue will be hostess at a Hallowe'en party in her home October 25.

Return From Europe

Mr. and Mrs. Thomas Francis, Craig street, have returned from an extended visit abroad. The greater part of their stay was confined to the British Isles, including London and numerous points of interest historically.

Most of the traveling was done by motor, and they report having fine roads.

Daughters of America

Daughters of America will have a card party in the McGoun hall, this evening at 9 o'clock.

ART CLUB TO HAVE LUNCHEON, THURSDAY

Mrs. H. D. Taylor, Sheridan avenue, will be hostess at a 1 o'clock luncheon in her home, Thursday, October 18, for members of the Art club.

The committee includes Mrs. R. J. Robison, chairman, Mrs. J. M. Carmichael, Mrs. Clinton Keagy, and Mrs. Norris Pyle.

This will be the first Fall meeting with Charles F. Owsley of Pittsburg as the speaker of the afternoon. His subject will be "The Development of Architectural Style."

Surprise Party

Mr. and Mrs. Frank Dewberry were surprised at a house warming by a number of friends and neighbors in their beautiful new home of eleven rooms on Sumner avenue, Thursday evening.

Dancing and music formed the entertainment of the evening. Musical numbers by Mrs. Frank Dewberry and son, Ellsworth and solo numbers by Hugh Hannon were given. During the evening Mr. and Mrs. Dewberry were presented a handsome chime clock, the presentation speech being made by Hugh Hannon.

Later in the evening lunch was served by the hostess.

Those present were Miss Ellen Sherry, Mr. and Mrs. Ed Hannan, Mr. and Mrs. Cassella, Mr. and Mrs. Forest, Mr. and Mrs. Louis Lamm, Mr. and Mrs. Walter Dewberry, Miss Mary McCullough, William Dewberry, Mary Keifer, Mr. McFadden and Mr. Whitely.

Divorce Granted To James Bowles

Russell James Bowles was granted a divorce from Iona Margaret Bowles in an opinion handed down by Judge Hildebrand today. They were marrier in August, 1924 and lived together until October, 1927. The application was made on the grounds of indignities, neglect of child and home. The testimony showed that they first went to housekeeping in furnished rooms. When Bowles suggested buying furniture he claims that his wife objected, asking him to wait to see how their married life was going to last. Bowles claimed that she once threatened to kill him with a knife, that she went riding with a married man and neglected her baby and home.

Here's Chance For Free Plane Ride

Penn Theatre Arranges Plan So You Can See New Castle From Air

Here you are good people of New Castle, come and get a ride in the winds free! Yes, a ride in "Wings" absolutely free. Enjoy the fresh breezes, the hills and trees from the Heavens; see New Castle from above. The opportunity is yours and at no extra cost.

Here is the plan. The Penn theatre collaborating with the New Castle Air port, located on the Youngstown road, and in conjunction with the filming of "Wings" the great air romance, offers 30 free rides next week. With the purchase of a ticket for "Wings" a coupon will be given. At each and every performance a number will be selected and the person in the audience holding the coupon with the same number will be entitled to a $5.00 airplane ride FREE of cost.

Five performances of "Wings" will be given daily, hence five persons will enjoy a ride on the wings of the wind as the guests of the Penn theatre and the New Castle Airport. Here is an opportunity such as has never been offered before to the people of New Castle and Lawrence county.

"Wings" will show all next week at the Penn theatre. It is admitted by all to be the one big outstanding air drama of the screen. It is a picture that has broken more house records and excited more extravagant praise than any picture of the past several years. It is enacted by a very clever cast with Clara Bow, Gary Cooper, Richard Arlen, Charles (Buddy) Rogers, Henry B. Walthall, Jobyna Ralston and a host of others noted in filmdom in the cast. Prices afternoon and evening, children 25c, adults 50c, and New York still pays $1.65 to see "Wings". You'll see "Wings" here exactly as New York sees it today, only difference is the admission. Time of performance: 1, 3, 5, 7:30, and 9:30 sharp.

So keep the date—all next week; the show—"Wings"; the place—Penn theatre; and the opportunity for a free airplane ride in your mind constantly and let nothing interfere with your attendance. To miss it will be the occasion of many regrets.

IF YOU ELECT SMITH, WHAT WILL YOU GET?

IF YOU elect Governor Smith to the presidency, what will you get?

Uncertainty.

Does the belief exist that in some manner he would restore legal drinks? If so, it is doomed to disappointment. By dragging prohibition into a presidential campaign the Democratic candidate has made it impossible to accomplish anything were he to be installed in the white house.

He has arrayed the entire south against his views and the next congress, whether Republican or Democratic, would inevitably repudiate every suggestion that he might make. He would be a leader without a following. His election would set back the cause he represents for a long period.

If there ever is to be a change it must be brought about by serious nonpartisan discussion carried on in an educational way in the various states.

Mr. Hoover recognizes that "grave abuses" have occurred and pledges an "organized searching investigation of fact and causes" as the "wise method" of determining how to correct them. Such an investigation would clearly and officially reveal the precise situation and provide material for intelligent consideration. The Smith proposition on the other hand is a vote-catching myth which would be swept into oblivion should he be successful in November.

The overwhelming issue of the campaign is the protection of American industry and the American standard of wages and of living rightfully declares the Philadelphia Inquirer. Closed textile mills, or mills on part time, prove the necessity for congressional action. What would happen in case of Democratic victory? Governor Smith, it is said, will talk about the tariff in Kentucky tonight. Herbert Hoover will discuss it in Boston Monday. There is no doubt where Hoover stands. He is for adequate protection wherever industry is affected by the inpouring tide of foreign goods.

Perhaps the governor can make himself better understood in his coming address, but in the meantime, while promising that he will not disturb legitimate business, he harks back to the Underwood Tariff act of 1913 as containing the "principle" of new legislation. That "principle" knocked industry into a cocked hat. With Democratic triumph the same old Democratic anti-protective leaders would be in the saddle. How do you like that outlook?

The governor is not in the open as regards immigration. Hoover is. Said Hoover down in Tennessee: "I do not favor any increase in immigration. Restriction protects the American home from widespread unemployment. At the same time we must humanize the laws, but only within the present quotas." But Governor Smith in his acceptance address, while agreeing that "the laws which limit immigration must be preserved," nevertheless recorded himself as opposed to the existing legislation. The danger in such an attitude is apparent. The moment a serious effort were made in congress to change to other quotas the floodgates of amendments would be open.

And be it remembered that every one of the Tammany members of congress have voted stolidly and solidly against restrictive immigration in the past. Tammany was Governor Smith's training school.

So if you elect Alfred E. Smith president of the United States, what would you get? We repeat the answer: Nothing but uncertainty.

FORTUNES

"SHIRT sleeves to shirt sleeves in three generations" goes an old saying. It implies that fortunes accumulated by one generation usually are dissipated by the third gneration. This is not true of American fortunes.

Whatever the ability of Americans to run their government economically and to save money there is one thing in their financial life that is undeniable—their propensity for holding on to the almighty dollar once it is within their reach.

All the outstanding great fortunes amassed by Americans have been increased by their heirs, with one exception, that of the Gould millions, and in this case it was the fact that the heirs were so bent on getting all that was coming to them that the fortune soon diminished through legal fights.

The second, third and fourth generations of heirs have built up and added to most of America's big fortunes. John Jacob Astor left 20,000,000 at his death in 1848. The Astor fortune now exceeds $150,000,000. Vincent Astor alone is worth $100,000,000.

When Meyer Guggenheim died in 1905 he left an estate valued at $50,000,000. His heirs are reputed to be worth ten times that much today. The DuPont estate has prospered even more under the guidance of the third generation. The Vanderbilt fortune continues to grow in spite of the financial setbacks of one of the younger members of the family. All of the older Standard Oil Company fortunes are "bigger and better" than ever.

This seems to refute rather completely the popular belief that rich men's sons and grandsons know more about spending money than about making it.

Some guests converse entertainingly at dinner and others get enough to eat.

It helps you to forgive your enemy if you get busy and make more money than he does.

Doubtless the upper class is the one that thinks a week-end consists of five days.

The Big Ship Coming.
J. A. Farrell Not Worried.
C. E. Mitchell Is Cheerful.
Faith and Works.

By ARTHUR G. BRISBANE
(Copyright, 1928, by N. Y. American, Inc.)

You will learn this evening of progress made by the giant Graf Zeppelin. Its departure from Germany, regardless of results in this particular flight, inaugurates real trans-Atlantic commercial flying.

When this was written, at five p. m. Thursday, the great ship had been seen fighting a heavy gale above the Mediterranean, making only 35 miles an hour, one-third of the estimated speed.

The dirigible will not be the final practical craft for ocean flight. A gigantic gas bag, offering such resistance to the wind, invites trouble, with especial danger from lightning.

All-metal heavier-than-air planes of terrific power, able to ignore waves of wind, as ocean steamers ignore heavier waves of water, will solve the problem.

Among the nations America is is fifth in steel exports. France, Germany, Great Britain and Belgium beat us in export trade.

John A. Farrell, head of the United States Steel, doesn't worry, for his one company makes more steel than all the companies of any other nation. There is comfort in that.

And whatever other foolish thing you may do, don't sell United States Steel short. Its unfilled orders the first of the month amounted to 3,698,368 tons.

Charles E. Mitchell, head of the National City Bank, biggest in America, is back from Europe cheerful. Everything is all right, says he, with American business and prosperity.

Mr. Mitchell, who knows about money, handling billions of it and having made enormous profits for his stockholders, says "there's nothing in the expansion problem" to worry anyone.

"Bonds are cheaper than stocks," says he. But if asked to exchange stock in his bank for bonds he'd say "No".

What's true of his stock is true of some other stocks, but you have to select the right ones. And don't gamble.

The President says faith is the nation's need.

Faith is the beginning, good works is the result.

Faith in Providence, faith in yourself, in your country, in your associates. All faith is strength. But "I must work the works of Him that sent Me while it is day; the night cometh, when no man can work." Faith alone won't do, it's too easy.

Japan will send to Brazil at least 1,000 colonists each year. Nachiro Fukuhara, head of $5,000,000 Japanese syndicate, will direct colonization in the rich state of Para, source of excellent rubber.

Already one city in Brazil is inhabited almost exclusively by Japanese.

The Japanese are kind to their children. No Japanese ever strikes a child. Consequently the children thrive, and families are big.

Grandchildren of Americans now living may see an important branch of Asia established on the continent south of us.

That is the business of Brazil and Japan, not ours.

Mussolini says the Italian press is perfectly free, but it must not criticize Fascismo, or his policies. Newspapers may criticize his violin playing if they choose.

Mussolini remembers that Napoleon said, "My government could not last two weeks if I allowed liberty to the press."

Extraordinary are Mussolini's success and good judgment. He appears on the page of history, a cross between Mohammed and Marcus Aurelius, and, apart from his assertion that liberty is an unimportant word, we find little to criticize in his doings, remembering that if Italy had not had Mussolini it would have had anarchy.

On election eve ladies of the Women's Christian Temperance Union all over the country will pray for "an honest election, an honest count and a victory for prohibition."

That's a little late for election prayers, from the human point of view. Everybody's mind is made up the night before election.

Providence, however, might at the last moment cause the Democrats to vote as the W. C. T. U. ladies wish. Nothing is impossible to Omnipotence.

Slaughter of the Chinese continues on a horrible scale.

More than 200,000 have been butchered by Mohammedans engaged in a religious war. Missionaries describe the massacres as particularly brutal and cruel, every man, woman and child in the villages attacked being killed, property burned, villages obliterated.

That is and always has been the nature of religious wars—most vicious and cruel. And to make it worse, Christians know that the Chinese Gods and "Allah", in whose name the killing is done, have no existence.

A railroad planning to dig gravel near Edison's birthplace, a kind lady asks an injunction, saying, "You mustn't spoil that sacred scenery."

Thomas A. Edison, practical, would say, "Go ahead and dig the gravel." He knows that one gravel pit more or less won't interfere with his reputation. His name will stand when others of his day are forgotten.

About This Time Of Year. BY FONTAINE FOX

Hints and Dints

Sun sets tonight 5:24. Sun rises tomorrow 6:10.

Late husbands and late meals are two of the foolish things causing divorce.

One of those wise cracking flaming youths who buy an old flivver and decorate it up and tear up the roads was hailed before a Detroit judge and when the court asked this yap what he meant by it he replied: "Oh, I guess just to be crazy." The judge appointed a luncy commission on him right there. This type of automobile driver needs a setting back in all parts of the country. They are the cause of many accidents and are mostly irresponsible financially and every other way. You know the type of birds referred to.

Philosophy is the realization that the wonderful woman sitting over there would seem very ordinary if you saw her every morning at breakfast.

A Pittsburgh woman wants a divorce from her husband because he hit their baby in the mouth and loosened its teeth because it cried for a drink of water. And there are some people who think the death penalty for criminals is too severe.

Who remembers when grandma wore a lace cap and knitted her own hose and mittens?

TIME IS ETERNITY.

Time is too slow for those who wait,
Too swift for those who fear,
Too long for those who grieve,
Too short for those who rejoice.
But for those who love, Time is eternity.

About this time of the year the farmers go out over their land and see if their "No Trespassing" signs are in proper working order. These signs often do some good with hunters who are first starting to hunt and are timid. The farmers and their families have to hide most of the time in the hunting season to keep from being shot for a groundhog or something. Farmers need a lot of relief and being rid of hunters is one of them.

We never run any mother-in-law jokes in this column because we think the mother-in-law is one of the greatest institutions in the world. We can think only kindly of a mother-in-law and if there is any that are not angels it's because some of her inlaws have made her otherwise. This ought to get a few annonymous letters.

LOOKING BACKWARD

Oh, say, do you
Remember, brother,
When it ran thus—
"Let's have another?"
—Lord Helpme.

What has become of the old-fashioned home that used to boast of a good-sized pantry, instead of a "cooler" built in the wall as a refrigerator?

Some bimbos are so dumb that when they look at a blank page their store of knowledge is doubled.

We watched The News baseball player crowds this year and we discovered that the crowds number much less than in former years. Some days only about six or seven hundred attended the player. At one time some years ago it was nothing to have six or seven thousand watch the play. Does this mean interest in the world's series is waning.

The health commissioner of Detroit declares there isn't a cold in a car load of kisses and that the kiss isn't criminal. We have thought that right along and have never let it interfere with our activities. Every now and then some sharp lets something go that is really pleasing and enjoyable by humans.

Any fool can make money, but it takes a smart man to spend it and get full value for it.

A woman told us yesterday that she knew a woman who only took The News to see the deaths that are in it. Omigosh!

A Los Angels actress got a divorce from her husband because he handed her a black eye. Seems to us that was a trifle matter when the husband also was an actor—probably one of those bad actors we read about in the story books.

A New York lady sued a surgeon 19 years after he performed an operation on her for $100,000 for leaving a needle in her abdomen. We wonder how she could prove it was the same needle he left in the opening. The court threw out her case.

Our old friend Joe Bulger says that the credit rating bureau could get some valuable information from the files of the Community Chest and other subscription propositions in town. Joe evidently has in mind the Indian Giver.

FOOLING THE BARBER.

Chicago barbers have an interesting practice, that their women customers have not been long seeing thru. Instead of cutting all the hair off with a few clips, so to speak, when a customer wants her hair bobbed, they snip it away, little by little, so that no mass of it remains long enough from which to form a switch. As few girls who have once bobbed their hair have the courage to let it grow again, without the assistance of a switch, the barber thus assures himself of a permanent customer. But the Chicago girls have learned to fool him. Now they first cut off the mass of their hair at home, going to the barber shop only for the final trim. There are tricks in all trades but ours.

The insect pests that cost the country most are the boll weevil, the corn borer and the humbug.

Our boloney for today: "I don't believe any church should influence the Government, not even my own."

Dear Hints and Dints:—I don't believe you will object to using your tremendous influence in trying to get our council to make a law that every man or woman who scratches a match on a new building front shall have to pay a heavy fine. If you will notice, all the new fronts, as fast as they are put up, are immediately stained with matches. I have known fellows to walk all the way from Hog Hollow just to get to scratch a match on one of those new pilasters in The New Castle News building. And they make a stain that won't come out. These same smokers love to scratch up the interior of a highly finished street car.

AN ART CRITIC.

"A good way to cut down on smoking is to light a cigarette every hour." But who ever saw a cigarette that would last that long?

The reason politics makes strange bedfellows is because all classes like the same kind of bunk.

"I am the choice of the people," says the statesman, having received 60 per cent. of the votes of the 40 per cent. who voted.

Doctors no longer use leeches, but they contrive to produce about the same effect by sending a bill.

Dr. Crane's Editorial

WHY GIVE UP

I have received a very pitiful letter from a woman out west.

She has had a hard time all her life. She has raised three children, who do nothing for her support. When her husband died he was found to have been improvident and left her no money. She has gone stone deaf. On top of this she has just had a very serious operation in a hospital.

She can see no way out. Nothing presents itself to her but continued suffering, privation and dependence. She is about ready to give up. What should she do?

Why give up?

Of course it is difficult for any one in comparative health and well being to give advice to sufferers. One is always open to the imputation of being supercilious. It is always easy for the philosopher to bear the toothache patiently when some one else has it.

At the same time, and at the risk of being called hard names, I repeat the question, "Why give up?"

Suppose you do give up. Will life be any easier to bear?

It is just as well to look squarely at the alternative.

When some one told Tolstoy that many kind, virtuous, and honest people had a very hard time, he replied: "What about those that are unkind, not virtuous and dishonest? Look about you. Do the people like that whom you know have any easier time?"

The Church in the Middle Ages is often accused of being very cruel. But what about the people outside of the Church. Were they any less cruel?

Life may be hard at best, but it is easier and pleasanter all around if we keep a stout heart and do the best we can under the circumstances.

Whatever may be in store for this woman, whatever deprivation and suffering, we can be sure that she will get along better if she meets her fate bravely and smilingly and does not give way to despair.

Whatever happens to us we are better off if we battle on and keep our chin up.

Despair is nothing but a bog, a quicksand, that engulfs the soul. It leaves us no spirit with which to fight.

When a Persian soldier told a Lacedemonian that in battle the Persian arrows would be so thick they would darken the sky, "then," said the Lacedemonian, "we will fight in the shade."

Monday—Preparedness.

Poincare's Reparations Talk Finds Little Sympathy Here

Insistence By Washington Government That French Debt Be Treated As Separate Proposition Approved By Press Generally

Premier Poincare's latest speech urging a connection between the German reparations problem and France's debt to the United States struck a no more sympathetic chord among American newspapers generally than did it in official circles at Washington.

As suggested by the TOLEDO BLADE, "mention of her debt to the United States seems always to give France an acute feeling of extreme poverty, usually followed by a disinclination to pay." The BLADE sees no merit in the effort "to complicate the debt with German reparations," and remarks that the obligation "already has been whittled down to the point of doing an injustice to the American taxpayer." That paper observes that "the suggestion does not appeal to President Coolidge," that "he is losing patience," and advises that "France will have to think up some other scheme to avoid the pain of payment."

"Bitter, solemn, uncompromising speeches, bolstering up war hates," by Raymond Poincare in 1922 and 1923, are recalled by the BUFFALO EVENING NEWS, which adds that "in the latest of his Sunday outbursts he showed that he had made little progress since the days of the Ruhr." The NEWS thinks that, "with respect to the reparations problem and the problem of the debts, Poincare is entitled to his point of view, but it is not acceptable in the United States"; and that, "as to the Rhineland, the refusal to evacuate that district gives point to the charge that France puts little stock in the Locarno pact, the Kellogg treaty or the League of Nations."

"Washington's reaction to Poincare's latest declaration on the subject will comfort those who feel that no further concessions should be made," says the SOUTH BEND TRIBUNE. "The present administration has spoken plainly on this and other occasions. * * * Since the entire was debts problem is closely intertwined with domestic financial affairs, it is peculiar that so little has been said about it by either party during the current campaign."

The MANCHESTER UNION states in similar vein: "In his concise way, President Coolidge has summarized his view of this proposal. German reparations shall not be saddled on the American taxpayer. This summary is logical and fair. The American government has already reduced France's obligation to the amount of her post-war borrowings. This would return to the American taxpayer approximately 50 for every dollar France received. In view of the concession already made, it is utterly unfair that America should be expected to assume a still greater proportion of the burden of the German or the French taxpayer."

"There has never been in history," in the opinion of the CHICAGO DAILY TRIBUNE, "a more grotesque conception of responsibility than is revealed or implied in the French attitude toward American loans and toward our relation to reparations reduction. If France thinks this reduction is inimical to her welfare, or that whatever benefits it may be expected to produce are of less value to her than what, by any possible scheme, she would be required to contribute, we would not quarrel with her statesmen for manfully restating it. But to expect America to make all the sacrifice or the chief sacrifice is either an astonishing example of French logic or a very clear revelation of faith in American gullibility."

With similar spirit, the FLINT DAILY JOURNAL suggests that "one might be tempted to believe that France is of the opinion that we lost the war and were paying the penalty for it." That paper points out that "in the last analysis, some one must pay this debt which France owes us," and inquires: "If France does not, who does?" The JOURNAL emphasizes the point that "the United States borrowed the money from several millions of American investors," and holds that "President Coolidge is right in declaring the incident closed."

"The advocates of reduction of the French debts have advanced many arguments, some of which have their points," remarks the OAKLAND TRIBUNE, "but the most zealous of those ask, as would Poincare, that the United States seek to bring about a reparations readjustment among European nations by slicing off a large part of the debt owed by France. If the French government's position is that indicated by Premier Poincare, reparations discussions will get nowhere." The ST. LOUIS GLOBE-DEMOCRAT calls the debt agreements "eminently fair," and is convinced that "it is hardly conceivable that any constructive purpose could be served by reopening them."

Showing a more favorable attitude toward the French position, the ROCHESTER TIMES-UNION states: "No amount of argument, no number of repeated assurances, will convince French public opinion that there is not a connection between their payments to us, and German payments to them. In this respect, they have logic on their side. And while it may not be desirable to recognize their relationship in a formal engagement, it would advance the liquidation of both problems to admit quite candidly that the relationship exists."

"Time may come, we have always believed that it will," concedes the BANGOR DAILY COMMERCIAL, "when the United States will take action materially to lessen the debt owed us by France, by a process of cancellation. But such action," adds the COMMERCIAL, "will depend on the generosity of the United States and its people rather than upon any foreign movement designed to compel or force such action." As to the present situation, the Bangor paper agrees that "the statement of Mr. Coolidge should be effective in persuading the French government that its suggestions of treating the two matters of French debt to the United States and of German debt to France, as interlocking, fall on deaf ears in this country."

The World AND THE Mud Puddles

GREATEST HELP TO PROGRESS

Transportation is a mighty force in the ongoing of civilization. It is a dominant factor in the growth of a community, and upon the measure and quality of transportation facilities depends to a great extent the success of community ambitions. Improvement and broadening of transportation facilities promote business, travel and convenience, and in so doing bring about better understanding through closer and more frequent contact between the people of various communities.

Travelers in China report that there is a thickly settled province there containing almost as many people as live in the United States. The province has only the primitive transportation facilities of centuries ago, and conditions reflect that accurately; for the people still live under the same general conditions from which the peoples of more progressive communities of the world emerged many generations ago.

In Cataract Canyon, Arizona, the Havasupai Indians, with no transportation, are living in the same way and under the same handicaps that they had 150 years ago, while other Indians of that locality who live in communities where there has been some advance in transportation have made corresponding strides in their manner of living.

Life in this year of 1928 depends upon transportation. The advantages and facilities of living today are amazing when compared with conditions of a hundred years ago, and constitute a striking parallel to the progress that has been made in transportation. When the horsedrawn vehicle was our best, a day's journey of twenty-five or thirty miles would be the standard. The automobile multiplied that distance ten times. The airplane has increased it again so that it is possible to travel more than one thousand miles a day. Business life and individual life is speeded up and broadened in proportion to transportation facilities.

The biggest change has come through the concurrent development of the automobile and the highway. Automobile progress has made it imperative to develop more and better highways. Before the automobile came, road improvements were carried on in a comparatively small way and under many handicaps. It is interesting to note that the first Federal Aid appropriation for highways was in 1806, and that the next Federal Aid was in 1916, more than a century afterward. It is probably true that railroad development halted highway development, and it is certainly true that the automobile gave it the new impetus which has now resulted in vast and expensive highway systems and well established programs for even larger and better systems.

In a matter of such vital importance it is gratifying to Pennsylvanians to know that Pennsylvania has emerged from the experimental stage of highway building, has profited by mistakes of the past, and is proceeding with confidence to secure a great transportation system. Engineering and economic principles of highway construction and maintenance as now established are sound, and if unhampered by political interference can be relied upon to create highway facilities that will be a tremendously profitable investment to all the people.

Chest Announces Winning Slogan

"To Care Is To Give" Wins $25 Prize Offered By Community Chest

CONTEST WINNER HAS CARD NO. 8

"To Care is to Give" that is the slogan for the 1928-1929 campaign of the Community Chest in New Castle and it is a very good one. It represents the spirit of New Castle and is expressive of the intentions of the givers to the Community Chest.

The writer of this slogan has card No. 8 and if the person having that ticket will come to the Community Chest headquarters, 324 Greer building to be identified the prize will be awarded.

The judges in going over the several hundred slogans submitted decided upon three as the most outstanding of all submitted. They are:

No. 7.—"Friend to the Unfriended."

No. 8—"To Care is to Give."

No. 22—Give so that they may live."

These slogans were submitted to the board of directors at their meeting Friday noon and the board decided that No. 8 "To Care is to Give" was the proper slogan for 1928-1929. This slogan will be printed on the letterheads of the Community Chest and all the window cards, posters and "I Gave" cards used in this campaign.

Crowd Watching Sensational Watch Demonstration

This picture was taken after a Gothic JARPROOF WATCH had been tossed from the roof of the NORMAN JEWELRY CO., into the street, by Jake Rentz of The New Castle News, on Saturday, October 6th. In the center front row, Mayor William H. Gillespie, is seen holding the Jarproof watch to his ear, while the astounded crowd hears him say, "The watch is still running and keeping accurate time right on the second". To the Mayor's right, is Emmanuel Shenkan, manager of the Haney Furniture Co., and to Mayor's left is Mr. J. W. Cole, of the Chamber of Commerce, who formed the committee. Mr. Norman can be seen next to Mr. Cole, with his hat off, as if to be saying, "To the Victor belongs the Spoils." Hundreds of people watched this demonstration, which took place at the Norman Jewelry Co's. store located at 5 North Mill street, New Castle, Pa.

Write Of Trip Down To Cuba

New Castle Residents Tell Of Experiences On Way To Convention

TOUR HURRICANE AREA OF FLORIDA

A very interesting letter addressed to the members of Daniel Leasure camp, United Spanish-American War Veterans, and of its auxiliary has been received from Mr. and Mrs. Orville, VanHorn and Mr. and Mrs. Harry Lash, who made the trip by automobile, train and boat to Havana, Cuba, to attend the 30th annual convention of the veterans of the Spanish-American war.

The letter states, among other things, that they had a very fine trip to date. Enroute south, they stopped at Gettysburg, Washington, D. C., and the old Spanish fort at St. Augustine, Fla., where they viewed the sights. They then motored to West Palm Beach where they viewed the destruction made by the recent hurricane. The situation there and throughout other parts of Florida, where the hurricane reached are terrible, they report.

From there they went to Miami, where they met a lady who was enroute to the convention and joined her at Miami Beach for the evening.

They stored their machine at that place and then proceeded by train to Key West, taking a sleeper. On their arrival there they went over to Havana on the steamship Governor Cox.

Here a rather unusual incident occurred. The first person to greet them was Ralph Crain, one of Mr. Van Horn's buddies in the 38th infantry in the Spanish-American war. It had been 30 years since Messrs VanHorn and Crain had seen each other.

Mr. Crain took them to his home—a very fine place—where they were entertained at dinner and met some of the principal persons present for the convention. They spent a day at Mariel Bay, where they visited a Ford Fordson plant and also a big cement plant. They also visited some very interesting old Spanish forts at this place and saw the battleship Texas come in.

At the time of writing the letter they had not yet seen Mr. and Mrs. F. F. Knowles, the other local people in attendance, but had heard they were in the city. There is such a crowd of visitors attending that it is like hunting for a needle in a haystack to locate persons other than those you went with, the letter states. Mrs. Lash states in the letter that she has seen enough to write ten books. The flowers and vegetation they report, are wonderful and most beautiful. It is hot, being 79 in the shade. There had been a shower every day dince their arrival, the letter stated.

Souvenirs provided for the occasion are very unique but rather expensive. They plan to return on an early boat to avoid the rush that will occur when the final rush to return to the United Stated is started.

To Begin Series Of Services At East Brook M. E.

A series of evangelistic services will be conducted at the East Brook M. E. church October 15 to 28. The services will be conducted each night at 7:30, except Saturday. Rev. J. L. Petrie will preach each night and David Rees will conduct the song services. A cordial invitation is extended to all to unite in the special series of services.

Glee Society Meets Sunday For Rehearsal

First Meeting Of The Fall And Winter Season To Be Held

It is anticipated that the society will give a number of concerts during the coming months and will also hold a number of social events.

FALL FROM WAGON FATAL TO PLUMBER

BEAVER FALLS, Pa., Oct. 13. — James C. Beightley, 46, former borough policeman and veteran of two wars, died in the Beaver Valley hospital from a fractured skull received yesterday when he fell from a plumber's wagon, near the Junction Park end of the Sharon bridge. Beightley was employed as a plumber and was enroute on the truck to his home when jolted off. His injuries were not believed serious at the time.

He had served 25 years in the regular army and had taken part in both the Spanish-American and the World wars.

Sentence Sermons

By Rev. Roy D. Smith, D. D.

IT OFTEN HAPPENS—

That the best man wins in spite of the party platform.

That a boy succeeds in spite of his father.

That a church survives a good deal of poor preaching.

That a silly girl disappoints a lot of people by making good.

That a man acts as if he was ashamed of his best self.

That the persecuted of one generation are the heroes of the next.

That the boy from whom we expected the least delivers the most.

Probably the hardest task of the candidate consists in giving a darn whether the farmer is relieved or not.

Erickson Gives Healing Sermon

Healing Is A Fact Now, As Formerly, Is Theme Of Evangelist

MORNING SERVICES START ON TUESDAY

Another huge crowd greeted Evangelist C. H. Erickson at Everybody's Tabernacle, at the corner of South Mill and Friendship streets, Friday evening, when the evangelist gave his regular Friday evening divine healing address to the some 1,500 assembled people from New Castle and the surrounding communities in the county.

That healing was accomplished by anointing 2,000 years ago, and it is just as much a fact today as it ever was, is the theme upon which Mr. Erickson preached. He stated that the Episcopal church recently included in their proposed new prayer book a special section which is for divine administration.

Immediately after the gospel singing, led by Mrs. Erickson, the evangelist called upon the people who have already been healed to give testimony as to the relief afforded them through prayer. Among those who testified was one small lad, who stated that Thursday evening he had not been able to see from one eye, but after the evangelist prayed for him he could see.

Following the testimony several selections were sung by the Alliance colored quintet, after which Mr. Erickson launched into his sermon.

"There are many who believe that God is able to heal the sick, but they are not quite certain of the fact," the evangelist asserted. "They are not quite sure that their knowledge is correct. They believe that it may have been possible some 2,000 years ago, but as to the present time—well, they are skeptical.

"But I say to you that healing is like salvation, it is for all who will believe that the Christ is their Saviour. And then, if they believe in salvation, there is no reason for them to disbelieve in healing. Others fail because of sin. Because of sin they cannot be healed, nor can they heal themselves. But God, if they believe in Him, will heal them. He will heal all. He is no respecter of persons or personages. God is merciful to all and He has never failed anyone who truly believes in Him and His word. He says "yes" to anyone and everyone who will believe. Then, if God keeps His word to one man, He will keep it to all men. Everyone can be saved and healed if they but come to God.

"If you are ill, you should come to God, because He wants you to come, and because He wants you to come is evidence that he will grant your request. God will give you the victory. He only wants you to come and obey."

At the close of the service many persons responded to the altar call and recognized the Christ as their personal Saviour.

This evening at the tabernacle a group from Oil City will be present and testify. Sunday afternoon there will be a service at 2:30, at which time Mr. Erickson will speak on the personality of the Holy Spirit. Sunday evening at 7:30 the regular evening service will take place. Monday there will be no services, and Tuesday morning at 10:30 the first of the morning services will take place.

Just Folks

By EDGAR A. GUEST

AN UNPREPARED DADDY.

If I had known, before you came,
How many stories youd require
I should have passed up every game
And spent my evenings by the fire
And read and read the countless pages
O fall the books of all the ages,
I should have lined those lower shelves
With tales of faries, goblins, elves.

If I had guessd that you would need
A dozen stories every night,
I should have sat up late to read
The tales the story-tellers write.
I should have said: "I must make haste!
I haven't any time to waste!
In six years more will Janet be
Demanding fairy tales from me."

Now here I am and here are you
Imploring me to tell about
The countless things the fairies do,
And I confess youve worn me out.
I've told you every tale I know
Of bears that growl and whales that blow.
I've given you all my fairy-lore
And still you're begging me for more.

Oh, grown-up men whoe'er you be
Prepare yourselves for fatherhood
And take this useful hint from me.
Stock up on stories as you should
For little girls it's wise to plan,
Read all the fairy tales you can.
For if you don't when they are six,
You will be in an awful fix.

IN SIGHT OF LAND.

"Cormorant was every bit as glad to sight land as were the Gulls, but he had a hard time making himself heard in the hubbub. At last however he managed to get a word in edgewise.

"'Next time you will take my word for things I hope. You would have seen the shore line first if you had not strained your eyes loking for it in the darkness. I knew I couldnt see, so I didn't try and when it really was before me my sight was clear to discover it.

"'Here! Wait a minute. Where are you fellows going now?'

"'Fishing, of course,' called one, over his shoulder, 'It would never do for us to greet our families on empty stomachs. We might faint from sheer joy. Having something to eat will help to keep us up.'

"'I never heard of such a thing,' screamed Cormorant, who was angry at being left alone in the air.

"The Gulls had roped down upon the waves and were busily snapping at the fishes that ventured too near the surface of the water.

"'The very idea of thinking of something to eat when you are so near your dear ones. Here you have been wailing with homesickness and the moment you come in sight of home you spend the precious moments, filling your stomachs. You really are the greediest birds I ever saw.'

"Suddenly something he did not quite know what, made him stop screeching. There below him on the waves was a great dark shadow—a shadow that had outstretched wings and a long beak and two great feet. It looked like a Gull but he knew of none so large and, besides the Gulls were all below him—he could see them plainly and this fellow was above—it was only his shadow resting on the water.

"Slowly Cormorant craned his head around so that he could look up with one eye. High above but swiftly drooping toward the unsuspecting birds was a winged creature that seemer huge in comparison. Then there popped into his head something a Gull had said. He knew who the stranger was.

"'Quick brothers fly! Defend yourselves! The Skua is upon you' cried Cormorant in a loud voice."

Heat Pads Taken On Polar Flight

Pittsburgh Man Invents Device Used By Commander Richard E. Byrd

(International News Service)

PITTSBURGH, Oct. 13.—"Heat pads", an invention of a Pittsburgh man, V. R. Baysinger, were taken on the Eleanor Bolling, the last of Commander Richard E. Byrd's South Pole expedition which recently left New York harbor.

The new heater is a pad of minerals weighing approximately a pound and which is chemically treated. It can be heated to 170 degrees or more by the addition of a small quantity of water.

Baysinger asserted that one application of water in his "heat pad" can retain an average temperature of 150 degrees for at least 12 hours. One gross of the pads were taken on Byrd's expedition.

Men's Bible Class Of First Baptist To Enter Contest

Challenge Men's Class At Gary, Ind., In An Inter-City Attendance Conflict

What promises to be a battle royal is the inter-city attendance contest between the Men's Bible class of the First Baptist church of New Castle, and the Every Man's Bible class of the Central Baptist church of Gary, Indiana. The contest is the result of a challenge issued by the local class to the class in Gary.

It will begin tomorrow and continue for eight weeks.

Each class is taught by its pastor, the Gary class by Wm. W. Ayers, and the local class by Geo. M. Landis. The teachers were fellow school mates at the Moody Bible Institute of Chicago.

The contest is limited to men above the age of eighteen. In order to count in the contest, all attendants must be in the class before 10 o'clock; at which time telegrams reporting the scores will be exchanged between the classes. It is expected that the contest will be close from the start. Report of the first day is anxiously awaited by both classes.

The local class had 107 men present at the Rally Day services last Sunday. It's president, H. H. Sherrard, with his corps of workers, is planning and plugging to beat Gary.

A cordial invitation is extended to all men who are not members of some other Bible Class, to attend the class at the Baptist church, which meets at 9:30 each Sunday morning, in the basement of the church. Entrance is by the North street door. A free copy of the Gospel of John will be given to all who come.

Woman Passenger On Zeppelin Sets Style For Fliers

Lady Drummond Hay, Only Woman Aboard Count Zeppelin, Has Elaborate Outfit

WELL FIXED FOR ALL RECEPTIONS

(International News Service)

FRIEDRICHSHAFEN, Oct. 13.—What does a woman wear when flying across the Atlantic?

Here's what Lady Drummond Hay, the only woman aboard the Graf Zeppelin, took with her:

She wore a black and white pin stripe tailored suit with a white silk blouse over which was thrown a black face clothcoat with a high Marie Stuart collar of ivory velvet, cuffs of the same material, close fitting hat, smoke gray stockings and black low heel shoes.

The outfit in her luggage, it was revealed, contains a black and white beaded satin evening gown, with crepe de chipe slippers.

There is another geranium pink evening gown embroidered with pearls, rhinestones and crystal with a large feather fan to match; an amber figured chiffon dance tea toilette, made of innumerable frills touching the ground at the back, but short in front; and an ermine cloak trimmed with white fox.

The hats look like glorified flyers' caps with wings and frills. They consist of a "sphinx" model of black stitched felt, framing the face in a kind of winged head dress. There is another crimson velour so close fitting as to have a turban effect. Also, there is a close fitting afternoon cap with a bunch of silver leaves on the right side.

Telegraph Company Employes Are Given Increases In Pay

Western Union Telegraph Company Votes Wage Increases For Employes

(International News Service)

NEW YORK, Oct. 13.—Annual wage increases of approximately $2,000,000 have been granted by the Western Union Teltgraph company to "several thousand" employes below the grade of supervisor, according to an announcement made public by the company today. This does not include increases of approximately $1,000,000 previously granted to employes of higher grade.

The increases were granted here last week at a "friendly conference, between company executives and representatives of employes. The pay rise becomes effective the first of the year.

Police Officials Of Former Regime Linked In Probe

Former Police Officials In Philadelphia Brought Into Present Probe

HENDRIE BROTHERS NOW IN CUSTODY

(International News Service)

PHILADELPHIA, Oct. 13.—Police officials of a former administration are reported to be linked with liquor graft by the confession of a former member of the crack rum-raiding squad organized during the term of General Smedley D. Butler as director of Public safety. The informant today was said to have given the special crime jury full details of the graft.

Federal warrants charging kidnaping of a federal dry agent have been sworn out against Al Hendrie and his brother, Ferguson, reputed beer barons, now being held without bail. The warrants also named Eddie Reagan, Philadelphia ganster and Jake Leinenbach, Easton brewer. Richard Kinsely, the agent kidnapped, identified pictures of the four men police claimed. Detectives are looking for Reagan and Leinenbach.

Brothers Arrested

The two Hendrie Brothers were arrested at Easton as a result of the special grand jury's investigation and are being quizzed by Prosecuting Attorney John Monaghan's force in an effort to unearth a connection with Philadelphia's police graft and liquor racket. Reagan is also wanted for questioning while Leinenbach forfeited $1,000 bail bond when listed for a hearing in federal court here.

The Hendrie Brothers are not expected to be arraigned before Monday. Meanwhile they are being held incommunicado in a city hall cellroom and despite their vigorous protests are forced to eat the regular prison fare.

SAFE CRACKER GETS BIG HAUL IN COAL OFFICE

(Continued From Page One)

because of the fact that Friday was a legal holiday and the banks were closed.

Discovers Robbery.

Ivor V. Davis, president and manager of the New Castle Feed & Coal company, was the first person to discover the robbery at his place. Arriving there about 7 a. m. on entering the office he saw evidences of robbery on every side, especially in the presence of three smashed drawers of the safe. He advised the police and officers were detailed to investigate at once.

It was found that an entrance had been effected by forcing a rear door. The safe, an old style one, had been forced open by knocking off the combination, which made it possible to reach in with the fingers or a wire and turn the tumblers and open the safe. Blowing of the safe was unnecessary. The inner compartment and drawers were then forced open and the money secured. A thousand dollars insurance against such robbery was carried by the New Castle Feed & Coal company.

Discovers Burglar at Work.

Officer Fleeger was making his rounds about 4:50 a. m. He reached the patrol box, corner of Moravia and Home streets, immediately adjoining the office of the Penn Coal & Supply company, and had opened it, when the sound of something like a hammer hitting the rim of a tire attracted his attention.

He determined with little difficulty that the sound was coming from the office of the Penn Coal & Supply company. Finally he flashed his searchlight in at the window working on the front of the safe.

Fearing to lose his quarry, if he went to the patrol box a few feet away to call for assistance and seeing no person in the vicinity, he devised the scheme of trying to make the man believe that more than one officer was on the scene.

The man had started to run to the back of the office when the light was flashed into the place. Officer Fleeger kept up a running conversation with an imaginary officer on the Home street side. He lighted his flashlight and placed it on the front window sill so that it would appear as though an officer was there. He then ran back and forward between that point and a window on the home street side, which the safe cracker had raised, evidently for the purpose of flight if possible.

On one of his visits to the open Home street window, Officer Fleeger fired two shots into the office at the safe cracker, they lodging in a door jam.

The safe cracker evidently sensed the fact that he was playing hide and seek with a lone officer and while Fleeger was in front managed to jump out of the Home street window and escape. He left his tools, a small axe and a number of drift pins, which were taken to the police station.

He had jimmied open the cash register and had also knocked off the combination of the safe before the officer arrived. A few minutes more and he would have succeeded in his attempt. As it was he secured nothing.

Fleeger called assistance then but no trace of the man or any evidence of an assistant could be found. Other places were reported entered but this proved false on investigation.

Breaks His Leg In Escape Effort

Jumps From Weinberg Alley Home And Lands In Hospital

When Captain J. Elder, Policewoman Mrs. Minnie McKibben and Officer Charles Longstreth visited the place of Mr. and Mrs. Charles C. Florence, negroes, on Weinberg alley, late Friday afternoon, Arthur Brown, 515 Young street, one of the visitors in the place, in an effort to escape, jumped from a second floor window. He had his left leg broken in the fall and had to be removed to the New Castle hospital for treatment. When he recovers, the police will ask him to be prepared to answer the charge of being a visitor in a disorderly house.

Those arrested at the place were Mr. and Mrs. Florence, three colored women and two men. Florence this morning paid a fine of $15 as the keeper of a disorderly house. His wife and the three women were fined $5 each, while the visitors were fined $5 each.

Scientists Will Not Get Remains Of Coast Slayer

Hickman's Relatives Turn Down Offers From Scientists And Doctors

(International News Service)

LOS ANGELES, Oct. 13.—The body of William Edward Hickman youthful slayer of little Marion Parker, sentenced to hang October 19, will not be turned over to science, Attorney Richard Cantillon said today.

Relatives of the condemned youth have refused offers of scientists and medical institutions desirous of studying the brain and other organs Cantillon declared.

Last hope of Hickman escaping the gallows was dissipated today when Warden Holohan of the San Quentin penitentiary expressed the opinion that the convicted slayer was sane. Had the warden held the personal opinion that Hickman was insane, the defense had planned to petition him to request a new sanity hearing.

NEW WILMINGTON, Pa., Oct. 13.—Three years ago last month Clifford and Kenneth Collins, brothers from Sharon, entered Westminster College as freshmen. They had been members of the same class at Sharon high school.

But despite the fact that their inclinations took them to the same college, they affiliated themselves with different fraternity groups. Clifford accepted the bid of Kappa Phi Lambda fraternity, while Kenneth decided to cast his lot with Delta Phi Sigma.

Now both are members of the senior class and Clifford is president of Kappa Phi Lambda while Kenneth is steward at the Delta Phi Sigma house. Kenneth was also recently made manager of the varsity tennis team.

Fire Completely Burns Old Barn

Grass Fire Brings Number 2 Company To Leasure Avenue Friday Afternoon

PREVENTION WEEK SUCCESS IN CITY

Fire, thought to have originated from sparks from a burning rubbish pile, completely demolished an old barn on the property of the Gilfillan company on North Jefferson street, immediately behind the Pennzoil gasoline station on Wilmington avenue, Friday evening.

The fire alarm, which brought out Number 2 company was sounded at 5:30. When the company arrived, they found the barn in a mass of flames. Nothing could be done, nor could the members of the department get into the barn to ascertain the contents.

Another alarm brought Company number 2 to Leasure avenue, near Wilmington avenue, at 3:30 Friday afternoon, where a small pile of rubbish and grass was burning. This was extinguished without any trouble.

"So far this week, we have not had practically any fire loss," stated Fire Chief Charles H. Lynn in commenting on the fires of Friday afternoon. "That barn fire—well, I believe that the owners should pay the company for burning it, for it was no good and should have been removed long ago. The grass and rubbish fire entailed no loss, and neither did the fire at the box company early Friday morning.

"In Fire Prevention Week, it is the object of the fire chiefs to keep the losses down, and I believe in New Castle we have done this very admirably. In fact, the record is so good, that the national board of fire underwriters should know about it, and I shall see that they do.

"This only illustrates that all fires are preventable, and I wish to thank the people of New Castle for their co-operation."

Rev. Landis Speaker At Bethel Church

Rev. George M. Landis, pastor of the First Baptist church, East and North streets, will speak to the young people at Bethel A. M. E. church, Green street, Sunday afternoon at three o'clock.

The service will be held in connection with the young people's drive being conducted at Bethel. Young people from the A. M. E. Zion, Payne Mission, Second Baptist, Union Baptist, St. Paul Baptist, Free Will and St. John's churches are invited to be present.

A musical program will also be a feature of the afternoon.

FIRST

Twenty-five members and guests of the Young People's Christian Union of the First United Presbyterian church of this city assembled in the Y. W. C. A. Friday evening for one of the most enjoyable gatherings of the year. Various games occupied the greater part of the evening, with refreshments and a short program of speeches following. A membership campaign, of which the aims were set forth by different officers, was launched at this time.

Miss Myrle Patterson, president of the Union in the Beaver valley, was in attendance and gave a talk on the Union's work. Other short speeches were given by Elizabeth Taylor and Robert Gilfillan.

Committee chairmen in charge of arrangements for the affair were as follows: central committee, Robert Gilfillan, Thelma Taylor, Rebecca London and Bruce Ewing, games committee chairman, Jean Bloomer; program chairman, Thelma Taylor; refreshments chairman, Edna Jackson; speeches chairman, Elizabeth Taylor. Assistants were Helen Hammond, Marguerite Jackson and others.

Dean Will Case Opinions Handed Down At Court

Judge Chambers Holds That A Declaration Must Be Filed Within 10 Days

CASE WILL THEN BE TRIED BY JURY

Register And Recorder Given Authority To Appoint Temporary Executor

Litigation over the will of the late Mrs. J. J. Dean must take definite form in the shape of a declaration to be filed within the next ten days, under an opinion handed down by Judge James A. Chambers today.

Judge Chambers also issued an order for letters of administration to be issued by the register and recorder, to a person who will take charge until, the final outcome of the litigation is determined, when a permanent administrator will be appointed.

This case first reached the court on a petition of heir of Mrs. Dean to have the probate of the will set aside, on the grounds that it was not in the handwriting of Mrs. Dean, and was not in reality her will. Jane Ligo, principal legatee under the will that was probated, issued a rule on Ida B. Dodson, and the other heirs who were fighting the probate, to show cause why a judgment of non pros should not be issued for want of a declaration. The rule granted on this is discharged in Judge Chamber's opinion today.

Must Try Case

Opinions by Judge Chambers today mean that there must be an issue framed between the disputants, Jane Ligo and Ida B. Dodson, and others and that the case must be tried by a jury.

Register and Recorder, Jeannette Hutton, will have full power to appoint the temporary administrator, under the court's order. Miss Hutton stated today that she would probably make the appointment the first of next week.

Other Decisions

In the cases of Joseph A. Rocco against John W. Tillia and Samuel H. Stillwagon against John W. Tillia, Judge Chambers handed down an opinion in which he refused to strike off statements of claim as filed. The case grew out of an automobile accident on the New Castle-Ellwood road, in which Rocco and Stillwagon were injured, and sued Tillia for damages, claiming the accident was due to his carelessness.

In the case of Kenneth R. Crane, by his father, Charles Crane and Charles Crane in his own right against William Sadler, motion for judgment n.o.v. and for a new trial was refused. The case grew out of an auto accident on the New Castle-Youngstown road. The verdict awarded $1000 to Kenneth Crane, and $1500 to his father, Charles Crane.

Police Probing Alleged Death Of Young Girl

Note Found In Woods Near Dover, Massachusetts, Says Girl Was Slain

(International News Service)

DOVER, Mass., Oct. 13.—New England-wide search was being made today to learn if a girl named Marian Daugherty was missing, and police were digging into a gravel pit in the woods near the Charles river as the result of the finding in the croach of a tree a note purporting to be a murder confession.

The note, discovered in a tobacco tin, read:

"The body of Miriam Daugherty is buried under the mound near the swimming pool. I couldn't help doing it. Edgar."

Police were inclined to the opinion that the note was the work of a practical joker but decided to investigate.

Exhume Body Of Man To Locate Cause Of Death

(International News Service)

WASHINGTON, Oct. 13.—Fear that their father may have been poisoned was given today by Mary Perchek of New Kensington and Helen Perchek of Pittsburgh, as the reason for an investigation in which the body of Merto Perchek, their father, who died September 28, was exhumed.

Perchek, a tin mill employe of Canonsburg, was said to have expressed his belief to several persons before his death that he was being poisoned. He complained his coffee tasted queer.

County Boy Scouts Do Many Good Turns For Community

The Boy Scouts, which have as their slogan "Do a Good Turn Daily," and daily live up to it also have made a practice of doing all the good turns of a civic nature they possibly can, and in this they have succeeded since the beginning of 1928. That this is a busy organization is proven by the civic "good turns" listed below: which is but a part of the work they have done.

Several dozen bird houses and feeding stations built and birds fed regularly.

Attended movie show in a body to learn of the haunts and habits of wild game life. This movie was given by the Lawrence County Sportsmen Association.

About 20 scouts acted as color bearers and ushers at the United States Army Band Concert held here in February.

Troop 15 Bugle and Drum Corps have held several parades in conjunction with all the other scouts in order to arouse interest in Scouting.

Scout Circus or demonstration of scouting given on March 23 at which time a large number of the citizens of the county attended.

Large number of scouts attended the Pittsburgh Merit Badge Exposition, also parents, friends and troop officials.

Three eagle scouts presented to Mayor Gillespie, Judge Hildebrand and Judge Chambers the Scout handbook.

Several hundred tickets were sold by scouts for Earl Lin Dilks benefit, cross country runner.

Over sixty thousand trees have been planted and many more to be planted in the near future.

Passed three thousand fly swatters and pieces of literature urging the destruction of the fly.

Boys took charge of Pet Parade during Boys Week sponsored by the local Rotary Club, also took important role in conducting Boys Parade during the same celebration.

Several religious hikes, day hikes, and overnight hikes have been taken by the various troops.

A former member of our New Wilmington Troop 1 who recently moved to Alexandria, Egypt, is there starting a Scout troop.

Scouts of 15 years of age or over have started a club for themselves known as the Gimogash Club.

Scouts worked in conjunction with Game Protector Johnston.

Several troop Father and Scout banquets were held.

Scout Band for all troops started and in conjunction with Scout Bugle and Drum Corps have held several parades, demonstrations and concerts in New Castle and at Ellwood City where last week they paraded for publicity purposes in connection with the Community Chest drive. Moving pictures were taken of this event.

Anniversary Week observed in ways suggested by National Council.

Merit Badge booth exhibition held at local store, winner to go to Springfield.

Several troops attended church in a body and special service held in one of the churches for all scouts of the county.

Scouts passed literature pertaining to State Society for crippled children.

Over 25 boys assisted at District Rotary Club convention which was held for three days. A lot of publicity was given the Scouts for this work.

Large forest fire between New Castle and Ellwood City was put out by the Scouts which served to give a lot of publicity. Several other smaller fires were also put out.

Furnished music for a Y. M. C. A. program.

The Scouts have appreciated the opportunities which have been afforded them and are on the lookout for more.

The Boy Scouts have many friends in Lawrence county; many who are enthusiastic in the Scouts' development and growth. As such they find the organization worthwhile and contribute to it willingly through the medium of the Community Chest. With the Chest campaign now under way there is an opportunity for everyone in Lawrence county to make an investment in the boyhood of the community—it is an investment that will pay the largest return of any investment any person can make. That the investment will be judiciously used is attested to by a glance at the personnel of the officers and members of the Board of Lawrence County Council: Dr. W. C. Wallace, president; Rev. C. J. Williamson, first vice president; R. L. Wallace, second vice president; David M. Kirk, third vice president; J. W. Offutt, fourth vice president; C. A. Martin, fifth vice president; Rev. Father F. S. Clifford, sixth vice president; Rev. Harrison Davidson, seventh vice president.

Frank F. Fisher, treasurer; William Kerr, chairman district committee, Ellwood City; J. Lee Calahan, Scout Executive, John E. Dye, scout commissioner, C. R. Knally, assistant executive.

Members of the executive committee in addition to the officers are: D L. Cole, Louis B. Round, William G Ayers, T. W. Johns, Hon. James A Chambers, Charles E. McGrath, James M. Hughes, J. Daniel Reebel, Owen P. Fox, James W. Cole, Harold R. McCullough, Charles T. Metzler. Rex L. Patch.

Merchants Asked To Return Credit Questionnaires

Merchants Should Return Survey Blanks To Government Now, Says Hall

Merchants who have not as yet filled out their questionnaires concerning the national retail credit survey are asked to do so immediately by Ray Hall, manager of the New Castle Credit exchange, and key man for this district in the survey which is attempting to determine credit conditions throughout the entire nation.

"That we have these facts is of vital importance," states Mr. Hall. "Previous to this time there has been no survey made regarding credit and the existent credit conditions in the country, and very little if anything is known about the country wide conditions. Each and every credit organization must find from experience which is the best course to pursue.

"The purpose of the survey, which is being made by the United States Department of Commerce, is the first attempt to ascertain positive and reliable figures which will be of great benefit to merchants in every state. Any merchant, whether a member of a credit bureau or not will have access to the statistics found and the determined results from this survey which covers the entire nation."

The questionaires were mailed out some time ago, states Mr. Hall. Thus far, the Department of Commerce has advised Mr. Hall that they are being promptly returned with the desired information, but that there are still some more in the county which have not as yet been sent to the United States department.

The local manager of the credit exchange is asking that the merchants of the city and county will co-operate in this national movement by the government to determine credit conditions.

Old Pennies Are Big Feature In Coin Collection

Man Has One Of Every Issue Of Pennies Made Since 1793

(International News Service)

MONONGAHELA, Pa., Oct. 13.—A partly melted penny, rescued from the Chicago fire in 1871; a penny dug out of a post hole on the Monongahela river shore; a penny of every year's issuance since 1793 with the exception of about six years; an ancient coin of the Orient and paper money of all kinds and descriptions are included in the old coin collection owned by Charles W. Coatsworth of Monongahela.

Seven big copper cents given him when he was a boy made Coatsworth an enthusiastic coin collector. For 46 years he has been an ardent collector and his ambition is to make a complete collection.

Coatsworth tells of walking several miles to get a penny that he had heard of and needed for his collection. He said that at other times he would secure hundreds of pennies at the bank and go over them in search of coins he needed.

In his collection is a copper cent with the date 1815 plainly legible. According to authorities, no pennies were coined that year, but he has been advised by government officials that it is possible that the penny is a proof cent.

The date of the coin which Coatsworth said is a survival of the Chicago fire cannot be determined.

New Wilmington Discusses Matter Of Improving Fire Fighting Service; Other News

(Special To The News)

NEW WILMINGTON, Oct. 13.—With the individual presentation to citizens of the town interest is becoming apparent in two local conditions. They are the condition of the fire department and of the borough recreational plant. It has been pointed out that the present fire-fighting in the college is becoming inadequate.

Enlargement of the recreational facilities here is also being advocated by a number of individuals. With the growing interest in these two subjects it is probable that a citizens meeting will be held soon.

A short series of pentacostal meetings at which the Rev. L. D. Warren of Versailles, Ky., will preach is planned to be held in the community house here starting this evening.

The local Naccanna club held a meeting last night at the home of Mrs. Elsie Wible.

A meeting of the local Neshannock chapter of the D. A. R. is to be held this afternoon at 3 o'clock at the home of Mrs. S. A. Kirkbride.

Dr. J. Howard Boyd, Miss Mary Jean Boyd, Miss Rosamund Sowash and Miss Peggy Sowash journied to Pittsburgh yesterday afternoon in Dr. Boyd's car.

Word reached here yesterday that Mrs. G. Sowash reached Port Said on her way to the mission field in India. At that point she joined her two sons Geoffry and Ronald.

Stock Market Problem Is Difficult To Solve

Industrial And Business Conditions In Fourth Quarter Very Favorable

Steel Industry Continues To Make Rapid Advances Toward Prosperity

By W. S. COUSINS
International News Service Financial Editor

NEW YORK, Oct. 13.—American industrial and business conditions in the fourth quarter are unusually favorable, and all indications point to a record-breaking season for the major industries, as well as for numerous branches of trade which have been on the "sick list" since 1925. The "profitless prosperity" complained of by the heads of the steel, copper and other industries appears to be passing as the result of the stiffening of prices for raw and manufactured goods.

The stock market is a problem and a conundrum which the bankers and economists seem unable to solve. In the face of the most adverse criticism of stock price trends, over-use of bank and credit, undue speculative activity in all parts of the country and repeated warnings against the pyramiding of stock values, the marked rushed ahead at a break-neck pace this past week, numerous speculative favorites scoring new high price records for all time.

Eager To Buy.

Distribution-time for the pools and professionals, according to the Wall Street experts, yet the pools enthusiastically report that the public is so eager to buy their stock that it is much easier to sell at the top than to buy at the bottom so much momentum has been created in the rise of favorite stocks that in many cases they continue to climb after the distribution has been completed. Never in the history of the country has there been such an enormous volume of money awaiting investment, and never has the investing public been willing to accept such small immediate returns in anticipation of future profits on its investments.

The gradual increase of freight car loadings on the American railroads is a favorable commentary on the movement of goods in domestic commerce. Loadings are now close to a million and quarter cars per week, an increase of 100,000 cars weekly from the same period last year. Important developments are now pending in the railroad consolidation field, attention to which has been sharply drawn by the acquisition this week of the Buffalo, Rochester and Pittsburgh road by the Van Sweringen brothers of Cleveland.

Steel Market Good.

The steel industry continues to make very favorable records, both in production and sales, as well as in net earnings of the principal companies. The U. S. Steel Corporation reported a gain of 74,000 in forward tonnage in September, in the face of a considerable gain in quick delivery business during the month. The railroad and motor car industries are absorbing an ever-increasing amount of finished steel, providing a background for a prosperous period in the steel and related industries.

Despite the enormous expansion in speculative borrowing, bankers look for an easier trend in the money market after the turn of the month, to be accentuated from the first of December into the first two or three months of 1929.

Last North Beaver Battery B Veteran Is Buried Friday

Military Funeral On Friday Afternoon For Aged Civil War Veteran

Miltary honors were bestowed upon the remains of John A. Craig, 88, last North Beaver township survivor of the famous Battery B of the 100th Pennsylvania regiment, Friday afternoon at two o'clock at the burial services which took place in the Mt. Jackson United Presbyterian church. Interment was made in the United Presbyterian cemetery south of Mt. Jackson, the village where the old veteran had lived since early youth.

Funeral services were preached by Rev. Robert Hamill, pastor of the Mt. Jackson United Presbyterian church, who was assisted by Rev. Ross Haverfield of the Westfield Presbyterian church. On the casket the flag that has been used by the old battery since the days of the war was drapped, a fitting tribute to the veteran who had stood loyally by it.

In the march to the cemetery seven Civil War veterans marched ahead of the casket, bent and aged, but still fighters, who bravely bade farewell to the departure of a comrade. One of these men was one of the two remaining survivors of Battery B.

Sons of Veterans and World War soldiers participated in the military funeral. In the cemetery services taps were blown for the last time for the veteran and three salutes were fired by Sons of Veterans.

Mr. Craig was one of the three surviving Battery B soldiers. The other two remaining survivors are George Pitzer of this city and David Needler of Edenburg.

He was born in Allegheny county in 1840 and came with his parents to Mt. Jackson when but a boy. He has lived in the village there until his death October 10.

When a young man the war broke out and he enlisted immediately, and went through the entire Civil War. For the past few years he has been physically incapacitated and has spent practically all of his time at his home. He was, however, in comparatively good health and spirits.

Pallbearers for the veteran were neighbors. They were Norman Craig, Samuel Davidson, John Craig, Harry Chambers, Charles Clark and Carl Mitcheltree.

David Needler of Edenburg was the only comrade in Battery B who attended the services, Mr. Pitzer being unable to attend on account of his health.

Among the veterans who attended the services were David Clark, D. P. Needler, Robert Wilson, Philip Wagner, John D. Patterson, Robert Wilson, A. R. Kerr and Wilson Davis, all of Lawrence county.

Consoling thought! Bootlegging and other such wickedness would be as poor as virtue if they had to depend on a collection plate.

It's hard to make friends if you are too particular. The kind you want are here, all right, but they are particular too.

The Desert Song Here October 24

Musical Play To Appear At Cathedral Auditorium—Music By Romberg

One of the greatest musical plays of this generation is Schwab and Mandel's "The Desert Song," which comes to the Cathedral Auditorium on Wednesday, October 24, matinee and night.

The scenes of "The Desert Song" are laid in Morocco during the Riff uprising. There is one band of Riffs led by a mysterious "Red Shadow," played by John Ehrle, who have eluded all efforts of The Foreign Legion to exterminate them. The "Red Shadow" proves to be the song of the French Governor, who dreams of being a Robin Hood on the desert and thus win the girl he admires.

The glorious music has been provided by Sigmund Romberg, who also wrote the score of "Blossom Time," "Maytime," and "The Student Prince." The song hits are many and include "One Alone," One Flower In Your Garden," "It," "Romance," "The Desert Song," "I Want a Kiss" and "The Song of the Riffs."

The company numbers 100 and includes a large male singing chorus. The symphony orchestra is under the direction of Hans Koch.

Prices—night $1.00, $1.50, $2.00, $3.00; matinee 50c, $1.00, $1.50 and $2.00. No tax. Mail orders now. The regular seat sale will open at Snyder's Piano store on Thursday, October 18.

Fellow Traffic Expert:

Here is your opportunity to regulate traffic as it should be regulated. You may be opposed to traffic officers talking prize fight while somebody double-parks up the street. You may know a better way to select traffic officers than on a pound basis. In fact you and I know more about traffic than campers along the Slippery Rock and here is our chance to prove it. The program is "Traffic."

Tom Gilkey will be the principal speaker and will discuss it from an engineer's standpoint. Five minute talks will be made by Bill Hugus from the lawyer angle; a prominent business man on Washington street (as he is always named in whispering campaigns) will tell how business is affected and Jim Cole will disgust it from the Chamber of Commerce viewpoint.

Mark up the evening of the 29th for the best dinner and best program of the year. Our annual pilgrimage to Westminster.

Daddy Browning Plans Swimming Pool For Park

Will Convert New York's Central Park Lake Into Pool For Children

VAUDEVILLE ACTS LOOKING FOR WORK

Steamships Are Now Being Fitted Up For Winter Cruises To Tropics

By CLARK KINNAIRD.
Exclusive Central Press Dispatch to The New Castle News.

NEW YORK, Oct. 13.—Edward W. (Daddy) Browning, who married Peaches Browning and thereby occupied the first page of the tabloids for a long time, has returned to the conservative papers' columns. He not only urges but agrees to pay all costs to convert Central Park reservoir into a super-swimming pool for children. It no longer is used as a reservoir.

Says Daddy: "I will spend one million dollars to convert this old useless body of water into a modern swimming pool and skating rink. I will turn it over to the city free of cost. And I don't want my name connected with it henceforth.

Browning is in the real estate business. He has an office on upper Broadway—to which he invites reporters when he has a plan under way.

In one room he has a floor covered with letters protected by plate glass and the ceiling and walls likewise are coated with epistles from the lonely, all to Daddy Browning—some addressed merely "Daddy Browning, New York."

Daddy no longer adopts girls but he anounces he has 400,000 gifts purchased already for distribution to very small boys and girls in New York this Christmas.

I have a friend who lived in the same hotel as Daddy Browning and went to the same barbership. The hotel is a quiet family place and Browning sedately went to his office every morning in a beautiful chauffeur-driven limousine.

At the barbershop he was known for his $5 tips to manicures—or was it $10?

I hope this doesn't start another wave of letters toward Daddy. He can't possibly read all his mail—and doesn't.

Steamships are being dolled up for their winter cruises. It's the popular thing now to go around the world (or nearly) on an escorted tour. Larger vesseis are required each year. This will be the biggest year of all. Some setamship companies depend on these tours to turn the tide in the matter of earnings.

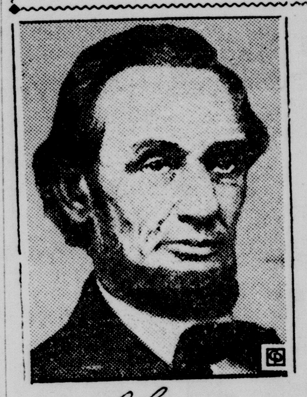
Picking Presidents

1860: Nation Answers Disunion Threats

By CHARLES L. MULLIGAN
Written for Central Press and New Castle News



Throughout Buchanan's term events moved swiftly toward the debacle. The president tried to solve the problems with diplomacy. His attorney general advised him "no legal right" was vested in the federal government to prevent secession. "Oh, for an hour of Andrew Jackson!" cried the Springfield (Mass.) Republican.

Seward, of New York, and Chase, of Ohio, opposed Abraham Lincoln for the nomination by the Republican national convention at Chicago. Lincoln's manager promised a cabinet post to Simon Cameron, a Pennsylvania boss, who held the balance of power, and the nomination was made unanimous on the fourth ballot.

Stephen A Douglas was named by the Democrats at Baltimore, whither they had adjourned from Charleston. The southern wing of the party met also at Baltimore and nominated John C. Breckinridge, of Kentucky. John Bell, of Tennessee, was named by a constitutional union convention in the same city.

This was the choice before the voters: Bell would prohibit political discussion of slavery; Dougless was for "squatter sovereignty," which meant let the new territories decide the slavery issue for themselves; Breckenridge would prohibit interfence by the federal government with slavery in the territories; Lincoln would outlaw slavery in the territories. Again it must be emphasized that abolition of slavery was not a campaign issue—merely its control in that portion of the domain that had not been admitted to the family of states.

The schism in the Democratic ranks made Republican success inevitable. The south went on with its plans for secession. Amid omens of disaster the nation went to the polls and elected Lincoln. He had behind him less experience in government or politics than any of the presidents; he was, from the point of view of the popular vote, a minority choice.

The electoral vote was as follows: Abraham Lincoln, Illinois, and Hannibal Hamlin, Maine, Republicans, 180 votes; J. C. Breckinridge, Kentucky, and Joseph Lane, Oregon, Southern Democrats, 72; John Bell, Tennessee, and Edward Everett, Massachusetts, Constitutional Union, 39; Stephen A. Douglas, Illinois, and H. V. Johnson, Georgia, Northern Democrats, 12.

The popular vote: Lincoln, 1,866,352; Douglas, 1,375,157; Breckinridge, 845,763; Bell, 589,581. No Lincoln votes were recorded in the South. Again the table of voting does not include South Carolina.

(This is the nineteenth of a series of 35 digests of presidential campaigns. The twentieth will be "1864: The North Re-elects Lincoln.")

BEAVER TOWNSHIPS

TRIPLE WEDDING

Wednesday, October 3, 1928, was the wedding day of George, Leona and Margaret Edwards of Big Beaver township, son and daughters of Mr. and Mrs. Robert Edwards.

In the Church of the Nazarene of New Galilee was a scene of a beautiful double wedding uniting the lives of Miss Leona Edwards and Clarence H. Young of Chippewa township and Miss Margaret Edwards and Gilbert C. Boone of Wampum. Rev. B. A. Duvall, the pastor, officiated with the ring service.

At the same time Miss Ethel Reed of Chippewa township became the bride of George R. Edwards of Big Beaver township, with the ceremony being performed by the bride's pastor, Rev. J. O. Campbell, in Darlington U. P. church manse.

Following the wedding ceremonies the three couples left for a wedding trip to Niagara Falls and other points of interest. They returned to the Edwards home where a reception and serenade was tendered them Monday evening by a large crowd of relatives and friends. After the usual buggy ride for the newlyweds, which also included Mr. and Mrs. John Vance, bride and groom of about two weeks, the crowd was treated to ice cream, cake, candy and cigars.

Can't Think Of Any More Charges

BUTLER, Pa., Oct. 13.—If the members of the state highway patrol in Butler could have thought of any more charges to bring against William Grossman of Euclid, they probably have been made before Alderman George R. Kearns with those already filed. Grossman is charged with operating a car while under the influence of liquor, transporting and possessing intoxicating liquor, reckless driving, failing to stop when ordered to do so by an officer, operating a motor vehicle without proper headlights and operating with improper brakes. Grossman was held to court at a hearing last evening.

GOLD BUTTON FOR 50 YEARS SERVICE

CONNELLSVILLE, Pa., Oct. 13.—Harry Dinsmore, blacksmith for the Baltimore & Ohio railroad, has been presented with a 50-year gold button in recognition of a half century of service. During that time he has worked continuously at the Connellsville shops.

The presentation was made by S. T. Erwin, president of the Baltimore & Ohio Veterans' association.

ANNOUNCE PLANS FOR NEW MISSION HERE

E. J. Berquist Is Head Of Projected "Gospel Center", Is Announcement

Plans Are Outlined At Meeting At Y. W. C. A. Auditorium Friday Evening

To an assembled audience of approximately 250 men and women in the auditorium of the Y. W. C. A. Friday evening plans for the establishment of a new religious institution in this city were made known by E. J. Berquist, the new president and general superintendent of the work.

Announcements concerning the details of the endeavor were read by Peter Quartel, who was brought here from outside the city by Mr. Berquist for the occasion. Mr. Quartel announced that after considerable prayer and thought a group of local men have decided to organize a new mission in this city, which will bear the name of the New Castle Gospel Centre. A place for the meetings will be selected and purchased and services inaugurated just as soon as arrangements have been completed.

The purpose, according to the announcement, would be to hold tent meetings, revival gatherings and sponsor the operation of a most complete mission organization. Noted Bible teachers and preachers will be brought to the city and the people of New Castle will be given the opportunity to hear them, it was announced.

The board of managers which will direct the work of the center has been chosen but not yet announced.

The announcement said the sponsors have received encouraging reports concerning the financial support of the center.

Following the reading of the announcement, persons present were asked to signify their intentions of contributing money for the work. Large and small amounts were promised.

It was made known in the announcement that E. J. Berquist has been named as president and general director of the work.

Following the announcements, Rev. G. A. Leichliter of Buffalo delivered an interesting sermon to the assemblage. Other features were duets by Peter Quartel and Rev. Leichliter. These were enjoyed by the audience.

German Motorists Will Invade State

German Automobile Club Members May Pass Trough New Castle On Tour

By ARTHUR C. WIMER,
Special Washington News Correspondent

WASHINGTON, D. C., Oct. 13.—One hundred and twenty-nine officers of the Allgemeiner Deutscher Automobile club, Germany's largest motoring organizations will invade Pennsylvania next week in their tour of Eastern United States, according to advice from the national headquarters of the American Automobile association.

The German motorists who are touring the East under the auspices of the AAA as the first of a series of tours to promote international motoring, will leave Washington Saturday going first to Hagerstown, Maryland and then north into Pennsylvania by way of Uniontown. They will travel westward through Pennsylvania into Ohio and on into Indiana.

In motoring circles here the tour is classed as one of the most important move ever made in the motoring field.

Over 1,000 Receive Federal Pensions

Pennsylvania Ranks Third In Persons Receiving Civil Service Pensions

By ARTHUR C. WIMER,
Special Washington News Correspondent

WASHINGTON, D. C., Oct. 13.—A total of 1,153 residents of Pennsylvania are now drawing pay from the Federal Civil Service retirement and disability fund, according to a statement compiled by the United States department of commerce. The Keystone State ranks third in the country in the number of residents receiving retirement and disability pensions from the Civil Service fund.

A total of 15,383 persons are now drawing pay from the fund, according to the commerce department. For the last fiscal year these annuitants received, roughly, $11,000.000, an average of $374 each.

The oldest annuitant on the role at the end of the year was 108 years. Another was 102, one was 100, 52 ranged from 90 to 100, and 1,255 were between 80 and 90 years.

The District of Columbia comes first in the number of annuitants, with New York ranking second and Pennsylvania third.

Grove City Plans Home Coming Event

Grovers Will Meet Westminster Next Saturday; To Have Dance

GROVE CITY, Oct. 13—Home coming will be observed at Grove City college on Oct. 20, which promises to be one of the biggest day on the social and athletic calendar this fall. The day will be opened with several big sorority luncheons for alumni and rushees. In the afternoon the crimson warriors will meet their oldest rivals, Westminster.

Westminster always comes to Grove City with a large following of enthusiastic rooters whose one hope and ambition is to send the crimson team down to defeat. The cross-country teams will also vie for honors during the afternoon. The day will close with the first student council dance of the year. The annual home coming dance, students, alumni and faculty will all gather to celebrate. The committee in charge is endeavoring to secure the service of Ted Rosenburg and his collegians.

Divorce Refused To Mrs. Livermore

Court Finds That Allegation In Papers Are Not Substantiated By Facts

Mrs. Minnie M. Livermore was refused a divorce from John N. Livermore in an opinion handed down by Judge Hildebrand this morning. The application was made on the grounds of threats to kill, threat to rob and false accusations. In his opinion Judge Hildebrand says that the testimony failed to show any evidence that Livermore had threatened to kill his wife. The only threat to rob was on one occasion when Mrs. Livermore was growling about money. Livermore said he would have to go out and "rob someone". It was claimed to have been spoken more in jest than anything else. The court finds that there was no evidence of any false accusations by Livermore against his wife.

After the couple were married here they went to Dayton, O., where Mrs. Livermore alleged her husband had represented to her that he was the manager of a store. It was found that merely selling washing machines, Judge Hildebrand finds that the grounds for securing a divorce are insufficient.

Sets New High Total For County; Order 50,000 Ballots

REPUBLICAN PARTY GETS 31,000 VOTERS

MERCER, Pa., Oct. 13.—The registration of Mercer county for the fall election of November 6 records the record registration of 41,920 voters which sets a new high total by 4,000 voters in excess of the 1927 total, at that time the record breaker.

The increase comes from the heavy registration in the city of Sharon where over 7,000 will vote this year if all registered cast their ballots.

Of the total number indicated 31,000 have registered Republican. The largest ballot order ever placed in county history was given Friday to the Beaver Printing company of Greenville for 50,000 official ballots and 15,000 specimens.

Republican County Chairman L. R. Rickard places the vote this year at 5 per cent of the total registration. Other county officials say that it will not be over 65 per cent.

In either event the vote cast will be the largest in county history.

Miss Martha Smith Champion Of Y. W. Tennis Tournament

Final Match Of Tennis Tourney Played Friday Afternoon

Miss Martha Smith is champion of the Y. W. C. A. Outdoor Tennis tournament, having defeated Miss Myrtle Burnett in the tennis finals played off Friday afternoon on the Gilfillan court.

Nineteen games were played during the match. Both players are good and the match was interesting. Miss Smith excelled in her fine placing of return balls. Miss Burnett is to be congratulated in picking up Miss Smith's difficult serves.

Score in the first set, 6-3; in the second set 6-4, both for Miss Smith.

Matches in the tournament have been played off during the past several weeks and have been followed with interest by tennis fans.

It was previously announced this final match would be played off this afternoon but this was changed and the match played off Friday afternoon.

Start Building New Brick Plant On Former Site

Pearson Brick Company To Build New And Enlarged Plant In Volant

LOSSES ARE NOT AS YET DETERMINED

Operations were started this morning by the Pearson Brick company, whose plant at Volant was ravaged by fire early Thursday morning clearing the debris and standing brick walls from the site of the old plant, preparatory to the building of a new and enlarged brick plant. It is expected states S. F. Pearson general manager that the new plant will be ready for occupancy and use again January 1, 1929.

To Be Fireproof.

The new building will be a fireproof structure built entirely of brick and steel and will be approximately 225 by 375 feet in size. This is an increase of one half over the dimensions of the old plant which was burned.

This larger sized plant will be constructed in order that extra machinery may be put into operation and that every known modern safety device and brick manufacturing machinery might be installed.

The old plant which had been built many years ago contained many obselete features which the new structure will eliminate. A part of the new brick building will be one story high, another part two floors in height and yet another section will contain four floors.

The exact plans of the building have not yet been worked out and will not be until the debris of the burned plant has been cleared away.

The kilns and tunels which were intact from the flames will also be repaired, enlarged and new ones added, stated Mr. Pearson in the course of renovation and rebuilding of the plant.

At the present time the exact loss cannot be estimated nor can it be determined whether or not the insurance will cover losses sustained by the fire. Some of the machinery on which the burning roof crashed down may be utilized even now, states Mr. Pearson but it is not a certainty.

Stroudsburg Man And Wife Seeking Zeppelin Passage

Prominent Pennsylvania Banker And Wife Seek To Fly Atlantic On Return Trip

(International News Service)

NEW YORK, Oct. 13.—George L. Adams, banker and sportsman of Stroudsburg, Pa., has applied for passage for himself and his wife on the return trip of the Graf Zeppelin.

Announcement that Adams was among the score of persons seeking reservations on the dirigible was made here today by Hugh Allen, personal representative in America for Dr. Hugo Eckener, to whom Adams wrote to engage passage.

In his letter Adams said that he was the first American to fly from London to Brussels after the armistice in 1918.

While price of a passage on the return trip of the Graf Zeppelin has not been fixed, it was estimated by Allen at $3,000.

Woman Loses Purse, Large Sum Of Money

Speedily Recovered By Detective John Young Of The City Police Force

After doing considerable shopping in a number of stores of the city Friday afternon Mrs. Lydia Galbreath of Wampum, on seeking her pocketbook to pay for some children's shoes, discovered that it was gone.

She immediately reported her loss to the police stating that her pocketbook contained a check for $175, $120 in gold and $225 in bills.

Detective John Young was put on the case and in a short time had recovered it and its contents, Mrs. Galbreath having left it on the counter of the Offutt and Company store, while making some purchases there. It had just been found by a clerk and was being held for the owner when the officer arrived and secured it.

ALDERMAN OFFICIATES

Miss Clara Baxter and Frank Thomas were married this morning at 10:30 o'clock by Alderman O. H. P. Green.

Those who complain that political lies are in circulation will please name a President who was elected without benefit of lies.

Yet the man who howls most about the unfairness of tax reduction on large incomes never paid any income tax.

Back In 1803 Records Show No Crowding Of Local Voting Precincts

In the face of the present over crowded condition of many of the voting precincts in the city, it is interesting to know that there was a day when a precinct was more than one sixth of a city ward.

Back in 1803 New Castle wasn't troubled much with congestion in precincts, and the location of them was set by the General Assembly, not the courts.

Finds Old Law

While digging out the record of an old title recently, State Senator George T. Weingartner came across a copy of the Statutes-at-Large, and in one, dated January 13, 1803, found the boundary lines for the precincts for New Castle.

At that time New Castle was in two counties, for the Mercer and Beaver lines met at County Line street, Lawrence County not being formed until nearly the middle of the 19th century.

The statute of January 13, 1803, says that the voting precinct boundary shall begin at the house of Henry Lawrence on the Big Beaver creek, (probably below what is now Wampum) thence up the Beaver River to the forks thereof (near where the Pennsylvania Railroad station now stands.) This was the west boundary —Thence the line ran east by the old boundary line to the Butler County line (now the southeastern edge of Scott township east of Harlansburg) thence south on the east boundary line of Beaver County to the Connoquenessing Creek, and thence to the mouth of the Beaver River.

Some Precinct

In other words, the precinct as then constituted include the south half of the City of New Castle, and what is now South New Castle Boro, all of Shenango, Taylor, Slippery Rock, Perry and Wayne townships, Ellwood City and part of Beaver County just below Ellwood City. The voting was done in the home of Annanias Allen. Does anybody know where this old house stood?

The other precinct included what is now the Seventh ward, lower end of Union township, all of North Beaver township, Big Beaver township, North Beaver township, Wampum, two thirds of Little Beaver township, and a corner of Beaver county as we now know it. What is now Koppple was also probably included in the precinct. The voting was done in the home of Robert Johnson.

Getting to the polls in those days was a pleasant trip, particularly if it happened to be on a raw November day. Hitching up the old horse and buggy about five o'clock in the morning, some of the voters probably made it to the polls by early afternoon, and got home late that night.

No. 11
A JOINT RESOLUTION

Proposing an amendment to article nine, section eight of the Constitution of the Commonwealth of Pennsylvania.

Section 1. Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, and it is hereby enacted by the authority of the same. That the following amendment to the Constitution of the Commonwealth of Pennsylvania be, and the same is hereby proposed in accordance with the eighteenth article thereof:

That section nine, section eight of the Constitution of Pennsylvania is hereby amended to read as follows:

Section 8. The debt of any city, borough, township, school district, or other municipality or incorporated district, except as provided herein and in section fifteen of this article, shall never exceed seven (7) per centum upon the assessed value of the taxable property therein, and the debt of any county except as provided in section fifteen of this article shall never exceed ten (10) per centum upon the assessed value of the taxable realty therein: but the debt of the City of Philadelphia may be increased in such amount that the total city debt of said city shall not exceed fourteen (14) per centum upon the assessed value of the taxable realty therein; nor shall any such county, municipality, or district incur any new debt or increase its indebtedness to an amount exceeding two (2) per centum upon such assessed valuation of taxable realty in the case of counties, or taxable property in the case of other municipalities or districts, without the consent of the electors thereof at a public election in such manner as shall be provided by law; but the City of Philadelphia may incur any debt or increase its indebtedness to an amount not exceeding three per centum on the valuation of taxable realty in said city without the consent of the electors. In ascertaining the borrowing capacity of the City of Philadelphia at any time, there shall be deducted from such debt so much of the debt of said city as shall have been incurred or is about to be incurred and the proceeds thereof expended or about to be expended upon any public improvement, or in the construction, purchase or condemnation of any public utility or part thereof or facility therefor to the extent that such public improvement or public utility or part thereof, whether separately or in connection with any other public improvement or public utility or part thereof, may yield or may reasonably be expected to yield revenue in excess of operating expenses for or toward the payment of the interest and sinking fund charges thereon. The method of determining such amount as to be deducted shall be prescribed by the General Assembly.

In incuring indebtedness for any purpose the City of Philadelphia may issue its obligations, maturing not later than fifty (50) years from the date thereof, with provision for a sinking fund sufficient to retire said obligations at maturity. The payment to such sinking fund to be in equal or graded, annual, or other periodical instalments. Where any indebtedness shall be or shall have been incurred by said City of Philadelphia for the purpose of the construction or improvements of public works or utilities of any character from which income or revenue is to be derived by said city, or for the reclamation of land to be used in the construction of wharves or docks owned or to be owned by said city, such obligations may be in an amount sufficient to provide for and may include the amount of the interest and sinking fund charges accruing and which may accrue thereon throughout the period of construction and until the expiration of one year after the completion of the work for which said indebtedness shall have been incurred, and said city shall not be required to levy a tax to pay said interest and sinking fund charges as required by section ten, article nine of the Constitution of Pennsylvania until the expiration of said period of one year after the completion of said work.

No. 14
A JOINT RESOLUTION

Proposing an amendment to article fifteen of the Constitution of the Commonwealth of Pennsylvania, by adding thereto a new section to be known as section four thereof.

Section 1. Be it resolved by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, That the following amendment to the Constitution of Pennsylvania be, and the same is hereby proposed in accordance with the eighteenth article thereof:

Section 4. The General Assembly is hereby authorized to provide for the consolidation of the county, poor districts, cities, boroughs and townships of the county of Allegheny, and the offices thereof, into a consolidated city and county, with the constitutional and legal capacity of a municipal corporation, to be known as the City of Pittsburgh, and to provide for a charter for its government. The said charter shall be submitted to the electors of said county at a special election to be provided for therein. If the majority of the electors voting thereon, in the county as a whole, and at least two-thirds of all of the electors voting thereon in each of a majority of the cities, boroughs and townships thereof, vote in the affirmative, the act shall take effect for the whole county. If rejected, the said charter may be resubmitted to the electors in original, new or modified form, at any subsequent election until adopted.

It shall be competent, subject to the police power of the State, for the Legislature to provide in said charter

1. For the exercise, by the consolidated city, of all the powers and duties vested in the county of Allegheny, and the poor districts thereof, and such other powers appropriate to a municipality as may be specified therein, except such powers as are specifically reserved by this section to the municipal divisions herein provided for.

2. For the election, by the people of the consolidated city, of a board of commissioners, the number to be fixed by the charter, in lieu of present county commissioners, in which board shall be vested all the powers of the consolidated city and county, except as otherwise provided in the charter.

3. For the organization of a government for the consolidated city and county, and for the election or appointment of the constitutional and other necessary officers thereof, and for their powers and duties.

4. For the organization of all courts, other than those of record in the consolidated city, and for the procedure thereof, and for the appointment of judges and officers thereof, which courts shall exercise the jurisdiction, powers and duties of the magistrates, aldermen and justices of the peace, and such other powers as may be conferred by law.

5. For the transfer to the consolidated city of the property and indebtedness of the county of Allegheny, and the poor districts thereof, and of such property and indebtedness of the cities, boroughs and townships thereof as relate to the powers and duties of said consolidated city, and to provide for an equitable adjustment and payment of such indebtedness, and for this purpose, any taxation therein shall be uniform taxation within the meaning and intent of other provisions of this Constitution.

6. For the assessment of property for taxation, the levying and collection of taxes, and the payment of the cost of any public improvement, in whole or in part, by special assessment upon abutting and nonabutting property materially benefited thereby, and, for this purpose, real estate so charged shall be classed as urban, suburban, and rural, and the assessments made in accordance with such classifications.

7. For the creation, by the board of commissioners, of districts for the purpose of regulating the location, height, area, bulk and use of buildings and premises.

8. For the creation, by the board of commissioners, of special districts for the purpose of acquiring, constructing, maintaining, operating or contracting for, any public property, work, improvement, utility or service, not for the exclusive benefit of any one municipal division, and for the payment of the costs and maintenances of such property, work, improvement, utility or service, there may be special taxes levied throughout such special districts respectively, separate and apart from the general city tax:

Provided, however, That it is the intent of this section that substantial powers be reserved to the cities, boroughs and townships situated in Allegheny County. To this end the charter shall provide for the continued existence of the said cities, boroughs and townships, as municipal divisions of the consolidated city, under their present names and forms of government, subject to the laws provided for government of municipalities of their respective forms and classes, except as provided in the charter, and with their present boundaries, provided that the City of Pittsburgh may be designated by a term other than city and may be divided into two or more municipal divisions, and that any two or more municipal divisions of the consolidated city may, with the consent of a majority of the electors voting thereon in each of such divisions at any general or special election, be united to form a single municipal division.

The said municipal divisions shall have and continue to possess the following powers:

1. The constitutional and legal capacity of municipal corporations, except as limited in the charter.

2. The power to lay and collect taxes and to incur indebtedness, subject to the limitations which are or may be imposed by law upon cities, boroughs or townships of corresponding classification, for the purpose of carrying out any lawful power of said divisions.

3. The power to acquire, own, construct, maintain, operate or contract for all kinds of public property, works, improvements, utilities or services, which shall be within the municipal division, and principally for the use and benefit of the inhabitants thereof, provided this power shall not be taken to include the construction and maintenance of through-traffic streets and bridges, tunnels, subways and appurtenances thereof, nor main or trunk lines for sewer, gas, power and water service, running through more than one municipal division, and designated as such by the board of commissioners.

4. The power to maintain a local police force, and local fire department, with the necessary buildings, appurtenances and equipment therefor, which may be supplemental to the police force and fire department of the consolidated city.

5. The power to establish a limitation of indebtedness for the consolidated city and the municipal divisions therof, provided that the total of the indebtedness of the consolidated city and the municipal divisions thereof shall not, in the aggregate, exceed the limits of the total indebtedness allowed by the Constitution to the county and to the separate municipalities.

6. All other powers not specifically granted by the charter to the consolidate city: Provided, however, That any municipal division may surrender, by majority vote of the electors voting theron at any general or special election, any of its powers to the consolidated city, subject to the acceptance thereof by the board of commissioners.

The said charter may be amended by the Legislature, subject to ratification by a majority of the electors of the consolidated city voting theron at any general or special election: Provided, That no amendment reducing the powers of municipal divisions shall be effective unless ratified by a majority of the electors voting thereon in each of a majority of said divisions.

PROPOSED AMENDMENTS TO THE CONSTITUTION SUBMITTED TO THE CITIZENS OF THE COMMONWEALTH FOR APPROVAL OR REJECTION BY THE GENERAL ASSEMBLY OF THE COMMONWEALTH OF PENNSYLVANIA, AND PUBLISHED BY ORDER OF THE SECRETARY OF THE COMMONWEALTH, IN PURSUANCE OF ARTICLE XVIII OF THE CONSTITUTION.

No. 1-A
A JOINT RESOLUTION

Proposing amendments to section eight and section twenty-one of article four of the Constitution of Pennsylvania

Section 1. Be it resolved by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met. That the following amendments to the Constitution of the Commonwealth of Pennsylvania be, and the same are hereby proposed in accordance with the eighteenth article thereof:

Amend section eight, article four of the Constitution of the Commonwealth of Pennsylvania to read as follows:

Section 8. He shall nominate and, by, and with the advice and consent of two-thirds of all the members of the Senate, appoint a Secretary of the Commonwealth, a Secretary of Internal Affairs, and an Attorney-General during pleasure; a Superintendent of Public Instruction for four years, and such other offices of the Commonwealth as he is, or may be, authorized by the Constitution or by law to appoint; he shall have power to fill all vacancies that may happen in offices to which he may appoint, during the recess of the Senate, by granting commissions which shall expire at the end of their next session. He shall have power to fill any vacancy that may happen, during the recess of the Senate in the office of Auditor General, State Treasurer, Secretary of Internal Affairs, or Superintendent of Public Instruction in a judicial office, or in any other elective office which he is or may be authorized to fill. If the vacancy shall happen during the session of the Senate, the Governor shall nominate to the Senate, before their final adjournment, a proper person to fill said vacancy but in any such case of vacancy, in an elective office, a person shall be chosen to said office on the next election day appropriate to such office according to the provisions of this Constitution, unless the vacancy shall happen within the thirty calendar months immediately preceding such election day, in which case the election for said office shall be held on the second succeeding election day appropriate to such office. In acting on executive nominations the Senate shall sit with open doors, and, in confirming or rejecting the nominations of the Governor, the vote shall be taken by yeas and nays and shall be entered on the journal.

Section 2. Amend section twenty-one, article four of the Constitution of the Commonwealth of Pennsylvania to read as follows:

Section 21. The terms of the Auditor General and the State Treasurer shall each be four years, and they shall be chosen by the qualified electors of the State at general elections but a State Treasurer, elected in the year one thousand nine hundred and nine, shall serve for three years, and his successor shall be elected at the general election in the year one thousand nine hundred and twelve, and in every fourth year thereafter. No person elected to the office of Auditor General or State Treasurer shall be capable of holding the same office for two consecutive terms.

Ellwood City Has Big Registration

One Precinct Has More Than 1200 Voters Report To County Shows

New Castle has a number of precincts that promise congestion in the election on November 6, but Ellwood City comes through with at least one precinct that is 100 votes heavier than the heaviest precinct in New Castle which is the fourth of the second ward. Ellwood's heavy precinct is the fourth ward which has 1282 votes registered.

In the Boro of Ellwood City there are four wards, each ward being a precinct. The First ward has 1124 votes, the Second ward has 965 votes, the Third ward 931 votes and the Fourth 1282. In other words Ellwood City with four voting places has nearly as many votes as the Second ward of New Castle with about the same number of votes.

Other heavy precincts in the county are New Wilmington Boro with 606, Wampum with 499, Neshannock first 622, Union first 622, Union fourth 500, and Bessemer 435.

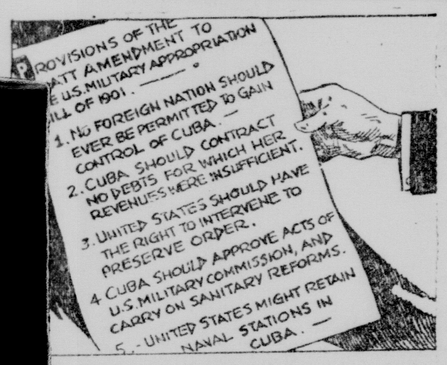
The Story Of Our War With Spain
The United States And Cuba, 1898-1909

WHEN THE UNITED STATES WENT TO WAR WITH SPAIN, CERTAIN EUROPEAN NATIONS HINTED THAT OUR OBJECT IN FIGHTING WAS TO ADD CUBA TO OUR TERRITORY. CONGRESS DENIED HAVING SUCH AN INTENTION, AND IN DECLARING WAR ASSERTED THAT WHEN THE CUBANS WERE FREE AND CAPABLE OF GOVERNING THEMSELVES WE WOULD WITHDRAW FROM THE ISLAND. THIS PROMISE WAS KEPT.

AFTER THE WAR HAD ENDED, AN AMERICAN MILITARY COMMISSION WAS APPOINTED TO GOVERN CUBA. IN 1900, DURING THE AMERICAN OCCUPATION, THE CUBANS WERE PERMITTED TO HOLD MUNICIPAL ELECTIONS, AND IN THE SAME YEAR A CUBAN CONVENTION FRAMED A CONSTITUTION FOR A REPUBLIC SIMILAR TO THAT OF THE UNITED STATES.



CONGRESS COMPELLED THE CUBAN CONVENTION TO ACCEPT THE CONDITIONS OF THE "PLATT AMENDMENT" (1901), AND ON MAY 20, 1902, GEN. LEONARD WOOD, AMERICAN MILITARY GOVERNOR, HANDED THE GOVERNMENT OF THE ISLAND OVER TO THE FIRST CUBAN PRESIDENT, ESTRADA PALMA.

IN 1906 SEÑOR PALMA'S RE-ELECTION AS PRESIDENT WAS ATTENDED BY SERIOUS DISORDERS, AND THE UNITED STATES WAS OBLIGED TO INTERVENE. WILLIAM HOWARD TAFT WAS SENT TO CUBA AS MILITARY GOVERNOR. ORDER WAS RESTORED, AND IN 1909 THE GOVERNMENT WAS GIVEN BACK TO THE CUBANS.

CANGIE AND "FITZ" FIGHT MONDAY NIGHT

End Hard Work For Bout Here

Considerable Interest Shown In Inter-City Pugilistic Test

ELMO AND PAGE TO BOX SEMI-FINAL

Only 48 hours remain until Paris Kid Cangie, New Castle, and Freddy Fitzgerald, Youngstown, clash in a 10-round bout which in a measure may be considered as a tri-state lightweight championship go and, rain or clear, the lightweights will step to the tune of jabs and crosses when Pete Capitolo, the timekeeper, leans a slender hammer on a copper bell.

According to the interest displayed in the return of Cangie to New Castle and Fitzgerald's ascendancy in pugilism there will be a big crowd to see the fighters battle. Cangie will stop hard work tomorrow and Fitzgerald will hang up the boxing gloves today. They are afraid of sustaining a gash which would handicap them.

Chester Smallwood, Sullivan, Ind., will arrive here early Monday morning for his bout with Frankie Moran, Pittsburgh. Chester defeated Babe Powell last Wednesday at Youngstown and the southpaw, who fights like Rosy Stoy, has been training at Youngstown. The battle is limited to six rounds.

Bull Miller will take on Nick Martin of Cleveland in another six-round go. Miller is not the same boy of that name who boxed Elmo the Mighty here but has boxed George Perotta, Frankie Ritz and other middleweights.

Elmo has finished hauling coals to get into shape while Ernie Page, his dusky opponent, has been doing a lot of roadwork to get his pins in shape for the four-round fight. Larry Mattee and Tony Martino will open the show with a four-round bout.

Haid Given Full Share By Cards

Former New Castle Pitcher Given $4,181.30 As Share Of Series Money

Harold (Had) Haid, former New Castle boy and now a reserve pitcher with the St. Louis Cardinals, runners-up to the Yankees in the world's series of 1928, received a full share of the cut of the series money from the Cardinals.

Haid has been used all year as a relief man and has served in a capable way. McKechnie thinks a lot of Haid. This was shown by the fact that Haid relieved St. Louis pitchers in several important games.

It will be recalled that in August the New Castle baseball fans journeyed to Forbes field, Pittsburgh, and presented Haid with a wrist watch.

The former New Castle pitcher did not get in the world's series games, but his many friends in this city were rooting for him and many believed that McKechnie would send Haid into the box in that second game.

Twenty-six Cardinals were given full shares. The St. Louis team split a sum of $117,526.25 between them. The victorious Yanks received about $1,700 more apiece than the Cards.

AT OTHER WORLD'S SERIES — BY FEG MURRAY

World's series may come and world's series may go, but certain plays that happened in the past are so indelibly written on the minds of the fans who saw them that no number of years can ever obliterate their memory. Also they are down in black and white in the record books, which makes it nice for young sports cartoonists who were too busy going to high school to do anything but read the 1912 world's series.

That was the year that the series went to eight games the Red Sox and the Giants having played a 6 to 6 tie in the second game. The final contest was played at Boston on October 16.

"Matty" was pitching for New York. Harry Hooper saved that game for Boston in the sixth inning by a remarkable leaping catch of Doyle's apparent home run in deep right field. Hooper stabbed the ball and fell back over a low fence against a screen, making himself the hero of the most sensational fielding play ever seen in a world's series. That was the game in which Fred Snodgrass, Giant left fielder, made his $30,000 muff in the tenth inning. That put Engle on second with none out. Speaker scored Engle with the tying run and later Yerkes was brought in by Gardner with the winning tally.

Brooklyn and Cleveland put on a remarkable game on October 10, 1920, at Cleveland, the home team winning 8 to 1. Besides Elmer Smith's home run with the bases full and Wambsganss's triple play unassisted each the only one of its kind in a world series game, Pitcher Bagby of Cleveland hit a home run.

In 1923 Casey Stengel of the Giants, was the big hero, winning the first game from the Yankees 5 to 4 with a home run in the ninth after two were out and the third game 1 to 0 with another homer in the seventh.

Washington Team Wins

Ben Franklin Junior High Is Defeated In Great Game, 6-0

KAY MAKES LONG RUN FOR SCORE

One of the most thrilling football games ever to be played in the local junior league by two schools was staged last night when the newly organized George Washington Junior High football team defeated the Ben Franklin Junior High eleven, 6-0, in the final quarter of play. Uren hurled a pass to Kay, who received the pigskin and raced 45 yards for the touchdown.

The battle from start to finish was very tight, with both teams attempting a total of 13 passes, and out of this number the Washington team was fortunate in completing something like four.

Near the end of the third quarter the Washington team completed a pass, Uren to Owens, which placed the ball on Franklin's 55-yard line. As the whistle blew for the final quarter of play the Washington eleven attempted a pass, Uren to Kay, which was completed and in which Kay made his 45-yard run, which spelled defeat for the Franklin team.

Washington attempted another pass for the extra point, but failed.

As the newly organized team scored their touchdown several hundred students that followed the team burst into an uproar of cheers that could be heard far off.

The George Washington team is made up of the players that attended the North Street school last year, and this defeat marked the first time in seven years that the members of the North Street school, which now is George Washington, ever toppled over the Franklinites.

The Washington team last night played exceptionally good football and deserved to win. The Franklin team played minus the services of Fred Fabian and this proved in favor of the newly organized team. By virtue of their win the Washington eleven takes the league lead of the Junior League, with two wins and no defeats.

Babe Ruth Fails In Pinch Role As Barnstormers Lose

Bases Full, Two Out And Team Behind And Babe Goes Out On Easy Grounder

(International News Service)

NEW YORK, Oct. 13.—It was the ninth inning, with the bases full and two outs and the Babe Ruth and Lou Gehrig all-stars were trailing the Bushwicks of Brooklyn by 10 to 6 score. Obviously Ruth was needed at the plate but he was on base.

But rules cut little ice in the barnstorming tour of the home run twins, so another player ran for Ruth and the Babe was allowed to bat. With a perfect setting for a homer the hero of the World's Series expired on a grounder.

Previously Gehrig had clouted a homer.

GRID CAPTAINS

William Adler, captain of the Columbia football team, is the first lineman to hold the captaincy of a Blue and White eleven since 1921 when Scoville led the Lions.

Adler is a guard and has held down that position for the last two years. His defensive ability has always been of high rating.

He entered Columbia in 1924 and was center on the undefeated freshman eleven that fall. He did not play the following year, but reported in 1926. Jack Depler, the line coach, immediately converted him into a guard.

He is 22 years old.

Louis Pessalano captain and tackle of the Villanova eleven, is a strong defensive player. He is seldom drawn by fake plays and never leaves his zone until he is sure the play will go through his position.

Coach Harry Stuhldreher one of the famous Four Horsemen of Notre Dame is mentor at Villanova.

Pitt And State Favored To Win Contests Today

Expect Pitt To Upset West Virginia And Penn State To Defeat Bucknell

WESTMINSTER AT GREENSBURG, PA.

The Pitt Panther, which has piled up an impressive scoring record against small schools so far this season, meets its first big four school, West Virginia, today on the long end of the betting odds, while Penn finds itself in a similar position against Swarthmore and Penn State tackles Bucknell.

Pitt ran up a 40 to 0 score against the Mountaineers last year, while Bucknell upset the Nittany Lions last season 13 to 7. Pennsylvania had no trouble against Swarthmore at their last meeting, romping away with the long end of a 33-0 score.

Temple tackles Western Maryland at Philadelphia, while Lehigh and Gettysburg tangle at Bethlehem. The Dickinson-Muhlenberg game at Carlisle promises to be good, while Erie falls heir to the St. Bonaventure-Quantico Marines game, which promises to be one of the best in the state.

Pennsylvania Military college meets St. Joseph at Chester, Carnegie Tech meets Thiel at Pittsburgh, St. Thomas and Albright tangle at Scranton, Schuylkill and St. John play at Reading, Waynesburg and Geneva are scheduled at Waynesburg, Westminster and St. Francis at Greensburg, Grove City and John Carroll at Grove City, and Susquehanna and Drexel at Philadelphia.

Washington High Beats Duquesne

New Castle High school football team is going to encounter a good team at Washington, Pa., this year. Friday afternoon the Washington High team defeated Duquesne High 13-0.

The victory yesterday was the third of the year, for the Washington team, and their 1928 slate is unmarred. New Castle and Washington meet at Washington on October 2?

Yanks-Cardinals To Clean House Prior To 1929 Campaign

Yankees Will Be Glad To Trade Meusel For Falk, Is Latest Report

McKechnie, Frisch, Douthitt And Maranville Dead Weight To Cardinals

By DAVIS J. WALSH
Sports Editor International News Service

NEW YORK, Oct. 13.—Neither the world series club that almost finished third in a field of two nor the one that equalled par for the court with four straight victories will be quite the same when next it appears in public in the spring. No one yet knows who will get the contract for alterations in the St. Louis Cardinals but it is understood that sealed bids are being received. It is inevitable that changes will be effected, if only on the theory that a change might be for the better since the likelihood of it being for the worse is at something of a minimum.

The Cards as a ball club were good enough to win the National league championship but were so bad in the series as to indicate that they might have won from New Canaan after a game, uphill rally. That kind of an outfit, regardless of what it might have been a few weeks ago, simply doesn't figure to repeat now and everybody on the ball club knows it. Almost any head can be guillotined without astounding the populace.

Yanks to Clean House.

It may be somewhat surprising that a club which won so readily as the Yankees can contemplate shifts, renovations, additions and subtractions, however. But the Yanks know, too, that they won with two men and not nine. The other seven were in there mostly on guest privileges and, if they stay much longer, they will be in danger of imposing on someone's hospitality.

Local observers today were commenting on the possibility that Mark Koenig might play third base next year. But they didn't say where. I don't know that he is one of those who may be going on a long journey soon but, as a suspect, one might say that he is under constant surveillance. Joe Dugan is another of that kind and so are Collins and Grabowski, the catchers who never missed a splinter on the bench all season.

One of the new Yanks-in-prospect is alleged to be Bib Falk of Chicago. Annually, the Yanks trade Meusel in for this young man and annually they go right on playing ball for their original affiliations. But this time the thing is said to be on like a vulgarian's hat in the presence of a lady. The Sox are of a mind to house clean after a disquieting season and the Yanks are believed to be reconciled to Meusel's departure.

Seek Ruffing.

Another probable Yankee for 1929 is understood to be Charley Ruffing, the Boston pitcher. The wanted Ed Morris, but so does everybody else, including the Boston Red Sox. So they are said to have compromised on Ruffing with as many as five of the current Yankees to be involved in the transaction. Several of these are certain to be infielders, as the Yanks will have plenty of that kind with Lary and Reese coming up in the spring.

Just what the Cardinals have in mind, if anything and if any, is mostly unknown. However, it is assumed that they will manage to bear up bravely without Douthit and the gossip around the series was that Frisch would be traded, if he didn't manage the club. He had quite a time managing second base during the last two games of the affair. Alexander, of course, is nearing the inevitable end of his tether and it isn't probable that either McKechnie or his successor will care to go along with Maranville and Thevenow as his shortstops. The former happened to be one of few Cardinals who stood up in the series but there is only one thing you can tell about these veterans and that is that you can't tell anything about them at all. When they go, they go; meaning that they simply don't stay.

Union High Team Defeats Traders By Score 31 To 6

Schiek Is Big Star For Union In Victory Over New Castle Trade Team

RICHARDS SCORES FOR LOSING TEAM

Flashing an aerial attack that proved annoying to their opponents and wide end runs that could not be halted, Union High school's sturdy blue and white warriors scored a triumphant victory over a fighting New Castle Trade school eleven at Scotland Lane Friday afternoon. The score stood 31-6 when the final whistle sounded.

A crowd of approximately 200 students, representing both schools, turned out to witness the fray. The day for the game would have been ideal had the warm summer tinge not been prevalent.

Union scored in each quarter while the Trade team attempted to stave off its offensive stride. The shop school boys fought valiantly throughout the contest, but it was not until the last few minutes of the fourth period that their strength was shown. Suddenly, the crew retaliated after the Union boys had lost the ball on downs, opening an attack via air which almost equalled the passing attack of the Union township lads. During the midst of this, a Union player interfered with the Traders, and the ball was placed on the line where it was received. It was first down for the shop boys near Union's 30 yard line, giving the losing lads renewed hope and finally a touchdown. From the 30 yard mark, Di Muccio, the Traders' plunging half pushed the oval to their opponent's three yard line, from which "Tex" Richards wormed through tackle for his team's only score. A drop kick for the point after touchdown was knocked down.

Where the Traders' strength lay in Richards, Di Muccio and other stalwarts, the power behind Union's gridders lay in the wide end running and passing ability of Schiek, the receiving ability of Lanigan and the line battering prowess of Chill, Union fullback.

Union registered its first six points shortly after the start of the first quarter when Schiek, standing on the Traders' 20 yard line, heaved a beautiful pass to Lanigan who took it within the shadow of the goal post and galloped over the Trade school's line. Through the fake pass method, Schiek slipped the ball to Lanigan again who carried it over for the extra point. Shortly after this touchdown, the first period closed with the score: Union, 7; Trade, 0.

The blue and white combination found its way to the Trade school's goal line twice during the second quarter. Schiek, Union's star signal barker, counted for one, after working his way through the right end of the Trade boys' line. McConaghy, a Union sub, counted for the other after receiving a pass on his rival's five yard mark. Both tries for extra point failed and the score stood: Union, 19; Trade, 0.

One touchdown was accounted in the third period by Schiek, who, after the ball had been advanced toward the score line by Thompson, Union's fleety half, circled right end for the additional six points. Placement for the extra point failed once more. Score: Union, 25; Trade, 0.

The thrilling part of the contest came in the final period of the game. Both teams were on edge and hesitated to give a particle. Within a few moments of the start of the quarter, fans who were near to dozing because of the coming darkness, straightened up when Schiek brought his mighty arm back for another perfect forward. This time the oval sailed farther and more swiftly, leaving the blue and white quarterback's hand on his own 45 yard line and landing beautifully in Lanigan's arms on the Trader's five yard line.

But one Trade man wormed thru to Lanigan who was then safely on the scoring side of the Trade school goal. Fake pass for placement failed. Score: Union, 31; Trade, 0.

While the minutes of the game were rapidly fleeting away, the Trade squad came back with no mean forward passing attack which placed them in position to score. Di Muccio, the acting captain of the Trade eleven, battered his way to Union's line where the shop school Quarterback called upon Tex Richards to score, and he did. The final score stood: Union, 31; Trade, 6.

The Union players had fought hard to win as did the Trade squad, whose fighting was not altogether in vain. They did score, and at a time when one would suppose all strength would have disappeared.

The game's summary follows:

Union 31		Trade 6
Lanigan	L.E.	Dudeck
Morrison	L.T.	Flynn
Pattison	L.G.	Lennox
Rech	C.	Leonelli
Sockman	R.G.	Henzel
Augustine	R.T.	Shook
Clark	R.E.	Clements
Schiek	Q.B.	Ciccone
Thompson	H.B.	Majocha
Jawarski	H.B.	Di Muccio
Chill	F.B.	Boyd

Score by quarters:

Union	7	12	6	6	—31
Trade	0	0	0	6	— 6

Points after touchdown: Lanigan of Union.

Touchdowns: Union, Lanigan, 2; Schiek, 2; Thompson. Trade, Richards.

Four-H Club Boys On Way To Memphis

Will Represent Pennsylvania At National Dairy Exposition

(International News Service)

STATE COLLEGE, Pa., Oct. 13.—Three Pennsylvania Four-H Club boys today are en route to Memphis, Tenn., for the National Dairy Exposition, which opens there today.

The boys who will represent this state at the exposition are Emlyn Smith of Punxsutawney, Paul Norton of Forksville and Theron Johnson of Sugar Grove. They won the highest honors during an elimination contest staged here for boys who won sectional contests during the recent Young Farmers' Week.

American Indian tribes, so badly depleted by the ravages of the white plague and other scourges of civilization, will soon be back to normal strength if they keep on adopting celebrities and politicians.—The Atlanta Journal.

SORDS POINTS

Thistlethwaite Boosts Badger Stock

By JACK SORDS
Sports Cartoonist-Writer for Central Press and New Castle News.

Not since 1912 has a Wisconsin football team won a Western Conference championship. Since then Badger elevens have been in and outers.

However, this season old Wisconsin grads are hopeful of seeing another Badger band in action, rivalling the deeds of that old organization of 1912.

Glenn Thistlewaite, the gent who coached Northwestern university into top honors in the Big Ten, has builded a strong title contender at Wisconsin in his second year as coach there.

Thistlewaite's record at Northwestern and his remarkable showing in such a short time at Wisconsin stamps him as one of the most capable mentors in the conference.

"Gloomy" Glenn, as he is known in the west, has been coaching grid teams for 20 years. He started with Oak Park high in Chicago. Then he removed to Marlham, in Indiana, where he developed fine teams.

At Northwestern he quickly brought the Purple from obscurity to the foremost rank of the Big Ten.

When Thistlewaite came to Wisconsin it was a foregone conclusion that he would do something big for the school. But none guessed that he would be able to whip a formidable team into shape in such short order.

SPORTS DONE BROWN

By NORMAN E. BROWN
Sports Writer for Central Press and New Castle News.

Benny Leonard, outstanding lightweight of the present boxing era, is coming back into the racket. But not as a fighter. The manner of his return threatens another attack on the monopoly enjoyed by Tex Rickard.

Leonard enters the game in a round about way. He has taken over the controlling interest in the Pittsburgh club of the National Professional Hockey league. This franchise carries with it the rights to the use of the Duquesne Garden, where the hockey games are played. The Garden lends itself admirably, of course, to boxing shows. It is Leonard's announced intention to promote boxing matches as well as to continue the hockey activities of the club.

Leonard has the brains and business acumen to become a successful promoter. There will be few who can give him a sleighride in lining up matches. He knows "naturals" when he seems them, is well acquainted with the leading managers and their manners, and is probably one of the greatest publicity builders in the game.

Pittsburgh ought to be a great boxing town if offered the proper kind of entertainment. Leonard should give it to them. A half dozen successful shows indoors over the winter would pave the way for more extensive operations at Forbes field (home of the Pittsburgh National league ball club) when next summer rolls around.

These outdoor shows would draw huge crowds from the Pennsylvania coal mine sections and parts of Ohio and other adjoining states.

• • •

Vic Keen, once destined to become a great pitcher as a member of the Chicago Cubs, moves one step further from the big show. He has been transferred from the Rochester club of the International league, to the Houston club of the Texas league by the St. Louis Cardinals, owners of both organizations.

• • •

Those who have watched closely the running of Andy Payne, the Claremore, Okla., ranch boy who won the coast to coast bunion derby, feel that he deserves another chance to pit his speed and endurance against El Ouafi, the Algerian message carrier, who won the Olympic marathon.

Payne was forced to drop out of a match race with El Ouafi in their first meeting at Tulsa, Okla., recently, when an attack of cramps struck him. The Algerian was leading Payne by almost a mile at the time—the end of 10 miles—but Payne had been fighting courteously to "run out" the cramps for several miles. The track itself was muddy and unfit for a real test.

Joie Ray, greatest of milers, who turned marathon runner a year or so ago and finished a fifth in the Olympic marathon, gets the next crack at El Ouafi. The two hook up in Madison Square Garden, New York City, Oct. 21. It is Joe's debut as a professional runner, although he became a professional boxer for a brief time.

• • •

It is admitted, of course, that Herb Pennock, New York Yankee pitching ace, was hors de combat for the late lamented world's series. Earl Combs was also out of it with injuries. But one wonders just how much fact and how much hooey there was to the multitude of other injuries, sore throats and sundry illnesses reported in the Yankee camp before the big series.

No group of athletes are more fully informed as to what over-confidence will do to a team in a short series, such as the annual fall baseball classic. It is to be conceded that they knew, therefore, just what a rude shock it would be to an over-confident Cardinal team to find out, in the very first game, just how unimportant reported injuries and indispositions among the American league champions really were.

The complete collapse of the Cardinals' offense in the first game and continued demoralization in the second would indicate that the National league champions sustained an awful shock of some kind.

Nothing is more disconcerting to a boxer, apparently on the verge of victory over a groggy opponent, than to have the aforesaid g. o. rush out of his corner at the bell and toss a flurry of haymaker punches on the cocky one's jaw.

What simpler form of strategy could Mons. Miller Huggins employ than that?

A GREAT ACHIEVEMENT

IMPROVED COLD WEATHER PERFORMANCE Resulting from the CROSS-FLOW RADIATOR

In the cross-flow radiator water from the engine enters the inlet tank at the right, flows horizontally through the core and is pumped from the outlet tank at the left back to the engine. The thermostat controlling the water temperature is shown in the circle.

—a Successful Six now winning Even Greater Success

The cross-flow radiators in the cooling systems of the Pontiac Six and the Oakland All-American Six reduce to a minimum the evaporation of water and alcohol. An automatic thermostat prevents water circulation until the engine reaches correct operating temperature. As a consequence the engine warms up quickly and less choking is needed, reducing dilution of crankcase oil.

Because of the protection the cross-flow radiator provides against losses of water and alcohol, the Pontiac Six and the All-American Six require less attention in winter than other cars. Also, through their thermostatic control, they reveal far better performance than other cars in their fields when the temperature is low.

The cross-flow radiator is available only on the Pontiac Six and the All-American Six. Come in and see it. And learn while you're here of the many other advancements which only these two great General Motors Sixes provide.

Automobile Racer Killed In Crash

Fred Comer, Auto Racer Meets Death At Rockingham Speedway, New Hampshire

(International News Service)

LAWRENCE, Mass., Oct. 13.—The body of Fred Comer, automobile racer, lay today in a local undertaking parlor while his grief-stricken wife was trying to decide on funeral arrangements.

At Clover Hill hospital Jimmy Gleason and Dave Evans, two other automobile racers were suffering from fractured ankles and cuts and bruises. Ray Keech, Lou Moore and Bob McDonough, another trio of automobile speed demonds, were nursing minor injuries. These casualties happened during thirty-two minutes that sixteen auto drivers raced in a 200-mile sweepstake race before a holiday crowd yesterday.

With Cliff Woodbury in the lead at the fiftieth lap, the race was postponed until October 27th when news came of the death of Comer. Comer's car upset during the first of the series of three smashups at Rockingham Speedway, Salem, N. H., Comer died enroute to the hospital.

Y. M. C. A. Organizes Four Boys Clubs

Pioneer And Friendly Indian Clubs Are Organized Friday Night

Fifty-two boys from the Scioto street district met on Friday night at the Scioto street neighborhood house at which time three Pioneer and one Friendly Indian clubs were organized by members of the boys division of the local Y. M. C. A.

Clifford Pollock, Everett McClaren and Henry NcNicholas and Andy Lasky will act as leaders for the four new clubs which were organized.

In the Lucky Lindy Pioneer club, Henry Nocera was elected president; James Deep, secretary, and Stephen Deauastine, treasurer.

The Kit Carson club will have Tony Hanzel as president, and Michael Dick for recorder. The remaining Pioneer club has not as yet named their officers.

One Friendly Indian club was also organized at the mass meeting last evening. The Lone Eagle, which is the name for the new club, elected Andy Lasky, chief; wampum bearer, Nicholas Albert; chief runner, Elias Moses, and scribe, Ralph Amodie.

No Parking Will Be Allowed On State Highway

Parking will not be permitted on the highway this afternoon along the New Castle-Youngstown highway where the air circus is to be held. The local detachment of the state police and the state highway patrol will be at the scene to prevent parking along the road. There is plenty of parking in the vicinity without using the highway, it is reported.

EACH day more and more of the millions who count the cost of motoring recognize the obvious superiorities of the new Plymouth in full size, style and performance.

But this is only to be expected in the Plymouth, as in every Chrysler-built car, because of the unique Chrysler principle of Standardized Quality in scientific engineering and precision manufacturing under which these cars are built.

Such features as the "Silver-Dome" high-compression engine, using any gasoline, slender profile radiator, arched windows, "air-wing" fenders, internal expanding hydraulic squeakless 4-wheel brakes—are convincing naked-eye evidence of Plymouth's greater dollar-for-dollar value in the lowest-priced field.

See it. Drive it yourself. You are then bound to know the reasons for the spectacular demand which has already necessitated a doubling of the Plymouth production capacity to meet mounting sales.

N. Y. STOCKS

By W. S. COUSINS
International News Service Financial Editor

NEW YORK, Oct. 13—A melon-cutting for U. S. Steel stockholders—perhaps before the end of the year; lowering of the Reserve bank rediscount rates; easier call money market conditions; huge expansions in steel and motor car business, foreign trade and all departments of domestic industry constituted Wall Street's principal topics of discussion as industrial stock prices soared 2-12 points in the short session of the market today.

Though U. S. Steel corporation directors disclaim all responsibility for the circulation of the melon-cutting rumors, the trading element in and out of Wall street rushed into buy the stock again today, forcing the stock up to 165. Large blocks of steel stock were taken out of the market at these prices, the independent steel shares like Bethlehem and Youngstown also advancing a point or two in confident buying.

Montgomery Ward jumped an additional 12 points to 294, completing a gain of 42 points for the week and 175 points for the current movement. Sears Roebuck pushed along to 159¾ for a new 5-point gain, and a few of the new cheap specialties were placed in the most favorable position by the pools which are fathering their market ventures.

A strong buying wave in the steel stocks and the motors in the final period swept prices of many of the well-known stocks to the highest levels of the day. Bethlehem was a favorite in the former group, with a new advance to above 71, the highest prince since 1923.

General Motors led the closing rally in the motors, Hupp, Chrysler and Hudson also throwing off the influence of speculative selling and regaining all of the ground lost in the first hour. U. S. Steel sold fractionally above 165, for a new 2¼ point gain. Montgomery Ward, Sears Roebuck and other mercantile speculative favorites ruled strong and active at the close.

Weather Conditions May Interfere With Air Circus

Weather Not Promising At Noon For Air Meet At Local Airport

At noon today the weather indications were such that it appeared possible that the Air Circus planned for the City of New Castle Airport on the Youngstown road might not materialize. D. Roy Bradford, president of New Castle Aircraft, Inc., was hopeful that the rain would hold off, and promised that if it did the spectators would see some air maneuvers that would thrill.

Shortly before noon the Ford-Stout offices in Cleveland telephoned that one of their tri-motored metal planes was on the way and possibly another would be sent. Bettis field promised to send three planes, the Mayer people promised to have a plane here, Stinson of Detroit promised two, and Youngstown was expected to have an entry.

If the circus materializes there will be a fifty mile race over a course laid out between the airport to Bessemer, thence back over to New Castle and to Mercer and back to the airport. A prize of fifty dollars is hung up. There will also be a dead-stick landing race, parachute drops, and exhibitions of flights.

At noon a small crowd was at the airport with many cars seen on the road between New Castle and the port.

Contract Let For Election Ballots; 47,000 Necessary

County Commissioners To Supply Plenty Of Booths And Ballot Boxes

Contract for 47,115 ballots and samples to be used at the November election has been let by the county commissioners to Miller, Pyle and Graham, at their bid of $2135, which was the lowest offered. The ballots are the largest, and contain more reading matter than any that have ever been printed in the county.

The size of the ballot is 24 by 38 inches. Election proclamation notices which are to be issued by Sheriff Reynolds, will be the same size as the ballot.

The ballots contain the names of the presidential electors, state and local ticket and the proposed constitutional amendments.

The amendments, who are at the bottom, will all have to be marked separately, as a vote in the party square does not count for them. County commissioners suggest that electors familiarize themselves with these amendments before election day. If they should attempt to read them in the election booths, it would be impossible to get the vote in.

Commissioners have decided to provide from 10 to 12 booths in the big second ward precinct, where nearly 1200 are registered. There will also be two ballot boxes, but only one election board. Additional booths and boxes can be provided wherever necessary.

Unusual Case Comes Before Court Here

Joe Giannone, wanted in Philadelphia for desertion and non-support, was remanded to the custody of Chief of Police C. C. Horner by court this morning after an effort to have him released on a writ of habeas corpus. The case was a very unusual one. Giannone was arrested here on a warrant from Philadelphia. He gave bail for his appearance at a hearing in Philadelphia on October 8th. Having failed to appear at the hearing, a warrant was issued by the Philadelphia justice for contempt of court, and the arguments this morning centered around the jurisdiction of the ccurt here in the matter. Giannone was placed in Chief Horner's custody, pending further developments.

WEEKLY REVIEW OF NEW YORK MARKET

By W. S. COUSINS
International News Service Financial Editor

NEW YORK, Oct. 13.—After momentary hesitation at the mid-week, the brilliant advance in the speculative favorites was resumed in full force this week. The old market bell-wethers were brought forward by the pools and professionals, and whirled upward in vigorous style, with numerous new high price records for the year having been established.

In the face of the continued expension of speculative borrowing repeated "pounding" of the market by the bankers and economists, bearish bulletins by the stock commission houses and Wall street tacticians, the remarkable forward movement in the industrial and specialty stocks gained momentum, while the market broadened on all sides. The shorts have been driven to cover without quarter, the bullish pools have been completely masters of the situation and reports of "distribution" have been met with sensational new movements which have carried prices to the peaks of the year. If the pools are distributing some of their stocks, they are assuredly accumulating in other sections of the list.

The testimony of prominent bankers was taken at full value by the bulls in Wall street. It showed unmistakably that there was no undue strain on credit, that money supplies were ample for all requirements and that the season was fast approaching for a return of funds to the financial centers hence an easier money market for speculative as well as for other purposes. Call money ruled on the board at 6½ per cent, while time collateral rate ruled firmly at 7¼ per cent. In the decline of the British pound sterling to gold-movement point, resumption of gold importation from London to New York was reported.

Industrial and trade reports of the week were in keeping with the extremely favorable forecasts and summaries of the banks and business agencies since the turn of the month. A good increase in fourth quarter steel, motor car and other representative lines of business is now assured, and at prices that will permit a better range of profits for the well-managed concerns.

The most important development of the week in the railroad field was the acquisition of the Van Sweringens of the majority stock interest in the Buffalo, Rochester and Pittsburgh road, a small but strategically important line tapping the rich Penna coal and steel districts and running from there to the northern part of New York state. The line will doubtless form a part of the greater Nickel Plate consolidated system when the component parts have been put together to the satisfaction of the I. C. C.

Enthusiastic forward movements of the mercantile stocks, the motors, steel, coppers and specialties featured the active sessions of the week. New advance of from 10 to 30 points were recorded for the speculative favorites and new peaks were established for such well-known stocks as General Motors, U. S. Steel, Montgomery Ward, Sears Roebuck and Americal Smelting. Buying orders literally swamped the market and swept bare the offerings of the favorite shares.

The commodity and futures markets were generally steady, cotton prices receiving the influence of foreign cables and the threat of colder weather in the cotton belt. Investment markets were mostly concerned with the movements of prices of the industrial convertibles, which were jerked up and down in order to keep pace with the fluctuations in the respective stocks.

GIVES SELF UP; HELD FOR SHERIFF

Bonnie L. Schenfield appeared at the police station Friday and informed Chief Horner that he was wanted by the Sheriff of Lorain County, O., on a charge of desertion and non-support. Sheriff Matthews of Elyria, Lorain County, O., was notified and stated that he would investigate and report some time today, if he wanted Schenfield.

Complete Plans For Boy Scouts Fall Activities

Boy Scout Buglers Will Blow Assemblies On Election Day

CALAHAN ANNOUNCES MEMBERSHIP DRIVE

Following a series of meetings of scout executives of Lawrence county, plans have been completed for one of the greatest seasons in the history of Lawrence county Boy Scouts, according to the statement of J. Lee Calahan, chief scout executive in this county. A program has been arranged for the scouts of the county which will a camp rally of all the scouts, with scout demonstrations and a training course for leaders.

The fall list of activities, states Mr. Calahan, will include troop hikes, week-end camps in the woods, fall contests, a community service, fathers and scouts banquets, birthday parties for troops, Gimo Gash ceremonies and a score of other scout activities in which every county troop may participate.

Buglers at Election Polls.

One of the major features which will be of interest to the general public will be the fact that on election day each troop will have their bugler blow assembly at the different voting booths in their vicinity. This will be done throughout the entire city and county.

The drive of the fall season will be to increase every troop membership to 32 scouts. Every leader and scout is asked by Mr. Calahan to cooperate in this movement and make this a banner year in scouting in Lawrence county.

All scouts receiving Star, Life or Eagle badges must first report to the committee and furnish all evidence in writing that is desired by the scout handbook. The committee in the New Castle district for these scouts is composed of Dr. James Charbonnier, chairman; Ralph F. Davis, John Thomas and John E. Dye. In the Ellwood scout district the committee is made up of J. A. Pearson, chairman; Joseph Gettig, C. H. Smith, C. R. Knally and Charles Rabberman.

The fall training school leaders will start Saturday, November 3, in the Charles McConnell cabin at Camp Phillips. It will be an affair of the entire week-end. On the night of November 3 at the camp the first Gimo Gash initiation will take place. This will occur at 11 o'clock. All scouts must be 15 years of age and have won five merit badges to be eligible for membership in this organization.

It is also announced that the shooting range of the Pennsylvania trainmen employes may be used by the scouts and that the Charles McConnell cabin will be available for hikes.

The review board committee will meet October 22 and October 29 to determine awards of scouts and to further other details of the fall and winter program.

Will Give Awards.

Committees of men who will have charge of the various phases of the scout organization and work during this coming season follow:

Camp rally and demonstration—Leroy Norton, C. H. Smith, Rev. James Charbonnier and Ray Hall.

Fathers and scouts banquet—W. G Ayres, Pete Grittie, Sidney Smith and Howard Bott.

Rotary cabin committee—L. B. Round, R. F. Davis, C. R. Knally, Joseph Gettig and John Grittie.

Individual courts of honor will be held this year with the parents of the boys sitting as the court, states Mr. Calahan. A representative of the council will also be present at the courts of honor which will take place in each troop.

Many merit badges and scout awards were won this summer during camp by scouts. Properly filled in blanks for this equipment is necessary before presentation. All awards will be given scouts at the big fall rally which will take place in the near future, though the exact date has not been set.

Make Plans For 1929 New Castle Automobile Show

Automobile Dealers Association Discuss Plans At Meeting Yesterday

Plans are under way, for the 1929 automobile show by the New Castle Automobile Dealers association, according to the announcement of Ray Hall, secretary. At the meeting of the association which took place Friday afternoon at the Elks club, the 1929 show was discussed.

Already plans are being made and from the indications appearing on the horizon at the present time of arrangements, the greatest automobile show for this city is now in the process of formation.

Next year, the association plans to have the greatest and most pretentious automobile show that has ever taken place in New Castle.

Officers in the New Castle Automobile Dealers association this year are A. C. McCoy, president; Ray Hall, secretary, and L. C. Johns, treasurer.

ABE MARTIN *On Extremists*

EVEN WHERE NOBUDDY 'LL SEE 'EM THEY TRY T O SHOW OFF.

Ike Soles' uncle has jest returned from Tibet an' is wildly enthusiastic o'er th' Tibet plan o' controllin' th' sale of intoxicants, an' reports that he didn' see one Tibetan under th' influence o' liquor. But us Americans are extremists, not only when comes t' legs an drinkin' but in all other matters, an' what works in Tibet wouldn' work here. Look how banditin' an' buildin' English cottages is bein' overdone. Our country is not satisfied with two or three well scattered murders, but ever' town or hamlet seems t' feel that it's up t' it t' rock th' country. Nothin' but th' price prevents widespread face liftin' an' take th' nude stockin' craze. No hut's so poor an' miserable but what its mistress scrubs or makes applebutter, in silk stockins'. We're not temperate about anything. Look at our wave o' defaltin'. One trusted employe gits away with $50 an' it becomes an epidemic. Finally some highly respected an' stainless crook bobs up an' overdoes it, he bein' nothin' less'n than th' treasurer o' Baptist mission in th' south' and liftin' over a million dollars. We con't show any moderation in nothin'. A woman 'll write a communication t' a newspaper about th' evils o' rum an' sign herself "Mother o' Two,' 'an' then some other woman 'll write a column in favor o' th' Canadian scheme, an' sign herself "Mother o' Twelve." Look at th' barbecues an' ther dust bespattered hamburger that mar th' beauty o' our highways. Jest th' moment somebuddy starts up a lottle business an' seems in a fair way t' make a dime, forty-nine similar places 'll start up overnight. An' look a th' fillin' stations. No matter where we run out o' gas, we don't have t' walk over a block. An' th' dry cleanin' business. Ther's so many dry cleanin' trucks that it hain't safe t' pass a street intersection much before midnight. "Rooms fer tourists" is bein' greatly overdone, an' I hear that many husbands often hav t' sleep in th' kitchen, or walk around all night. An' our craze for European travel. Europe lives off our tourists, an' it won't be long till ever' Tom, Dick an' Harry will ha-e been around th' world. I've talked t' lots o' Americans who have circled th' globe, an' I've tried t' feel 'em out on th' great Chinese wall' th' Yak hair plug hats o' Korea, th' phony pearls o' Yokohama th' burnin' gnats o' Benares, th' towers o' silence at Bombay, an' even th' pyramids, but all I've ever been able t' git out o' them wuz that they didn' see a drunk man while they wuz gone. Entirely too many Americans are goin' abroad who hain't even seen out own Horseshoe Curve. America goes int' ever'thing too slap-bang, too recklessly, too flat-footed. Take golf, beermakin' th bare thigh fad, hair bobbin' second cars an' double garages, country clubbin', hair wavin', gangster funerals. spinach eatin" or even spiraea plantin'. We've plunged heedlessly int' all o' these things. If a prominent auto millionaire flops t' Smith, two 'll flop fer Hoover. We overdo ever'thing in this country 'cept payin' our debts an' goin' t' church, an' they hain't showy enough.

Foster's Weather Forecast

WASHINGTON, Oct 13.—Temperatures are expected to average below normal October 10 to 21 with coolest waves centering on 12 and 18; these two waves of lowest temperatures will be northern cold waves and will carry average temperatures to below normal over the continent in general, but will not be expected to bring unseasonably low temperatures nor killing frosts unusually far south. October 21 to November 6 will be of the nature of an Indian Summer or warm, pleasant period following a touch of Wintry weather. A storm wave of mild force will cross continent during week centering on 15; the day following this storm center will probably be the most damaging from frost but, due to light rains and cloudy weather in eastern Great Central valleys and south-central part of continent near this date, much damage will be avoided. During the average season, killing frosts reach well down to latitude 37 by October 20.

The coming Winter, while expected to bring some cold waves of more than usual severity and some heavy snows to parts of North America, will not be an extremely severe season; very severe or dangerous storms will be the exception during next five months; as an average of continent, precipitation during the coming Winter will be far below normal, decreasing during October and remaining below normal after this month; as principal decrease takes place in eastern half of continent, a slight increase will be expected in western half of continent temporarily.

WHEAT

More people are interested in the price and yields of wheat than of any other crop grown on Earth; even rice eating nations are turning to the cereal we call the staff of life. Like automobile production, world wheat acreage has threatened for years to reach the saturation point. Excluding Russia and China, for which countries there are not statistics available, there were thirty-five million more acres of wheat sown in 1928 than in years just preceding the World war. Of this fifteen year increase, Canada takes credit for more than fourteen million acres or 40 per cent, U. S. increased 10.7 million, Argentina 4.2 million, Australia 5.7 million; Europe, excluding Russia, decreased 2.1 million acres during this period. During the past twenty-five years, principal wheat growing countries of world have averaged the following yield in bushels: Germany 28.2, France 19.6, Canada 17.6, Hungary 17.4, Italy 15.7, U. S. 14.4, Australia 11.4, India 11.3, Argentina 10.8. Excepting Russia, we need expect no material European wheat acreage increase in the near future, but that exception is of more importance than any other phase of the present acreage situation; of special importance to North America whose cost of production, yields per acre, transportation to and possible import duties into Europe may make our surplus wheat production unprofitable in near future years. When considering an equalization fee for farm products, the above is of great importance.

Some News, Some Views, But Mostly Just Observations Of Interesting Things Around New Castle

Harvest Homes. Remember them, back in the days when you lived out around Plaingrove, or Pulaski, or Enon Valley? Big shocks of corn heavy with ears and lush with leaves, piled high in the corners of the village hall, with pumpkins set around the base of the shocks, and baskets of red cheeked apples scattered about handy like.

It's about time for the usual Harvest Home affairs, dances, sociables, and even spelling bees. Somehow this October air keeps a whispering that Harvest Home time is back again and a fellow should really do something about it.

There was little of a Harvest Home affair to remind you of a night club, and the strongest thing they had to drink was sweet cider. The jazz band consisted of a fiddle and a banjo perhaps, with now and then a guitar. But for real genuine pleasure, the Harvest Home had the modern day night club running a poor third in the field of two.

The Harvest Home idea sort of grew out of a trip up to the Court House the other afternoon. On the walls of the commissioners office there are several prize ears of corn strung up. Some of the folks thought it was a sample, others thought it might be seed corn for the Farm Bureau, but P. O. Elder broke the secret. It's for the squirrels.

The court house lawn is the home of a lot of squirrels; and the commissioners, T. J. McCullough, P. O. Elder and C. C. Boyd keep them in lunches during the winter. The sign on the lawn "no playing" does not include eating Mr. Elder says and hence the corn.

It begins to appear as though there would be no organized Hallowe'en celebration in New Castle this year. Usually at this time of the month Henry Goldberg was scouting around arranging things. This year Henry is missing and no one else has given the idea any thought.

The road to Butler and on through to Greensburg has a lot of cars on it today. All steamed up over the showing of Westminster last Saturday, friends of the team are going over to Greensburg today to see the game with St. Francis.

If there s one idea that has met with 100 per cent approval in the last few days it is the one to provide the Senior High School Band with new uniforms. Now there is an organization that has kept on working just for the glory of their school.

Year in and year out the band has kept going, and it has been a good band. They have played for football games when the horn player's lip nearly froze to the mouth of the instrument, and when the drummer's hands were blue with cold.

Never any complaint, never asking for anything but the chance to blow out the tunes. And now they are getting new uniforms. Fine.

REAL DEMOCRACY

One learns that John Coolidge, working at an ordinary job in a railroad office in New Haven, arrives on time and devotes his attention to work. This is not strange. He has been well brought up in a good American family. In such a situation is the real force and value—the real thrill—of American democracy. No coddling of kings and princes here. The son of the head of the republic is like the son of any other citizen. Some day he, too, may become president. It will be by his own efforts—not because he is the son of his father. We may sometimes be a little impatient with our republic, but it is the system of living together which gives humanity its best chance.

MANLESS INDUSTRY

A New York power company has installed mechanism that will operate an electric distributing plant without a human being within its walls. The new station will supply enough power to light the homes of 300,000 families. This is just another long step toward the supremacy of machinery in business. Labor saving devices provide the leisure that makes culture and the arts possible.

All of us face a greater problem in the right use of spare time than even science faces in turning over the world by machinery.

DISARMING

America, France, Great Britain, all the nations of the earth, regard each other with a certain suspicion when they come to talk about cutting armies and navies and eliminating guns. Each nation agrees in theory that fierce competition in building bigger and better battleships ought to cease, but the competition goes on. Suspicion alone does not provide the answer. The world moves on to better things by sacrifice. There is yet little spirit of sacrifice in the decisions of nations. There is, indeed, but little of the spirit of sacrifice and true devotion to humanity's interests in the decisions of individuals. Until the spirit of sacrifice enters into the hearts of men and nations, competition and suspicion will remain in action.

A JOY BRINGER.

The world at large took comparatively little note when Richard Outcault died a short time ago. And Dick Outcault brought hours of joy to countless thousands of children who are now men. Who could do more? For this man invented "The Yellow Kid" and "Buster Brown" and other famous playmates on the funny pages of America. It must have been some satisfaction, at 65, for him to look back on all the fun he had produced, all the childish hearts he had warmed and delighted.

HIGH LIGHTS OF HISTORY

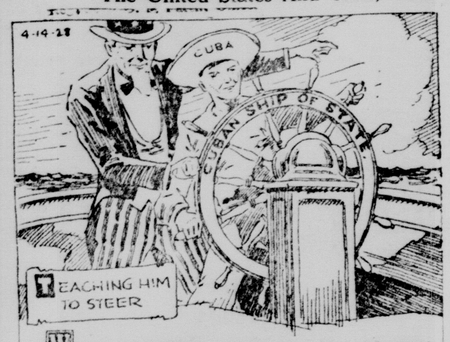
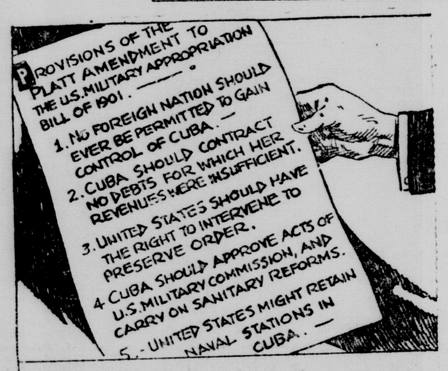
The Story Of Our War With Spain
The United States And Cuba, 1898-1909



WHEN THE UNITED STATES WENT TO WAR WITH SPAIN, CERTAIN EUROPEAN NATIONS HINTED THAT OUR OBJECT IN FIGHTING WAS TO ADD CUBA TO OUR TERRITORY. CONGRESS DENIED HAVING SUCH AN INTENTION, AND IN DECLARING WAR ASSERTED THAT WHEN THE CUBANS WERE FREE AND CAPABLE OF GOVERNING THEMSELVES WE WOULD WITHDRAW FROM THE ISLAND. THIS PROMISE WAS KEPT.

AFTER THE WAR HAD ENDED, AN AMERICAN MILITARY COMMISSION WAS APPOINTED TO GOVERN CUBA. IN 1900, DURING THE AMERICAN OCCUPATION, THE CUBANS WERE PERMITTED TO HOLD MUNICIPAL ELECTIONS, AND IN THE SAME YEAR A CUBAN CONVENTION FRAMED A CONSTITUTION FOR A REPUBLIC SIMILAR TO THAT OF THE UNITED STATES.



CONGRESS COMPELLED THE CUBAN CONVENTION TO ACCEPT THE CONDITIONS OF THE "PLATT AMENDMENT" (1901), AND ON MAY 20, 1902, GEN. LEONARD WOOD, AMERICAN MILITARY GOVERNOR, HANDED THE GOVERNMENT OF THE ISLAND OVER TO THE FIRST CUBAN PRESIDENT, ESTRADA PALMA.

IN 1906 SENOR PALMA'S RE-ELECTION AS PRESIDENT WAS ATTENDED BY SERIOUS DISORDERS, AND THE UNITED STATES WAS OBLIGED TO INTERVENE. WILLIAM HOWARD TAFT WAS SENT TO CUBA AS MILITARY GOVERNOR. ORDER WAS RESTORED, AND IN 1909 THE GOVERNMENT WAS GIVEN BACK TO THE CUBANS.

CANGIE AND "FITZ" FIGHT MONDAY NIGHT

End Hard Work For Bout Here

Considerable Interest Shown In Inter-City Pugilistic Test

ELMO AND PAGE TO BOX SEMI-FINAL

Only 48 hours remain until Paris Kid Cangie, New Castle, and Freddy Fitzgerald, Youngstown, clash in a 10-round bout which in a measure may be considered as a tri-state lightweight championship go and, rain or clear, the lightweights will step to the tune of jabs and crosses when Pete Capitolo, the timekeeper, leans a slender hammer on a copper bell.

According to the interest displayed in the return of Cangie to New Castle and Fitzgerald's ascendancy in pugilism there will be a big crowd to see the fighters battle. Cangie will stop hard work tomorrow and Fitzgerald will hang up the boxing gloves today. They are afraid of sustaining a gash which would handicap them.

Chester Smallwood, Sullivan, Ind., will arrive here early Monday morning for his bout with Frankie Moran, Pittsburgh. Chester defeated Babe Powell last Wednesday at Youngstown and the southpaw, who fights like Rosy Stoy, has been training at Youngstown. The battle is limited to six rounds.

Bull Miller will take on Nick Martin of Cleveland in another six-round go. Miller is not the same boy of that name who boxed Elmo the Mighty here but has boxed George Perotta, Frankie Ritz and other middleweights.

Elmo has finished hauling coals to get into shape while Ernie Page, his dusky opponent, has been doing a lot of roadwork to get his pins in shape for the four-round fight. Larry Maytee and Tony Martino will open the show with a four-round bout.

Haid Given Full Share By Cards

Former New Castle Pitcher Given $4,181.30 As Share Of Series Money

Harold (Had) Haid, former New Castle boy and now a reserve pitcher with the St. Louis Cardinals, runners-up to the Yankees in the world's series of 1928, received a full share of the cut of the series money from the Cardinals.

Haid has been used all year as a relief man and has served in a capable way. McKechnie thinks a lot of Haid. This was shown by the fact that Haid relieved St. Louis pitchers in several important games.

It will be recalled that in August the New Castle baseball fans journeyed to Forbes field, Pittsburgh, and presented Haid with a wrist watch.

The former New Castle pitcher did not get in the world's series games, but his many friends in this city were rooting for him and many believed that McKechnie would send Haid into the box in that second game.

Twenty-six Cardinals were given full shares. The St. Louis team split a sum of $117,526.25 between them. The victorious Yanks received about $1,700 more apiece than the Cards.

GRID CAPTAINS

William Adler, captain of the Columbia football team, is the first lineman to hold the captaincy of a Blue and White eleven since 1921 when Scoville led the Lions.

Adler is a guard and has held down that position for the last two years. His defensive ability has always been of high rating.

He entered Columbia in 1924 and was center on the undefeated freshman eleven that fall. He did not play the following year, but reported in 1926. Jack Depler, the line coach, immediately converted him into a guard.

He is 22 years old.

Louis Pessalano captain and tackle of the Villanova eleven, is a strong defensive player. He is seldom drawn by fake plays and never leaves his zone until he is sure the play will go through his position.

Coach Harry Stuhldreher one of the famous Four Horsemen of Notre Dame is mentor at Villanova.

AT OTHER WORLD'S SERIES — BY FEG MURRAY

Metropolitan Newspaper Service

World's series may come and world's series may go, but certain plays that happened in the past are so indelibly written on the minds of the fans who saw them that no number of years can ever obliterate their memory. Also they are down in black and white in the record books, which makes it nice for young sports cartoonists who were too busy going to high school to do anything but read the 1912 world's series.

That was the year that the series went to eight games the Red Sox and the Giants having played a 6 to 6 tie in the second game. The final contest was played at Boston on October 16.

"Matty" was pitching for New York. Harry Hooper saved that game for Boston in the sixth inning by a remarkable leaping catch of Doyle's apparent home run in deep right field. Hooper stabbed the ball and fell back over a low fence against a screen, making himself the hero of the most sensational fielding play ever seen in a world's series. That was the game in which Fred Snodgrass, Giant left fielder, made his $30,000 muff in the tenth inning. That put Engle on second with none out. Speaker scored Engle with the tying run and later Yerkes was brought in by Gardner with the winning tally.

Brooklyn and Cleveland put on a remarkable game on October 10, 1920, at Cleveland, the home team winning 8 to 1. Besides Elmer Smith's home run with the bases full and Wambsganss's triple play unassisted each the only one of its kind in a world series game, Pitcher Bagby of Cleveland hit a home run.

In 1923 Casey Stengel of the Giants, was the big hero, winning the first game from the Yankees 5 to 4 with a home run in the ninth after two were out and the third game 1 to 0 with another homer in the seventh.

Pitt And State Favored To Win Contests Today

Expect Pitt To Upset West Virginia And Penn State To Defeat Bucknell

WESTMINSTER AT GREENSBURG, PA.

The Pitt Panther, which has piled up an impressive scoring record against small schools so far this season, meets its first big four school, West Virginia, today on the long end of the betting odds, while Penn finds itself in a similar position against Swarthmore and Penn State tackles Bucknell.

Pitt ran up a 40 to 0 score against the Mountaineers last year, while Bucknell upset the Nittany Lions last season 13 to 7. Pennsylvania had no trouble against Swarthmore at their last meeting, romping away with the long end of a 33-0 score.

Temple tackles Western Maryland at Philadelphia, while Lehigh and Gettysburg tangle at Bethlehem. The Dickinson-Muhlenberg game at Carlisle promises to be good, while Erie falls heir to the St. Bonaventure-Quantico Marines game, which promises to be one of the best in the state.

Pennsylvania Military college meets St. Joseph at Chester, Carnegie Tech meets Thiel at Pittsburgh, St. Thomas and Albright tangle at Scranton, Schuylkill and St. John play at Reading, Waynesburg and Geneva are scheduled at Waynesburg, Westminster and St. Francis at Greensburg, Grove City and John Carroll at Grove City, and Susquehanna and Drexel at Philadelphia.

Washington High Beats Duquesne

New Castle High school football team is going to encounter a good team at Washington, Pa., this year. Friday afternoon the Washington High team defeated Duquesne High 13-0.

The victory yesterday was the third of the year, for the Washington team, and their 1928 slate is unmarred. New Castle and Washington meet at Washington on October 27.

Yanks-Cardinals To Clean House Prior To 1929 Campaign

Yankees Will Be Glad To Trade Meusel For Falk, Is Latest Report

McKechnie, Frisch, Douthitt And Maranville Dead Weight To Cardinals

By DAVIS J. WALSH
Sports Editor International News Service

NEW YORK, Oct. 13.—Neither the world series club that almost finished third in a field of two nor the one that equalled par for the court with four straight victories will be quite the same when next it appears in public in the spring. No one yet knows who will get the contract for alterations in the St. Louis Cardinals but it is understood that sealed bids are being received. It is inevitable that changes will be effected, if only on the theory that a change might be for the better since the likelihood of it being for the worse is at something of a minimum.

The Cards as a ball club were good enough to win the National league championship but were so bad in the series as to indicate that they might have won from New Canaan after a game, uphill rally. That kind of an outfit, regardless of what it might have been a few weeks ago, simply doesn't figure to repeat now and everybody on the ball club knows it. Almost any head can be guillotined without astounding the populace.

Yanks to Clean House.

It may be somewhat surprising that a club which won so readily as the Yankees can contemplate shifts, renovations, additions and subtractions, however. But the Yanks know, too, that they won with two men and not nine. The other seven were in there mostly on guest privileges and, if they stay much longer, they will be in danger of imposing on someone's hospitality.

Local observers today were commenting on the possibility that Mark Koenig might play third base next year. But they didn't say where. I don't know that he is one of those who may be going on a long journey soon but, as a suspect, one might say that he is under constant surveillance. Joe Dugan is another of that kind and so are Collins and Grabowski, the catchers who never missed a splinter on the bench all season.

One of the new Yanks-in-prospect is alleged to be Bib Falk of Chicago. Annually, the Yanks trade Meusel in for this young man and annually they go right on playing ball for their original affiliations. But this time the thing is said to be on like a vulgarian's hat in the presence of a lady. The Sox are of a mind to house clean after a disquieting season and the Yanks are believed to be reconciled to Meusel's departure.

Seek Ruffing.

Another probable Yankee for 1929 is understood to be Charley Ruffing, the Boston pitcher. The wanted Ed Morris, but so does everybody else, including the Boston Red Sox. So they are said to have compromised on Ruffing with as many as five of the current Yankees to be involved in the transaction. Several of these are certain to be infielders, as the Yanks will have plenty of that kind with Lary and Reese coming up in the spring.

Just what the Cardinals have in mind, if anything and if any, is mostly unknown. However, it is assumed that they will manage to bear up bravely without Douthit and the gossip around the series was that Frisch would be traded, if he didn't manage the club. He had quite a time managing second base during the last two games of the affair. Alexander, of course, is nearing the inevitable end of his tether and it isn't probable that either McKechnie or his successor will care to go along with Maranville and Thevenow as his shortstops. The former happened to be one of few Cardinals who stood up in the series but there is only one thing you can tell about these veterans and that is that you can't tell anything about them at all. When they go, they go; meaning that they simply don't stay.

Babe Ruth Fails In Pinch Role As Barnstormers Lose

Bases Full, Two Out And Team Behind And Babe Goes Out On Easy Grounder

(International News Service)

NEW YORK, Oct. 13.—It was the ninth inning, with the bases full and two outs and the Babe Ruth and Lou Gehrig all-stars were trailing the Bushwicks of Brooklyn by 10 to 6 score. Obviously Ruth was needed at the plate but he was on base.

But rules cut little ice in the barnstorming tour of the home run twins, so another player ran for Ruth and the Babe was allowed to bat. With a perfect setting for a homer the hero of the World's Series expired on a grounder.

Previously Gehrig had clouted a homer.

Washington Team Wins

Ben Franklin Junior High Is Defeated In Great Game, 6-0

KAY MAKES LONG RUN FOR SCORE

One of the most thrilling football games ever to be played in the local junior league by two schools was staged last night when the newly organized George Washington Junior High football team defeated the Ben Franklin Junior High eleven, 6-0, in the final quarter of play. Uren hurled a pass to Kay, who received the pigskin and raced 45 yards for the touchdown.

The battle from start to finish was very tight, with both teams attempting a total of 13 passes, and out of this number the Washington team was fortunate in completing something like four.

Near the end of the third quarter the Washington team completed a pass, Uren to Owens, which placed the ball on Franklin's 55-yard line. As the whistle blew for the final quarter of play the Washington eleven attempted a pass, Uren to Kay, which was completed and in which Kay made his 45-yard run, which spelled defeat for the Franklin team.

Washington attempted another pass for the extra point, but failed.

As the newly organized team scored their touchdown several hundred students that followed the team burst into an uproar of cheers that could be heard far off.

The George Washington team is made up of the players that attended the North Street school last year, and this defeat marked the first time in seven years that the members of the North Street school, which now is George Washington, ever toppled over the Franklinites.

The Washington team last night played exceptionally good football and deserved to win. The Franklin team played minus the services of Fred Fabian and this proved in favor of the newly organized team. By virtue of their win the Washington eleven takes the league lead of the Junior League, with two wins and no defeats.

Union High Team Defeats Traders By Score 31 To 6

Schiek Is Big Star For Union In Victory Over New Castle Trade Team

RICHARDS SCORES FOR LOSING TEAM

Flashing an aerial attack that proved annoying to their opponents and wide end runs that could not be halted, Union High school's sturdy blue and white warriors scored a triumphant victory over a fighting New Castle Trade school eleven at Scotland Lane Friday afternoon. The score stood 31-6 when the final whistle sounded.

A crowd of approximately 200 students, representing both schools, turned out to witness the fray. The day for the game would have been ideal had the warm summer tinge not been prevalent.

Union scored in each quarter while the Trade team attempted to stave off its offensive stride. The shop school boys fought valiantly throughout the contest, but it was not until the last few minutes of the fourth period that their strength was shown. Suddenly, the crew retaliated, after the Union boys had lost the ball on downs, opening an attack via air which almost equalled the passing attack of the Union township lads. During the midst of this, a Union player interfered with the Traders, and the ball was placed on the line where it was received. It was first down for the shop boys near Union's 30 yard line, giving the losing lads renewed hope and finally a touchdown. From the 30 yard mark, Di Muccio, the Traders' plunging half pushed the oval to their opponent's three yard line, from which "Tex" Richards wormed through tackle for his team's only score. A drop kick for the point after touchdown was knocked down.

Where the Traders' strength lay in Richards, Di Muccio and other stalwarts, the power behind Union's gridders lay in the wide end running and passing ability of Schiek, the receiving ability of Lanigan and the line battering prowess of Chill, Union fullback.

Union registered its first six points shortly after the start of the first quarter when Schiek, standing on the Traders' 20 yard line, heaved a beautiful pass to Lanigan who took it within the shadow of the goal post and galloped over the Trade school's line. Through the fake pass method, Schiek slipped the ball to Lanigan again who carried it over for the extra point. Shortly after this touchdown, the first period closed with the score: Union, 7; Trade, 0.

The blue and white combination found its way to the Trade school's goal line twice during the second quarter. Schiek, Union's star signal barker, counted for one, after working his way through the right end of the Trade boys' line. McConaghy, a Union sub, counted for the other after receiving a pass on his rival's five yard mark. Both tries for extra point failed and the score stood: Union, 19; Trade, 0.

One touchdown was accounted in the third period by Schiek, who, after the ball had been advanced toward the score line by Thompson, Union's fleety half, circled right end for the additional six points. Placement for the extra point failed once more. Score: Union, 25; Trade, 0.

The thrilling part of the contest came in the final period of the game. Both teams were on edge and hesitated to give a particle. Within a few moments of the start of the quarter, fans who were near to dozing because of the coming darkness, straightened up when Schiek brought his mighty arm back for another perfect forward. This time the oval sailed farther and more swiftly, leaving the blue and white quarterback's hand on his own 45 yard line and landing beautifully in Lanigan's arms on the Trader's five yard line.

But one Trade man wormed thru to Lanigan who was then safely on the scoring side of the Trade school goal. Fake pass for placement failed. Score: Union, 31; Trade, 0.

While the minutes of the game were rapidly fleeting away, the Trade squad came back with no mean forward passing attack which placed them in position to score. Di Muccio, the acting captain of the Trade eleven, battered his way to Union's line where the shop school Quarterback called upon Tex Richards to score, and he did. The final score stood: Union, 31; Trade, 6.

The Union players had fought hard to win as did the Trade squad, whose fighting was not altogether in vain. They did score, and at a time when one would suppose all strength would have disappeared.

The game's summary follows:

Union 31		Trade 6
Lanigan	L.E.	Dudeck
Morrison	L.T.	Flynn
Pattison	L.G.	Lennox
Rech	C.	Leonelli
Sockman	R.G.	Henzel
Augustine	R.T.	Shook
Clark	R.E.	Clements
Schiek	Q.B.	Ciccone
Thompson	H.B.	Majocha
Jawarski	H.B.	Di Muccio
Chill	F.B.	Boyd

Score by quarters:

Union	7	12	6	6	—31
Trade	0	0	0	6	— 6

Points after touchdown: Lanigan of Union.

Touchdowns: Union, Lanigan, 2; Schiek, 2; Thompson. Trade, Richards.

Four-H Club Boys On Way To Memphis

Will Represent Pennsylvania At National Dairy Exposition

(International News Service)

STATE COLLEGE, Pa., Oct. 13.—Three Pennsylvania Four-H Club boys today are en route to Memphis, Tenn., for the National Dairy Exposition, which opens there today.

The boys who will represent this state at the exposition are Emlyn Smith of Punxsutawney, Paul Norton of Forksville and Theron Johnson of Sugar Grove. They won the highest honors during an elimination contest staged here for boys who won sectional contests during the recent Young Farmers' Week.

American Indian tribes, so badly depleted by the ravages of the white plague and other scourges of civilization, will soon be back to normal strength if they keep on adopting celebrities and politicians.—The Atlanta Journal.

SORDS POINTS

Thistlethwaite Boosts Badger Stock

By JACK SORDS
Sports Cartoonist-Writer for Central Press and New Castle News.

Not since 1912 has a Wisconsin football team won a Western Conference championship. Since then Badger elevens have been in and outers.

However, this season old Wisconsin grads are hopeful of seeing another Badger band in action, rivalling the deeds of that old organization of 1912.

Glenn Thistlewaite, the gent who coached Northwestern university into top honors in the Big Ten, has builded a strong title contender at Wisconsin in his second year as coach there.

Thistlewaite's record at Northwestern and his remarkable showing in such a short time at Wisconsin stamps him as one of the most capable mentors in the conference.

"Gloomy" Glenn, as he is known in the west, has been coaching grid teams for 20 years. He started with Oak Park high in Chicago. Then he removed to Earlham, in Indiana, where he developed fine teams.

At Northwestern he quickly brought the Purple from obscurity to the foremost rank of the Big Ten.

When Thistlewaite came to Wisconsin it was a foregone conclusion that he would do something big for the school. But none guessed that he would be able to whip a formidable team into shape in such short order.

SPORTS DONE BROWN

By NORMAN E. BROWN
Sports Writer for Central Press and New Castle News.

Benny Leonard, outstanding lightweight of the present boxing era, is coming back into the racket. But not as a fighter. The manner of his return threatens another attack on the monopoly enjoyed by Tex Rickard.

Leonard enters the game in a round about way. He has taken over the controlling interest in the Pittsburgh club of the National Professional Hockey league. This franchise carries with it the rights to the use of the Duquesne Garden, where the hockey games are played. The Garden lends itself admirably, of course, to boxing shows. It is Leonard's announced intention to promote boxing matches as well as to continue the hockey activities of the club.

Leonard has the brains and business acumen to become a successful promoter. There will be few who can give him a sleighride in lining up matches. He knows "naturals" when he seems them, is well acquainted with the leading managers and their manners, and is probably one of the greatest publicity builders in the game.

Pittsburgh ought to be a great boxing town if offered the proper kind of entertainment. Leonard should give it to them. A half dozen successful shows indoors over the winter would pave the way for more extensive operations at Forbes field (home of the Pittsburgh National league ball club) when next summer rolls around.

These outdoor shows would draw huge crowds from the Pennsylvania coal mine sections and parts of Ohio and other adjoining states.

• • •

Vic Keen, once destined to become a great pitcher as a member of the Chicago Cubs, moves one step further from the big show. He has been transferred from the Rochester club of the International league, to the Houston club of the Texas league by the St. Louis Cardinals, owners of both organizations.

• • •

Those who have watched closely the running of Andy Payne, the Claremore, Okla., ranch boy who won the coast to coast bunion derby, feel that he deserves another chance to pit his speed and endurance against El Ouafi, the Algerian message carrier, who won the Olympic marathon.

Payne was forced to drop out of a match race with El Ouafi in their first meeting at Tulsa, Okla., recently, when an attack of cramps struck him. The Algerian was leading Payne by almost a mile at the time—the end of 10 miles—but Payne had been fighting courteously to "run out" the cramps for several miles. The track itself was muddy and unfit for a real test.

Joie Ray, greatest of milers, who turned marathon runner a year or so ago and finished a fifth in the Olympic marathon, gets the next crack at El Ouafi. The two hook up in Madison Square Garden, New York City, Oct. 21. It is Joe's debut as a professional runner, although he became a professional boxer for a brief time.

It is admitted, of course, that Herb Pennock, New York Yankee pitching ace, was hors de combat for the late lamented world's series. Earl Combs was also out of it with injuries. But one wonders just how much fact and how much hooey there was to the multitude of other injuries, sore throats and sundry illnesses reported in the Yankee camp before the big series.

No group of athletes are more fully informed as to what over-confidence will do to a team in a short series, such as the annual fall baseball classic. It is to be conceded that they knew, therefore, just what a rude shock it would be to an over-confident Cardinal team to find out, in the very first game, just how unimportant reported injuries and indispositions among the American league champions really were.

The complete collapse of the Cardinals' offense in the first game and continued demoralization in the second would indicate that the National league champions sustained an awful shock of some kind.

Nothing is more disconcerting to a boxer, apparently on the verge of victory over a groggy opponent, than to have the aforesaid g. o. rush out of his corner at the bell and toss a flurry of haymaker punches on the cocky one's jaw.

What simpler form of strategy could Mons. Miller Huggins employ than that?

All are vain. A man's objection to a hair cut is that it makes him less handsome than he expected.

Among the unnecessary people are those who introduce you as the famous Mr. Soandso to people who never heard of you.

Automobile Racer Killed In Crash

Fred Comer, Auto Racer Meets Death At Rockingham Speedway, New Hampshire

(International News Service)

LAWRENCE, Mass., Oct. 13.—The body of Fred Comer, automobile racer, lay today in a local undertaking parlor while his grief-stricken wife was trying to decide on funeral arrangements.

At Clover Hill hospital Jimmy Gleason and Dave Evans, two other automobile racers were suffering from fractured ankles and cuts and bruises. Ray Keech, Lou Moore and Bob McDonough, another trio of automobile speed demonds, were nursing minor injuries. These casualties happened during thirty-two minutes that sixteen auto drivers raced in a 200-mile sweepstake race before a holiday crowd yesterday.

With Cliff Woodbury in the lead at the fiftieth lap, the race was postponed until October 27th when news came of the death of Comer. Comer's car upset during the first of the series of three smashups at Rockingham Speedway, Salem, N. H., Comer died enroute to the hospital.

Y. M. C. A. Organizes Four Boys Clubs

Pioneer And Friendly Indian Clubs Are Organized Friday Night

Fifty-two boys from the Sciota street district met on Friday night at the Scioto street neighborhood house at which time three Pioneer and one Friendly Indian clubs were organized by members of the boys division of the local Y. M. C. A.

Clifford Pollock, Everett McClaren and Henry NcNicholas and Andy Lasky will act as leaders for the four new clubs which were organized.

In the Lucky Lindy Pioneer club, Henry Nocera was elected president; James Deep, secretary, and Stephen Deauastine, treasurer.

The Kit Carson club will have Tony Hanzel as president, and Michael Dick for recorder. The remaining Pioneer club has not as yet named their officers.

One Friendly Indian club was also organized at the mass meeting last evening. The Lone Eagle, which is the name for the new club, elected Andy Lasky, chief; wampum bearer, Nicholas Albert; chief runner, Elias Moses, and scribe, Ralph Amodie.

No Parking Will Be Allowed On State Highway

Parking will not be permitted on the highway this afternoon along the New Castle-Youngstown highway where the air circus is to be held. The local detachment of the state police and the state highway patrol will be at the scene to prevent parking along the road. There is plenty of parking in the vicinity without using the highway, it is reported.

A GREAT ACHIEVEMENT

IMPROVED COLD WEATHER PERFORMANCE Resulting from the CROSS-FLOW RADIATOR

In the cross-flow radiator water from the engine enters the inlet tank at the right, flows horizontally through the core and is pumped from the outlet tank at the left back to the engine. The thermostat controlling the water temperature is shown in the circle.

A Successful Six now winning Even Greater Success

The cross-flow radiators in the cooling systems of the Pontiac Six and the Oakland All-American Six reduce to a minimum the evaporation of water and alcohol. An automatic thermostat prevents water circulation until the engine reaches correct operating temperature. As a consequence the engine warms up quickly and less choking is needed, reducing dilution of crankcase oil.

Because of the protection the cross-flow radiator provides against losses of water and alcohol, the Pontiac Six and the All-American Six require less attention in winter than other cars. Also, through their thermostatic control, they reveal far better performance than other cars in their fields when the temperature is low.

The cross-flow radiator is available only on the Pontiac Six and the All-American Six. Come in and see it. And learn while you're here of the many other advancements which only these two great General Motors Sixes provide.

Such features as the "Silver-Dome" high-compression engine, using any gasoline, slender profile radiator, arched windows, "air-wing" fenders, internal expanding hydraulic squeakless 4-wheel brakes—are convincing naked-eye evidence of Plymouth's greater dollar-for-dollar value in the lowest-priced field.

J. A. P. Club To Have Masquerade

ELLWOOD CITY, Oct. 13.—Members of the J. A. P. club numbering ten met Thursday evening at the home of Mrs Henry Wiley of the New Brighton road. At that time plans were made for a Hallowe'en party which will be an event of Tuesday, October 23 at the home of Mr. and Mrs. Paul Walker of Fifth street, with the husbands as special guests.

Special guests at Thursday's meeting were: Mrs. Amos Wiley, Mrs. Paul Thornhill, Mrs. John Yahn, Mrs. Birchard, Mrs. Lannigan, Miss Laure McCasky and Miss Margaret Shott. At the conclusion of a pleasant evening of sewing, a dainty lunch was served by the hostess assisted by Mrs. Harry Shott and Mrs. Van Gorder.

Mrs. Harry Bishop of Knox Stop will entertain the club on October 25 at her home.

Baptist Womens Conference Planned

ELLWOOD CITY, Oct. 13. — On Friday, October 19, an interesting conference is planned to take place in the First Baptist church of Rochester. This will be the Baptist Women Missionary conference and President Mrs. F. M. Newcombe of Philadelphia will give an address at 2:30, and echoes of the Johnstown convention will be a feature.

A large number of delegates will attend from the local churches and the members of the Pittsburgh association are invited.

Probe Fatal Assault

New York police are investigating alleged assault of Miss Bessie Poole, 33, above, prominent society woman of Brockton, Mass., who died from injuries she received in a Broadway night club, when she was struck in the face by an official of the establishment.

City To Observe Hallowe'en With Big Mummers Parade

ELLWOOD CITY, Oct. 13. — As is customary the city will observe Hallowe'en this year with a large mummers parade, which will traverse the principal streets. Various and numerous prizes which will be donated for the occasion by the merchants.

The committee met recently and made tentative plans for the affair, and those wishing to compete for prizes will follow a printed list of costumes, which will be graded according to the age of those parading.

The parade last year was one of the most successful and was enjoyed by over a thousand mummers and thousands of spectators.

Mrs. John Powell Has Club Dinner

ELLWOOD CITY, Oct. 13. — Mrs. John Powell of Second street entertained the members of the A. M. L. club at a 6:30 dinner Friday evening. Covers were laid for eight and centerpiece was of yellow flowers. Mrs. Henry Schenck assisted Mrs. Powell in serving.

The evening hours were spent at bridge with two tables in play. At the conclusion of a pleasant evening, the score honor went to Mrs. Sam Johnston. In two weeks Mrs. Charles Markwort of Wayne avenue will entertain.

A JOINT RESOLUTION

Proposing an amendment to article nine, section eight of the Constitution of the Commonwealth of Pennsylvania.

Section 1. Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, and it is hereby enacted by the authority of the same. That the following amendment to the Constitution of the Commonwealth of Pennsylvania be, and the same is hereby proposed in accordance with the eighteenth article thereof:

That section eight of article nine is hereby amended to read as follows:

Section 8. The debt of any city, borough, township, school district, or other municipality or incorporated district, except as provided herein and in section fifteen of this article, shall never exceed seven (7) per centum upon the assessed value of the taxable property therein, and the debt of any county except as provided in section fifteen of this article shall never exceed ten (10) per centum upon the assessed value of the taxable realty therein: but the debt of the City of Philadelphia may be increased in such amount that the total city debt of said city shall not exceed fourteen (14) per centum upon the assessed value of the taxable realty therein. nor shall any such county, municipality, or district incur any new debt or increase its indebtedness to an amount exceeding two per centum upon such assessed valuation of taxable realty in the case of counties, or taxable property in the case of other municipalities or districts, without the consent of the electors thereof at a public election in such manner as shall be provided by law; but the City of Philadelphia may incur any debt or increase its indebtedness to an amount not exceeding three per centum of the valuation of taxable realty in said city without the consent of the electors. In ascertaining the borrowing capacity of the City of Philadelphia at any time, there shall be deducted from such debt so much of the debt of said city as shall have been incurred or is about to be incurred and the proceeds thereof expended or about to be expended upon any public improvement, or in the construction, purchase or condemnation of any public utility or part thereof or facility therefor to the extent that such public improvement or public utility or part thereof, whether separately or in connection with any other public improvement or public utility or part thereof, may yield or may reasonably be expected to yield revenue in excess of operating expenses for or toward the payment of the interest and sinking fund charges thereon. The method of determining such amount so to be deducted shall be prescribed by the General Assembly.

In incuring indebtedness for any purpose the City of Philadelphia may issue its obligations, maturing not later than fifty (50) years from the date thereof, with provision for a sinking fund sufficient to retire said obligations at maturity. The payment to such sinking fund to be in equal or graded, annual, or other periodical instalments. Where any indebtedness shall be or shall have been incurred by said City of Philadelphia for the purpose of the construction or improvements of public works or utilities of any character from which income or revenue is to be derived by said city, or for the reclamation of land to be used in the construction of wharves or docks owned or to be owned by said city, such obligations may be in an amount sufficient to provide for and may include the amount of the interest and sinking fund charges accruing and which may accrue thereon throughout the period of construction and until the expiration of one year after the completion of the work for which said indebtedness shall have been incurred, and said city shall not be required to levy a tax to pay said interest and sinking fund charges as required by section ten, article nine of the Constitution of Pennsylvania until the expiration of said period of one year after the completion of said work.

No. 14
A JOINT RESOLUTION

Proposing an amendment to article fifteen of the Constitution of the Commonwealth of Pennsylvania, by adding thereto a new section to be known as section four thereof.

Section 1. Be it resolved by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, That the following amendment to the Constitution of Pennsylvania be, and the same is hereby proposed in accordance with the eighteenth article thereof:

Section 4. The General Assembly is hereby authorized to provide for the consolidation of the county, poor districts, cities, boroughs and townships of the county of Allegheny, and the offices thereof, into a consolidated city and county, with the constitutional and legal capacity of a municipal corporation, to be known as the City of Pittsburgh, and to provide for a charter for its government. The said charter shall be submitted to the electors of said county at a special election provided for therein. If the majority of the electors voting thereon, in the county as a whole, and at least two-thirds of all of the electors voting thereon in each of a majority of the cities, boroughs and townships thereof, vote in the affirmative, the act shall take effect for the whole county. If rejected, the said charter may be resubmitted to the electors in original, new or modified form, at any subsequent election until adopted.

It shall be competent, subject to the police power of the State, for the Legislature to provide in said charter:

1. For the exercise, by the consolidated city, of all the powers and duties vested in the county of Allegheny, and the poor districts thereof, and such other powers appropriate to a municipality as may be specified therein, except such powers as are specifically reserved by this section to the municipal divisions herein provided for.

2. For the election, by the people of the consolidated city, of a board of commissioners, the number to be fixed by the charter, in lieu of present county commissioners, in which board shall be vested all the powers of the consolidated city and county, except as otherwise provided in the charter.

3. For the organization of a government for the consolidated city and county, and for the election or appointment of the constitutional and other necessary officers thereof, and for their powers and duties.

4. For the organization of all courts, other than those of record in the consolidated city, and for the procedure thereof, and for the appointment of judges and officers thereof, which courts shall exercise the jurisdiction, powers and duties of the magistrates, aldermen and justices of the peace, and such other powers as may be conferred by law.

5. For the transfer to the consolidated city of the property and indebtedness of the county of Allegheny, and the poor districts thereof, and of such property and indebtedness of the cities, boroughs and townships thereof as relate to the powers and duties of said consolidated city, and to provide for an equitable adjustment and payment of such indebtedness, and for this purpose, any taxation therein shall be uniform; taxation within the meaning and intent of other provisions of this Constitution.

6. For the assessment of property for taxation, the levying and collection of taxes, and the payment of the cost of any public improvement, in whole or in part, by special assessment upon abutting and nonabutting property materially benefited thereby, and, for this purpose, real estate so charged shall be classified as urban, suburban, and rural, and the assessments made in accordance with such classifications.

7. For the creation, by the board of commissioners, of districts for the purpose of regulating the location, height, area, bulk and use of buildings and premises.

8. For the creation, by the board of commissioners, of special districts for the purpose of acquiring, constructing, maintaining, operating or contracting for, any public property, work, improvement, utility or service, not for the exclusive benefit of any one municipal division, and for the payment of the costs and maintenance of such property, work, improvement, utility or service, there may be special taxes levied throughout such special districts respectively, separate and apart from the general city tax:

Provided, however, That it is the intent of this section that substantial powers be reserved to the cities, boroughs and townships situated in Allegheny County. To this end the charter shall provide for the continued existence of the said cities, boroughs and townships, as municipal divisions of the consolidated city, under their present names and forms of government, subject to the laws provided for government of municipalities of their respective forms and classes, except as provided in the charter, and with their present boundaries, provided that the City of Pittsburgh may be designated by a term other than city and may be divided into two or more municipal divisions, and that any two or more municipal divisions of the consolidated city may, with the consent of a majority of the electors voting thereon in each of such divisions at any general or special election, be united to form a single municipal division.

The said municipal divisions shall have and continue to possess the following powers:

1. The constitutional and legal capacity of municipal corporations, except as limited in the charter.

2. The power to lay and collect taxes and to incur indebtedness, subject to the limitations which are or may be imposed by law upon cities, boroughs or townships of corresponding classification, for the purpose of carrying out any lawful power of said divisions.

3. The power to acquire, own, construct, maintain, operate or contract for all kinds of public property, works, improvements, utilities or services, which shall be within the municipal division, and principally for the use and benefit of the inhabitants thereof, provided this power shall not be taken to include the construction and maintenance of through-traffic streets and bridges, tunnels, subways and appurtenances thereof, nor main or trunk lines for sewer, power and water service, running through more than one municipal division, and designated as such by the board of commissioners.

4. The power to maintain a local police force, and local fire department, with the necessary buildings, appurtenances and equipment therefor, which may be supplemental to the police force and fire department of the consolidated city.

5. The power to establish a limitation of indebtedness for the consolidated city and the municipal divisions therof, provided that the total of the indebtedness of the consolidated city and the municipal divisions thereof shall not, in the aggregate, exceed the limits of the total indebtedness allowed by the Constitution to the county and to the separate municipalities.

6. All other powers not specifically granted by the charter to the consolidate city: Provided, however, That a municipal division may surrender, by majority vote of the electors voting thereon at any general or special election, any of its powers to the consolidated city, subject to the acceptance thereof by the board of commissioners.

The said charter may be amended by the Legislature, subject to ratification by a majority of the electors of the consolidated city voting thereon at any general or special election: Provided, That no amendment reducing the powers of municipal divisions shall be effective unless ratified by a majority of the electors voting thereon in each of a majority of said divisions.

PROPOSED AMENDMENTS TO THE CONSTITUTION SUBMITTED TO THE CITIZENS OF THE COMMONWEALTH FOR APPROVAL OR REJECTION BY THE GENERAL ASSEMBLY OF THE COMMONWEALTH OF PENNSYLVANIA, AND PUBLISHED BY ORDER OF THE SECRETARY OF THE COMMONWEALTH, IN PURSUANCE OF ARTICLE XVIII OF THE CONSTITUTION.

No. 1-A
A JOINT RESOLUTION

Proposing amendments to section eight and section twenty-one of article four of the Constitution of Pennsylvania.

Section 1. Be it resolved by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met. That the following amendments to the Constitution of the Commonwealth of Pennsylvania be, and the same are hereby proposed in accordance with the eighteenth article thereof:

Amend section eight, article four of the Constitution of the Commonwealth of Pennsylvania to read as follows:

Section 8. He shall nominate and, by, and with the advice and consent of two-thirds of all the members of the Senate, appoint a Secretary of the Commonwealth, a Secretary of Internal Affairs, and an Attorney-General during pleasure, a Superintendent of Public Instruction for four years, and such other offices of the Commonwealth as he is, or may be, authorized by the Constitution or by law to appoint. He shall have power to fill all vacancies that may happen in offices to which he may appoint, during the recess of the Senate, by granting commissions which shall expire at the end of their next session. He shall have power to fill any vacancy that may happen, during the recess of the Senate in the office of Auditor General, State Treasurer, Secretary of Internal Affairs, or Superintendent of Public Instruction in a judicial office, or in any other elective office which he is or may be authorized to fill. If the vacancy shall happen during the session of the Senate, the Governor shall nominate to the Senate, before their final adjournment, a proper person to fill said vacancy but in any such case of vacancy, in an elective office, a person shall be chosen to said office on the next election day appropriate to such office according to the provisions of this Constitution, unless the vacancy shall happen within the calendar months immediately preceding such election day, in which case the election for said office shall be held on the second succeeding election day appropriate to such office. In acting on executive nominations the Senate shall sit with open doors, and, in confirming or rejecting the nominations of the Governor, the vote shall be taken by yeas and nays and shall be entered on the journal.

Section 2. Amend section twenty-one, article four of the Constitution of the Commonwealth of Pennsylvania to read as follows:

Section 21. The terms of the Auditor General and the State Treasurer shall each be four years, and they shall be chosen by the qualified electors of the State at general elections but a State Treasurer, elected in the year one thousand nine hundred and nine, shall serve for three years, and his successor shall be elected at the general election in the year one thousand nine hundred and twelve, and in every fourth year thereafter. No person elected to the office of Auditor General or State Treasurer shall be capable of holding the same office for two consecutive terms.
